Established Over Half a Century

OUR COVER ILLUSTRATIONS

Bruce's Peerless Nasturtiums—We offer 8 varieties Dwarf and 8 varieties Tall Nasturtiums, in separate collections, for 25c each. Customers ordering please say which wanted—Tall or Dwarf. Splendid value and very popular. See page 42 for full particulars.

Unsworth's Perfect Musk Melon—A great favorite on the market, splendid quality. See page 43 for full particulars. Pkt. 5c, oz. 20c, 2 oz. 35c, ¼ lb. 60c.

Bruce's Unrivalled Pea—A fine early pea, of exquisite flavor and heavy yielder. See page 17 for full particulars. Pkt. 15c, ½ pt. 25c, pt. 40c, qt. 75c. Postage extra.

New Earliana Tomato—A selected stock of this fine early popular variety. See page 22 for full particulars. Pkt. 5c, oz. 35c, 2 oz. 60c, ¼ lb. 1.10.

DISCOUNTS ON SEEDS IN PACKETS ONLY

Those who remit \$1 00 for Seeds in Packets may select to the value of \$1 25						
" " 2 00	"	"	"	"	"	2 50
" " 3 00	"	"	"	"	"	3 75
" " 4 00	"	"	"	"	"	5 00
" " 5 00	"	"	"	"	"	6 25

These Discounts apply to Vegetable and Flower Seeds in Packets only, and only when remittances accompany the order. Seeds offered in Special Collections are not subject to discounts.

Seeds are frequently offered in packets at lower prices than our Catalogue quotations; this is done by reducing the size of the packet. Where seeds are not sold by weight we always give full size packets.

SEEDS IN COLLECTIONS

No. 1. Vegetable. 1 pkt. each Beet, Cabbage, Carrot, Lettuce, Water Melon, Onion, Parsnip, Radish, Spinage and Turnip—our selection; 10 packets. Retail value 50c, for 25c, postpaid.

No. 2. Vegetable. 1 pkt. each Beans, Beet, Cabbage, Carrot, Corn, Cucumber, Lettuce, Musk Melon, Water Melon, Onion, Parsnip, Parsley, Pumpkin, Peas, Radish, Salsify, Spinage, Squash, Tomato and Turnip—our selection; 20 packets. Retail value \$1.00, for 50c, postpaid.

No. 3. Vegetable. 1 pkt. each Beet, Cabbage, Carrot, Cauliflower, Celery, Cress, Cucumber, Lettuce, Musk Melon, Water Melon, Onion, Parsley, Parsnip, Pumpkin, Radish, Salsify, Spinage, Squash, Tomato, Turnip, Sage and Savory, and ½ pint each Beans, Corn and Peas—our selection; 22 packets and 3 half-pints. Retail value, \$1.50, for 75c, postpaid.

No. 4. Vegetable. 1 pkt. each Beet, Cabbage, Carrot, Erfurt Cauliflower, Paris Golden Celery, Cress, Cucumber, Lettuce, Musk Melon, Water Melon, Onion, Parsley, Parsnip, Pumpkin, Radish, Salsify, Spinage, Squash, Tomato, Turnip, Savory, Sage, and 1 pint each Beans, Corn and Peas—our selection; 22 packets and 3 pints. Retail value, \$2.00, for \$1.00, postpaid.

No. 5. Root Seeds. 1 pkt. each, 3 best varieties Sugar Beet, 3 best varieties Carrot, 3 best varieties Mangels, and 6 best varieties Turnips—our selection. Retail value, 75c, for 35c, postpaid.

No. 6. Floral. 1 pkt. each Alyssum, Balsam, Calliopsis, Cornflower, Eschscholtzia, Dianthus, Linum, Larkspur, Mignonette, Petunia, Snapdragon and Zinnia—12 pkts. Retail value 60c., for 25c, postpaid.

No. 7. Floral. Bruce's Royal Nosegay Sweet Peas. See page 42. Ten exquisite distinct varieties. Retail value 50c, for 25c, postpaid.

No. 8. Floral Bruce's Novelty Sweet Peas. See page 66. Six grand new sorts. Retail value 35c, for 25c, postpaid.

No. 9. Floral. Bruce's Peerless Dwarf Nasturtiums. See page 42. Eight grand distinct varieties. Retail value 40c, for 25c, postpaid.

No. 10. Floral. Bruce's Peerless Tall Nasturtiums. See page 42. Eight splendid distinct varieties. Retail value 40c, for 25c, postpaid.

No. 11. Floral. Bruce's Empire Asters. See page 42. Six superb distinct varieties. Retail value 60c, for 25c, postpaid.

Some of the above collections can be changed in their make up. Full size packets are used in all cases. Remittances must accompany order. All the above collections will be sent postpaid to United States except Nos. 3 and 4, to which add 20c and 35c respectively for extra postage. Postage to Newfoundland is 15c per lb. or any part of a pound; add 15c extra for postage there on any of above collections except Nos. 3 and 4, to which add 20c and 35c respectively.

NOVELTIES

See pages 36, 37 and 38 for Vegetable Novelties and pages 39, 40 and 41 for Flower Seed Novelties.

SEED GROWERS AND MERCHANTS

HAMILTON, CANADA, Jan. 1st, 1906.

IN presenting the FIFTY-FIFTH ANNUAL EDITION OF OUR ILLUSTRATED CATALOGUE OF SEEDS FOR THE FARM, VEGETABLE AND FLOWER GARDEN, GREENHOUSE AND FOREST, of Garden Implements and Agricultural and Horticultural Sundries for 1906, we again appeal with confidence to those who have patronized us so liberally in the past for a continuance of their favors, which have come to us with such gratifying regularity since the establishment of this business, fifty-six years ago; and we also avail ourselves of this opportunity to solicit from others whom we have not hitherto had the privilege of serving, a share of their patronage.

Our Catalogue contains nearly everything of value to those engaged in Agricultural and Horticultural pursuits. New introductions of Flowers, Vegetables and Field Roots are annually offered to the public, often with descriptive matter differing widely from the reality, and usually outlined by illustrations of an extravagant character. We have endeavored in our publications, as far as possible, to protect the Vegetable Kingdom from such caricatures. We invariably make ourselves acquainted with the value of what are termed novelties before offering them, and when this cannot be done we give the raiser's description only; we make this reference in the interest of those who have not been using our seeds, and who may infer from the modest illustrations in our Catalogue that the product must necessarily be of the same dimensions. One trial will remove any misapprehension of this nature, and prove that in quality our stock of Seeds for the Farm Garden and Greenhouse will compare most favorably with the best offered, no matter from what source they come.

The increase in the population of Canada during the past few years, and especially in great manufacturing centres like the City of Hamilton, has largely increased the acreage under cultivation for growing Vegetables, and this will continue to extend as our factories are enlarged and new industries are added to those in operation.

The past season was favorable for maturing the most important Seed Crops, and there is no serious shortage in the leading varieties of Root Seeds for the Farm or of Vegetable Seeds for the Garden, consequently prices are moderate, and with favorable weather conditions and an assured demand there is room for increased production with profitable returns.

The shortage in the crop of Canadian Red Clover Seed the past season accounted for the high prices which prevailed. There has been harvested in 1905 a good crop of fine quality which will be sufficient for home requirements, but the foreign demand or the lack of it will regulate values.

SUGGESTIONS TO CUSTOMERS.

Owing to the extended nature of our business connections, and the heavy expense incurred in collecting accounts, we conduct our business on **Cash Principles**; therefore, orders to receive prompt attention must be accompanied by a remittance of the amount. Remittances can be made in current Bank Bills, Postoffice Orders, Postal Notes, Express Orders, or by Draft, and for amounts under one dollar in Postage Stamps. Postoffice Orders, Postal Notes and Express Orders are preferable to all others, as there is no possibility of loss, but when these cannot be obtained, Registered Letters are most certain to reach their destination. **Do not send checks unless marked by Bank and made payable at par here.** The cost of Postoffice Order, Postal Note, Express Order or Registering the letter may be deducted from the remittance on orders amounting to two dollars and upwards. As the Seed season continues only for a few months in the year, there is, of course, a great pressure of business when sowing commences. Except in cases of extreme urgency, all orders will be executed in rotation as received. We will, therefore, feel greatly obliged if our customers will kindly forward their orders as soon as possible after the receipt of this Catalogue, and please remember to give your **Name, Postoffice Address, and Province, in full.** We are frequently in receipt of orders deficient in some of these important requisites, often causing a delay of weeks in their execution, greatly to the inconvenience of the sender as well as our own.

Address all Correspondence and Make all Money Orders Payable to John A. Bruce & Co.

FREIGHT RATES AND MAILING CONDITIONS.

For the information and convenience of our customers in Manitoba, the Northwest Territories and British Columbia, we give below the present rates from Hamilton to the various points named. The rates between any two points will be proportioned according to distance. As these rates are subject to change we cannot guarantee them.

FREIGHT RATES FROM HAMILTON—PER 100 LBS.

	On Barley, Oats, Buckwheat, Peas and Wheat.		On Clover, Timothy, Hungarian, Millet Red Top, Etc.	
	All Rail.	Lake and Rail.	All Rail.	Lake and Rail
Port Arthur	\$0 50	\$0 34	\$0 70	\$0 41
Winnipeg	0 87	0 76	1 20	0 88
Brandon	1 02	0 91	1 40	1 18
Regina	1 33	1 22	1 81	1 59
Calgary	1 65	1 54	2 25	2 03

The lowest freight charge is for quantities of 200 lbs. For any quantity under 200 lbs. the charge is the same as for 200 lbs.

Our postal arrangements enable us to forward Seeds, Bulbs, and Plants to any Post Office in the Province of Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, Manitoba, the Northwest Territories and British Columbia, at the rate of 5c per pound, and our careful system of packing will carry them with safety to the most distant point, giving purchasers in the remotest districts the opportunity of procuring reliable seeds at reasonable prices when far removed from source of supply.

Catalogues mailed free to any address on application.

Sincerely thanking you for past favors, and soliciting a continuance of the same, with your kind recommendations,

We are your obedient servants,

JOHN A. BRUCE & CO.

BRUCE'S SELECTED VEGETABLE SEEDS

CONDITIONS OF SALE.—John A. Bruce & Co. take every precaution to supply reliable seeds, but give no warranty, express or implied, as to description, quality, growth, productiveness, or any other matter, of any Seeds they send out, and they wish it to be distinctly understood that they will not be in any way liable for any loss arising from any failure thereof, or responsible in any way for the crop. All goods bought from them must be accepted on these conditions.

SEEDS BY MAIL.—All Seeds forwarded by mail are sent free of charge at Catalogue prices, except Beans, Corn, Mushroom Spawn, Onion Sets, Potatoes, Peas, Sugar Beet, Field Carrot, Mangel, Rape, Field Turnip, Grain, Clover, Grass, Tree, Hedge and Fruit Seeds; when such are to be mailed postage must be added at the rate of 5 cents per pound or pint within the Dominion of Canada, and 16 cents per pound or pint to Newfoundland and the United States.

ARTICHOKE—*Artichaut, Fr. Artichoke, Gr.*

Sow in April or May in drills two inches deep; thin the plants to four inches, and when strong transplant in deep, rich soil, two feet apart each way; keep the earth loose about them in summer, and cover during the winter with dry litter or leaves for protection.

Green Globe Pkt. 5c, oz. 40c

Jerusalem Artichoke—Cultivate like potatoes, but plant in rows not less than three feet apart. They are enormously productive, and are valuable alike as a table vegetable as well as for feeding stock. Per bush. \$2.00, peck 60c here. 1 lb. 20c, 3 lbs. 50c, per mail postpaid to all Canadian points.

ASPARAGUS—*Asperge, Fr. Spargel, Gr.*

(One ounce will sow a row of thirty feet.)

Sow early in spring, in drills one foot apart. To secure strong, healthy plants thin out the seedlings to three or four inches in the rows. The one-year old plants should be set out in the spring in a rich, sandy loam, dug eighteen inches deep, into which has been worked plenty of well-rotted manure. Plant in rows fifteen inches apart, and twelve inches apart in the rows. Spread out the roots all round, and carefully shake the soil in amongst the rows and cover to the depth of four inches. Before winter sets in cover the beds with six inches of manure, and in the spring give a top dressing of salt. Every fall a good dressing of coarse manure should be applied, after the tops have been cut, and in spring forked in. Never cut too closely, as the roots need the benefit of some foliage during the year.

Asparagus.

ASPARAGUS—Continued.

Columbian Mammoth White—This fine new variety furnishes large white shoots, which stay white as long as fit for use, without earthing up or any other artificial blanching. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 75c.

Conover's Colossal or Early Purple Argenteuil—Large and productive, cultivated extensively for the Paris and other continental markets. Highly recommended. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 20c, lb. 50c.

Palmetto—An early variety of large size, very productive and of fine quality. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 20c, lb. 60c.

ASPARAGUS ROOTS. *Two Year Old.*

Palmetto—Per 100, \$1.10.

Conover's Colossal—Per 100, \$1.00.

Columbian Mammoth—Per 100, \$1.20.

When Asparagus Roots are to be sent by mail add postage at the rate of 30c per 100. Special price per 1,000 on application.

BORECOLE OR KALE

Chou Vert, Fr. Gruner Kohl, Gr.

Sow early in spring, cultivate same as cabbage. They supply a stock of excellent greens for spring and fall use.

Green Curled Scotch—Very hardy, and is improved by a moderate frost. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 40c, lb. \$1.25.

BROCCOLI

Chou Brocoli, Fr. Spargel Kohl, Gr.

Sow end of April in the open ground, then transplant about two feet apart in deep, rich ground. They produce heads similar to Cauliflower. When they begin to flower break the large leaves over the head to protect them from the sun.

Early Purple Cape—One of the hardiest and sure to head. Pkt. 5c, oz. 50c, 2 oz. 90c, ¼ lb. \$1.50.

Walcheren—Fine snow-white heads, very hardy. Pkt. 5c, oz. 50c, 2 oz. 90c, ¼ lb. \$1.50.

Scotch Kale.

BEANS, Dwarf or Bush

Haricot, Fr. Bohne, Gr.

One pint will sow a row of 50 feet. The Dwarf or Bush varieties should be planted in rows, 2½ feet apart, and 2 or 3 inches in the row. They are very sensitive to frost or cold, and should not be planted before the second week in May. Hoe often, and keep the ground mellow and draw the earth up to the plants. Plant the pole or running varieties in hills 3 feet apart, and in the hills place poles from 6 to 8 feet high.

DWARF GREEN PODDED VARIETIES.

Stringless Green Pod—It combines unusual hardness, extreme earliness, and great productiveness, with pods of finest quality, which are long, round and meaty, tender, brittle, and of fine flavor, and absolutely stringless even when fully matured. Pt. 20c, qt. 35c, peck \$2.25.

Valentine—Early, productive, tender, succulent and of excellent flavor. Pt. 15c, qt. 25c, pk. \$1.50.

China—Very early, of fine quality. Pt. 15c, qt. 25c, peck \$1.50.

Yellow Six Weeks—Early and prolific, good for general crop. Pt. 15c, qt. 25c, peck \$1.50.

Mohawk—One of the hardiest and most productive. Pt. 15c, qt. 25c, peck \$1.50.

Refugee or One Thousand to One—Great bearer, late; best for pickling. Pt. 15c, qt. 25c, pk. \$1.50.

Large White Kidney—Excellent as a shell bean. Pt. 15c, qt. 25c, peck \$1.40.

DWARF YELLOW PODDED SORTS.

Valentine Wax—Extra Early. The pods are round, stringless, and of the finest quality. It is

Wardwell's Kidney Wax Beans.

Large packets of any variety of Beans, 10c; small packets 5c each. When beans are to be sent by mail add postage at the rate of 5c per pint within the Dominion of Canada, and 16c per pint to Newfoundland and U. S.

DWARF YELLOW PODDED VARS.—Continued.

remarkably free from rust and remains a long time before becoming tough. Pt. 25c, qt. 40c, pk. \$2.50.

Black Wax or Butter—Pods transparent wax yellow, thick and tender. Pt. 20c, qt. 35c, pk. \$2.

Wardwell's Kidney Wax—Extra early, pods long and flat, free from rust. Pt. 25c, qt. 40c, pk. \$2.50.

Golden Wax—The standard variety for general use; pods long, broad and flat, very fleshy and of finest quality. Early and productive. Pt. 20c, qt. 35c, peck \$2.25.

Detroit Wax—The hardiest and less liable to rust of all the butter beans, very productive. Pt. 20c, qt. 35c, peck \$2.25.

Refugee Wax—Pods round, clear and transparent, and of handsome appearance. Is tender, very productive, free from rust and stands dry weather remarkably well. Pt. 20c, qt. 35c, peck \$2.25.

Flageolet Golden Wax—Produces larger and longer pods than any other of the Yellow podded sorts; very productive, and for market purposes cannot be excelled. Pt. 25c, qt. 40c, peck \$2.50.

Flageolet Golden Wax Beans.

DWARF OR BUSH LIMA BEANS.

Burpee's Bush Lima—An immense yielder; each bush bearing from fifty to two hundred pods, filled with beans which are identical in size and in luscious flavor to the well known large pole Limas. Pt. 25c, qt. 40c.

Henderson's Bush Lima—Early, hardy and productive. Pt. 20c, qt. 35c.

ENGLISH BROAD BEANS.

The English Beans are very hardy, and should be planted as soon as possible after the ground is open; when in full bloom and the lower pod set, pinch off the tops. This will ensure the filling of the pods and hasten maturity. A strong, heavy soil suits them best.

Taylor's Broad Windsor—The largest and best of the class for general use. Pt. 20c, qt. 35c.

POLE OR RUNNING BEANS.

One pint will plant about seventy-five hills.

Dutch White Caseknife—Very productive and fine flavor. Pt. 20c., qt. 35c.

Large Lima—The best of all pole beans; plant when the ground is dry and warm. Pt. 20c, qt. 35c.

Scarlet Runners—Very prolific, mostly grown as an ornamental plant. Pt. 20c, qt. 35c.

Asparagus or Yard Long—Pods tender and sweet. Pint 50c.

For Field Varieties see Agricultural Seeds.

BEETS

Betterave, Fr. Rothe Rube, Gr.

One ounce will sow a row of 40 feet; 5 lbs. for an acre.

Beets require a deep mellow soil; may be sown from the early spring to the commencement of summer. The winter crop, to be tender, should not be sown too early. Sow in drills 18 inches apart, and thin out the plants gradually to six inches. Keep the soil well stirred.

✓ **Black-Leaved Blood Red—(New).** Very handsome, round shape, fine grained blood-red flesh, tender and early; the leaves are a beautiful blood red color, almost black. Pkt. 5c, oz. 10c, 2 oz. 20c, ¼ lb. 30c, lb. \$1.00.

✓ **Crimson Globe—**The flesh is fine grained, sweet and tender, of a dark crimson color. Leaves are small, with slender leaf stalks, and as dark in color as Egyptian. Comes in same time as Eclipse. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 75c.

✓ **Egyptian Dark Red Turnip—**A standard extra early variety, very deep red, tender and fine flavor. Best for early market. Pkt 5c, oz 10c, 2 oz 15c, ¼ lb 25c, lb 60c.

✓ **Crosby's Egyptian—**A selection from the Egyptian, which, while it retains its earliness, has added thickness, giving it a more desirable shape; it is of fine quality, sweet and tender. Pkt 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 75c.

✓ **Eclipse—**Extra early, turnip shaped variety, remarkable for its rapid growth. Roots grow smooth, round shape, intense red skin, flesh very fine grained and sweet. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 60c.

✓ **Edmand's Early—**Very uniform, with small tops of bronze red. Is round, smooth, and good marketable size, fine quality, exceedingly sweet and tender. Skin and flesh dark blood red. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 60c.

✓ **Detroit Dark Red Turnip—**Small, upright tops, smooth roots, tender and sweet, grand canning variety. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 75c.

✓ **Dewing's Improved Blood Turnip—**Roots deep blood red, and of fine form and flavor. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 60c.

✓ **Early Blood Turnip—**Very tender and good for early and late use. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 60c.

✓ **The Lentz—**A fine early variety of excellent quality; good keeper. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 60c.

✓ **Early Bassano—**Very early, tender and juicy; light color. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 20c, lb. 50c.

LONG VARIETIES FOR WINTER USE

Brussels Sprouts.

Bruce's Long Dark Blood—Roots very symmetrical and always smooth and handsome. Flesh is

dark red, very sweet, crisp and tender, never becoming woody even in portions above the ground. It retains its good quality longer than other sorts. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 75c.

✓ **Long Smooth Blood Red—**An excellent late variety. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 20c, lb. 50c.

✓ **Dell's Improved Black Leaved—**A fine dark foliated variety, the best for flower garden decorations; color deep purple. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 75c.

✓ **Beck's Improved Sea Kale or Swiss Chard—**The leaf stalks, which are served up like sea kale, are by many considered as quite equal to that favorite esculent. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 30c, lb. \$1.00.

For Sugar Beet see Agricultural Seeds.

BRUSSELS SPROUTS

Chou de Bruxelles Fr. Sprossen Kohl, Gr.

Sow seed in May; transplant and cultivate same as cabbage. They grow from two to three feet high, and produce little heads from the axles of each leaf. They are very tender when touched by frost.

Improved Dwarf—Extra fine. Pkt. 5c, oz. 20c, 2 oz. 35c, ¼ lb. 60c, lb. \$2.

Crimson Globe Beet.

CABBAGE *Chou, Fr. Kohl, Gr.*

One ounce will sow a bed of four feet by ten and furnish about 2,000 plants.

Sow the early varieties in hot beds or frames, from February to April for early crops, and in the open ground as soon as the soil is in working order. For Fall and Winter Cabbage sow the seeds in beds in the open ground at the end of April, or early in May, and transplant into well manured ground. Early varieties should be planted in rows two feet apart, and fifteen inches in the rows; late varieties, two and a half feet each way. The ground must be well worked to produce good heads. Hoe often and draw the earth around the plant.

Danish Drumhead, New—This is an earlier and shorter stemmed type of the popular Danish Ballhead. It is equal to that variety both in quality and long keeping properties, while the heads average larger and heavier and mature two weeks earlier. A paying cabbage to grow for late fall and winter market. Pkt. 5c, oz. 30c, 2 oz. 50c, $\frac{1}{4}$ lb. 90c, 1 lb. \$3.00.

Early Spring, New—A round, flat-headed cabbage as early as Wakefield, and more productive. Very uniform in shape. It has very few small outer leaves, thus allow-

Extra Early Cabbage "Eureka."

ing its being planted as close as any variety known; of the finest quality, the heads harden at an early stage of growth, so that they are really fit for use before being fully matured. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Extra Early Eureka, New—Is a cross of Early Jersey Wakefield and Succession, as early as the first, with the shape of the second, although not so large. It excels all other early cabbage in solidity of head, being as hard and solid as the Danish Ball-head; suited also for a second early or summer crop where a medium sized head will answer. Pkt. 5c, oz. 30c, 2 oz. 50c, $\frac{1}{4}$ lb. 90c, lb. \$3.00.

Express—Extra early, excels in earliness all others. It has the shape of Early Etampes, but is smaller and earlier; has but few outside leaves, and therefore may be planted very close and yield large crops. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Selected Jersey Wakefield Cabbage.

Early Etampes—A fine extra early ox heart shape, of excellent quality. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Selected Early Jersey Wakefield—To those who may not be familiar with this well-known variety, we would say that it is justly considered by market gardeners as one of the best and most reliable early cabbages in cultivation. The seed we offer is unequalled in quality. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Charleston Wakefield—This variety is much larger than the preceding, but not quite so early. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Henderson's Early Summer—About ten days later than the early Wakefield, but fully double the size; one of the best large early cabbage. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Early Winningstadt—A standard variety for general use; heads large and remarkably solid; keeps well in hot or cold weather. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

Henderson's Summer Cabbage.

CABBAGE—Continued.

All Seasons (Vandergaw)—An early drum-head variety, somewhat later than Early Summer, but much larger. Planted late the heads, which are hard and solid, keep well. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Autumn King or World Beater—Heads very large, broad, thick and solid; stalks short; foliage dark green with slight reddish tinge; splendid keeper. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

St. Denis Drumhead—A favorite winter variety, heads large and very solid. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

Premium Flat Dutch—A popular variety, tender and of superior quality. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

Marble Head Mammoth Drumhead—Heads have been exhibited which weighed from forty to sixty lbs. each. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Bruce's Winter—This is a distinct extra large and hardy variety; it produces enormous, solid heads, attaining 20 inches in diameter and weighing 20 to 30 lbs. It is very short stemmed, the heads resting almost on the ground; is most productive and good keeper. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Burpee's Surehead—A large and sure-heading main crop cabbage; splendid keeper and shipper. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Burpee's All Head—The largest heading of the second early sorts, very productive and of fine quality; the deep flat heads are remarkably solid and very uniform in size. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Succession—Equally good as a medium early, main crop, or for late use. Heads are very solid and of uniform size, averaging 10 to 12 lbs. weight. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

Danish Ball head (or Hollander)—The favorite winter cabbage of Denmark. Heads are round, of good marketable size, hard and heavy, fine grained and long keepers. It will stand well through a dry season when other sorts fail; matures late. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

Fottler's Improved Short Stemmed Brunswick—This, for a fall or winter cabbage, is without a rival. Heads are large and solid, often weighing from 20 to 30 lbs. Is a sure header, splendid keeper, and of excellent quality. Most profitable variety to grow. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 45c, lb. \$1.60.

Fottler's Brunswick Cabbage.

Filderkraut—Conical shaped heads, with very few side leaves. This variety is largely used in Germany in the manufacture of "Kraut." Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

RED CABBAGE.

Large Red Drumhead—Produces very large solid heads, of fine, deep purple color; the best of the class. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

Red Dutch—A favorite sort for pickling; heads not so large as preceding. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

Mammoth Red Rock—This is the largest variety known, heads averaging over 10 lbs. each, solid as a rock, and of a deep red color both inside and out. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

SAVOY CABBAGE.

Large German Drumhead—Our stock of this favorite winter variety is unsurpassed for purity, and never fails to produce large solid heads. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 45c, lb. \$1.60.

Green Globe Savoy—Heads small but tender, and of fine quality. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 45c, lb. \$1.60.

CAULIFLOWER

Chou-Fleur, Fr. Blumen Kohl, Gr.

One ounce will furnish about 1000 plants.

Considerable care is necessary to keep up a supply of Cauliflowers from July to the end of the year. For early crops sow the seed in a gentle hot-bed about the middle of March, and for late crops sow in the open ground in May or June, and transplant like winter cabbage in rows two and a half feet apart and two feet between each plant. A deep rich loam is the best to produce satisfactory crops of this favorite vegetable. In dry weather water frequently with liquid manure, and as they advance in growth hoe deep and draw the earth to the stems; as they begin to head, water frequently and keep the soil open by deep hoeing, and break the large leaves over the flower to protect it from the sun and rain. On the approach of frost the plants which have not been headed may be planted out in a cellar, where they can be aired in mild weather, when they will form fine heads.

Early Snowball—A well known extra early variety. It is also one of the best for late summer and fall crop. heads pure white, large, solid, and of extra quality; a sure header. Half pkt. 15c, pkt. 25c, $\frac{1}{4}$ oz. 75c, $\frac{1}{2}$ oz. \$1.40, oz. \$2.50, 2 oz. \$4.50, $\frac{1}{4}$ lb. \$8.00.

Snowball Cauliflower.

CAULIFLOWER—Continued.

Bruce's Selected Early Dwarf Erfurt—It is now 27 years since we first introduced this famous strain of Erfurt Cauliflower, and year after year it has become more popular until leading market gardeners in every section of the Dominion now grow it entirely, having discarded all the older varieties, as they found our strain of Erfurt to be the surest heading and altogether the most profitable sort for market purposes. On account of its dwarf and compact habit the plants may be set 20' to 22 inches each way, so that from 12 to 14 thousand can be placed on an acre. For pickling it is the standard variety; in the compact and solid texture of the snow-white heads, combined with its delicious flavor, it surpasses all other sorts. We obtain our supply of seeds direct from our growers, with whom we have a standing contract to deliver a stated quantity for each season, and knowing the scrupulous care exercised in the selection of only the purest and finest heads for seed purposes, have no hesitation in stating for purity it is not surpassed by any other variety, no matter under what name it may be offered. $\frac{1}{2}$ pkt. 15c, pkt. 25c, $\frac{1}{4}$ oz. 85c, $\frac{1}{2}$ oz. \$1.50, 1 oz. \$2.75, 2 oz. \$5.00, $\frac{1}{4}$ lb. \$9.00.

Bruce's Autumn King—In appearance it has some of the characteristics of the Autumn Giant, but it is dwarfier, earlier, and the heads are of immense size, solid, and white as snow. Pkt. 5c, oz. \$1.00, 2 oz. \$1.75, $\frac{1}{4}$ lb. \$3.00.

Le Normand's Short Stemmed—A variety producing large, white, compact heads, from nine to twelve inches in diameter. Pkt. 5c, oz. \$1.00, 2 oz. \$1.75, $\frac{1}{4}$ lb. \$3.00.

Bruce's Selected Erfurt.

Autumn Giant—Heads pearly white, large, firm and compact. Pkt. 5c, oz. 50c, 2 oz. 90c, $\frac{1}{4}$ lb. \$1.50.

Large Walcheren—A very large variety; sure header. Pkt. 5c, oz. 50c, 2 oz. 90c, $\frac{1}{4}$ lb. \$1.50.

Extra Early Paris—Heads medium size. Pkt 5c, oz. \$1.00, 2 oz. \$1.75, $\frac{1}{4}$ lb. \$3.00.

Half Early Paris or Demi Dur.—A fine variety. Pkt. 5c, oz. \$1.00, 2 oz. \$1.75, $\frac{1}{4}$ lb. \$3.00.

CARROT *Carotte, Fr. Mohre, Gr.*

One ounce will sow a row of 100 feet; 3 to 4 pounds for one acre.

The Carrot is an important root for the farm or garden. It succeeds best in a light, sandy loam, richly manured and deeply dug. For early crops sow in rows 18 inches apart, and thin out to 6 inches in row. Hoe often between rows and keep clear of weeds.

Extra Early Scarlet Forcing—This is the earliest and best variety for forcing. The root is small, nearly round, and of excellent quality. Pkt. 5c, oz. 10c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. 90c.

Early Scarlet French Horn—Stump rooted, color deep scarlet, and fine flavor. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Early Guerande or Ox Heart—Stump rooted, intermediate as to length, between the French Horn and S. Nantes, but much thicker, attaining at the neck from 3 to 4 inches in diameter. Highly recommended. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Danver's Half-Long—A handsome stump-rooted Carrot, of rich, dark orange color. It grows to a large size, is smooth, and the flesh very close in texture, with little core. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Chantenay Half-Long Scarlet—Stump rooted; an excellent variety. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Chantenay Carrot.

Early Half-Long Scarlet Nantes—A large stump rooted variety superior for table use. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

St. Valery—A fine selection of "Intermediate" type, but earlier; superior in quality and shape; beautifully formed roots with very small core. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

English Horn or French Intermediate—A half-long pointed variety; medium early, and heavy cropper. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 65c.

Long Orange—Good for general crop, field or garden. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 65c.

Long Scarlet Altringham—An excellent variety for field or garden. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 55c.

FOR FIELD VARIETIES SEE AGRICULTURAL SEEDS.

Guerande Half-Long Carrot.

CELERY *Celeri, Fr. Sellerie, Gr.*

One ounce will furnish about twenty-five hundred plants.

For early crops sow the seed in hot-beds during March, and when three inches high transplant into a well-prepared bed, and protect with boards or mats in frosty weather. For late crops sow in April. When up to the above size transplant into a bed, three inches apart, and when about six inches high plant six inches apart into trenches for blanching; dig the trenches four feet apart and fifteen inches wide, and ten inches deep; fill in four or five inches of well rotted manure, and mix it thoroughly, half a spade deep with earth at the bottom. The tops and roots of the plants should be shortened, and the suckers pinched off before they are planted; give a good watering after planting; to blanch earth up two or three times during their growth, holding the leaves close with the hand while the earth is drawn up, taking care that none of it falls into the centre of the plant. Celery, like Asparagus, is wonderfully improved by superior culture.

Paris Golden Yellow Large Solid Bruce's Selected—This fine variety, introduced by us in 1882, has now become the standard variety for general use. The stalks grow vigorously, with large ribs very thickly and closely set. It is self-blanching to a very remarkable degree. The heart is of a beautiful golden yellow color, very large, crisp and solid. Unlike other self-blanching varieties, it is an extra good keeper—keeping well all winter—and of the finest sweet flavor. On the market stall or table it is unequalled in handsome and striking appearance. Pkt. 10c, ½ oz. 35c, oz. 60c, 2 oz. \$1.00, ¼ lb. \$1.75, lb. \$6.00.

Paris Rose Ribbed—This handsome variety is practically identical with the Paris Golden Yellow, except that the naturally golden colored stalks are suffused with a warm rosy hue, which gradually fades towards the top of the stalks, where it assumes a bright golden color when blanched. The plant is dwarf and heavy; the stalks broad, solid and brittle; while possessing the crispness, rich and nutty flavor for which red celeries are noted. Pkt. 10c, oz. 50c, 2 oz. 90c, ¼ lb. \$1.50, lb. \$5.00.

Giant White Pascal—This is the largest Celery grown as regards width and thickness of stalks. When fully grown the outer stalks average two inches wide, are unusually thick, and always crisp and brittle, snapping like glass, and of fine flavor. A very vigorous grower and a good keeper. Pkt. 5c, oz. 20c, 2 oz. 35c, ¼ lb. 60c, lb. \$2.00.

Perfection Heartwell—One of the best for winter use; quality extra. Pkt. 5c, oz. 25c, 2 oz. 40c, ¼ lb. 75c, lb. \$2.75.

Giant Pascal Celery.

CELERY—Continued.

Syer's Triumph—Of local origin. This splendid half dwarf winter variety is remarkable for its keeping qualities, remaining in splendid condition all through the winter and into the spring. The stalks, which blanch readily to a pearly white, are broad and solid, very crisp and of the finest flavor. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

Fin de Siecle—One of the largest, hardiest, solidest, crispest, best keeping and best shipping winter celeries. Green in color, it lends itself readily to the blanching process, when it assumes a rich yellow tinge in the heart. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

Winter Queen—It is claimed to be the most valuable variety for winter and spring use ever introduced, and worthy of first place as a late variety. The plant is of a stocky and robust habit, and with double the amount of heart of any known Celery, and when blanched is a beautiful cream white. Ribs perfectly solid, crisp and of delicious nutty flavor. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

Perle le Grand—It has a beautiful full golden heart and rich, nutty flavor, and is extremely showy and saleable. It is not only a good early celery, being amongst the first fit to use, but also valuable as a winter keeper, remaining, when properly trenched, in perfect condition away into the spring. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

White Plume—The stalk and portions of the inner leaves and heart are naturally white. Its eating qualities are equal to the very best, being crisp, solid and of pleasing flavor, while the white, feather-like foliage places it ahead of others as a table ornament.

Pink Plume This is practically identical with the well known "White Plume," but with the added merit of the stalks being exquisitely suffused with pink and possessing the crispness and rich, nutty flavor for which red Celeries are noted. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

Bruce's Hamilton Red—This is the best of the red Celeries, its distinctive features being its size, superior flavor and long keeping qualities. It grows about two feet high, stalks unusually broad, thick and crisp. Pkt. 10c, oz. 50c, 2 oz. 90c, $\frac{1}{4}$ lb. \$1.50, lb. \$5.00.

Turnip Rooted or Celeriac—Has edible roots which are used for soups, etc. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Celery Seed—For flavoring soups, etc. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Celery Plants—All the leading varieties, 75c per 100 here. Special prices for large quantities.

Bruce's Hamilton Red Celery.

CORN, SWEET OR SUGAR

When Corn is to be sent by mail add postage at the rate of 5c per pint within the Dominion of Canada, and 16c per pint to Newfoundland and the United States.

One pint will plant 100 hills. One peck (about 12 lbs.) for an acre. Plant in hills three feet apart each way, and three or four grains in a hill. Hoe often and draw the soil to the stems; plant about the middle of May, and for a succession every two weeks until July.

✓ **New Peep O' Day**—See novelties, page 36.

✓ **New Premo**—Extra early, combining all the merits of the leading early varieties, but superior to them all in size, yield and quality. The stalks are about five feet high and are very vigorous, bearing two well-developed ears to a stalk. Pkt. 5c, pt. 15c, qt. 30c, peck \$1.80.

✓ **The Cory Sugar**—This has now become the standard first crop variety with gardeners and market growers. The ears are of good size and quality. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Early White Cory**—A selection from Cory, of the same character in all respects except that it has a white cob and kernel. Pkt. 5c, pt. 15c, qt. 25c, peck \$1.75.

✓ **Early Minnesota Sugar**—A well known early variety of finest quality. Pkt. 5c, pt. 15c, qt. 25c, peck \$1.75.

✓ **Crosby's Early Sugar**—Rich sugary flavor, very productive. Pkt. 5c, pt. 15c, qt. 25c, peck \$1.75.

Premo Sweet Corn.

CORN SWEET—Continued.

✓ **Perry's Hybrid Sugar**—An early variety, nearly as early as Minnesota, and ears much larger, each containing from twelve to fourteen rows of kernels. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Kendel's Early Giant**—A new second early variety, maturing several days ahead of Crosby, ears average eight to ten inches in length, with ten or more rows of large grains of rich savory flavor. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Shaker's Large Early**—A superior early variety, with large well-filled ears; kernels are of pearly whiteness and most delicious flavor. It is ready to market one week after Crosby's, while the ears are very much larger. Pkt. 5c, pt 15c, qt 25c, pk \$1.75.

✓ **Hickox Sugar**—A second early, ears nearly as large as Mammoth, more productive, and is largely grown for canning by the leading factories in Canada and the United States. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Old Colony**—A fine second early; a little later than Crosby's, but of stronger growth, and producing large ears, of splendid quality. A fine canning variety. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Country Gentleman**—An exceptionally productive variety, bearing three to five ears on the stalk, and of the finest quality. The cob is very small, giving great depth to the kernels, which are of pearly whiteness, sweet and tender. Matures a little before Stowell's Evergreen. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Stowell's Evergreen Sugar**—A standard variety, remaining green longer than any other kind. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Mammoth Sugar**—A late variety and the largest of all, productive and fine flavored. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

✓ **Black Mexican**—A medium early, highly esteemed by many on account of its remarkable sweetness. Ears large, well filled with eight rows of large grains, which are a deep bluish purple. Pkt. 5c, pint 15c, quart 25c, peck \$1.75.

Parching or Pop—Several varieties; red, black, white, etc. Per lb. 10c, 10 lbs. 70c, shelled.

CHICORY

Chicoree Sauvage, Fr. Chicorie, Gr.

It may be sown and treated in the same manner as carrots. Used to mix with or as a substitute for coffee.

Large Rooted or Coffee—Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 25c, lb. 75c.

CORN SALAD

Mache, Fr. Ackersalat, Gr.

Sow the seed early in September, thickly, in shallow drills six inches apart, and protect through the winter with a slight covering of clean straw. It requires rich soil. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 30c, lb. \$1.00.

CURLED CHERVIL *Cerfeuil, Fr. Kerbel, Gr.*

Cultivate and use like Parsley, sow at any time in the spring, in shallow drills one foot apart. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 40c, lb. \$1.25.

CRESS OR PEPPER GRASS

Cresson, Fr. Kresse, Gr.

The curled and broad leaved varieties sow thickly in shallow drills every two weeks throughout the season; give occasional waterings in dry weather. The Water Cress is an aquatic plant, with small oval leaves and prostrate habit. Sow the seed in a well prepared bed and when rooted transplant to the banks of a running stream.

Extra Curled—The best for salads. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 40c.

True Water—Pkt. 10c, oz. 50c, 2 oz. 85c, ¼ lb. \$1.50.

CUCUMBER *Concombre, Fr. Gurke, Gr.*

One ounce will plant fifty hills. Two or three pounds for one acre.

Open Air Culture—For general crops, plant from the middle of May to the middle of June, in hills five feet apart each way, elevating the hills a little above the level of the ground. Put eight or ten seeds in each hill and cover them half an inch deep with fine soil, and press the earth a little over the seeds with the back of the hoe; keep the ground loose and clear of weeds, and in dry weather water occasionally; after they have obtained a vigorous growth, and the danger from insects is over, they should be thinned out, leaving four thrifty plants in a hill.

✓ **New Ideal Pickling**—For description see Novelties, page 36.

✓ **Cumberland, New**—Of the hardy, white spine type, it is a rapid, strong and vigorous grower and very prolific in fruit, and during the whole period of growth from the time they first set until fully grown the form is exceptionally straight and symmetrical, thus being as fine a slicing variety as a pickling one. The mesh is firm but very crisp and tender at all stages. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 35c, lb. \$1.25.

✓ **Emerald**—Its fruit sets early, and its vigorous vines abound in long, straight, handsome fruits, the flesh being peculiarly crisp and tender, and the flavor delicate. Highly recommended as a slicer, it is equally good for pickles. For long distance shipping it will prove a boon on account of holding its deep green so much longer than most other sorts. As an all-purpose, table or market variety, it cannot be surpassed. Pkt. 5c, oz. 20c, 2 oz. 35c, ¼ lb. 60c, lb. \$2.00.

✓ **Early Russian**—Fruit from three to four inches long and an inch and a half in diameter. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 35c, lb. \$1.25.

Early Cluster—A very popular early Cucumber, producing its fruit in clusters. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 35c, lb. \$1.25.

Early White Spine—The leading variety for early market; uniform in size, averaging 6 to 7 inches in length; straight and of a rich dark green color; flesh white, crisp, solid and of fine flavor. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 35c, lb. \$1.25.

Arlington or Improved Early White Spine—A very fine large fruited early strain, largely used for forcing by market gardeners; it is equally desirable as a garden or market variety, planted in the open ground. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 35c, lb. \$1.25.

Early White Spine Cucumber.

Improved Long Green Cucumber.

Paris Pickling—Fruits slim and slender, 3 to 5 in. in length, crisp and brittle, snap freely, and when ready for pickling show no signs of seeds. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Everbearing—Very early, small size and enormously productive and valuable as a green pickler. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Giant Pera—The green Cucumbers are fit to eat at any stage of growth, the flesh is very clear, crisp and brittle, and of fine flavor; fruit from 12 to 15 inches in length. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.60.

Japanese Climbing—Fruit of medium size, well-formed and of dark green color; flesh very thick and of exquisite flavor. It can be grown as an ordinary ridge cucumber, or as a climber. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.60.

West India Gherkins or Burr—Used only for pickles. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

English Gherkins—For pickles. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.60.

Stockwood Ridge—A black spined variety, 12 to 18 inches long. Pkt. 5c, oz. 50c.

CUCUMBER—Continued.

Improved Long Green—Skin dark green, changing to yellow as the fruit approaches maturity; flesh white, somewhat seedy, but crisp, tender and fine flavored. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

Improved Chicago Pickling—A very prolific variety, combining all the qualities desired by those who raise cucumbers for commercial pickles. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

Green Prolific Pickling—A splendid variety, selected with great care by one of the largest growers of pickling cucumbers; 200,000 can be grown on an acre. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

Boston Pickling—A popular pickling variety. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

FRAME OR GREENHOUSE VARIETIES.

Under Glass Culture in Small Pots—Sow from middle of January, in soil that is slightly moist, and give little or no water until the seeds have germinated; when grown to three leaves plant out in previously prepared, loose rich soil. In forcing the night temperature should not be allowed to sink below 60 deg., and the day heat should range from 70 to 80 degrees. Admit air in all mild weather.

Lockie's Perfection—A beautiful green, of medium length, and of unsurpassed flavor; a wonderful cropper. Pkt. 25c.

Telegraph—(Rollison's.) Dark green in color; quick in growth, handsome and unusually prolific. One of the most reliable sorts. Pkt. 25c.

Tender and True—Free bearing; flavor excellent; fine for market. Pkt. 25c.

Noa's Forcing—Very productive. Pkt. 25c.

ENDIVE. *Chicoree, Fr. Endivie, Gr.*

Sow middle of July, in drills or beds; when up, thin out to stand twelve inches apart; when the leaves are six to eight inches long, blanch them by gathering the leaves in the hand and tying them together near the top with matting. It is highly esteemed as a salad.

Green Curled—Very heavy; leaves dark green, tender and crisp. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

White Curled—Leaves pale green; a good variety. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

EGG PLANT. *Aubergine, Fr. Ecrasse, Gr.*

Sow the seed thickly in a hot-bed in March, and plant out at the end of May in a rich, warm piece of ground in rows two feet apart and one foot in the rows. They bear fruit when about fifteen inches high.

Burpee's Black Beauty—From 10 to 12 days earlier than New York Improved Purple. The fruits are broad and thick, of most attractive form, as shown in the illustration. The skin is a rich lustrous purplish black. The fruits set freely and are ready to market early, so that the entire crop can be gathered before there is any danger of frost. Pkt. 10c, $\frac{1}{4}$ oz. 25c, $\frac{1}{2}$ oz. 40c, oz. 75c.

New York Improved Round Purple—The leading variety; very large and productive. Pkt. 10c, oz. 60c, 2 oz. \$1.00, $\frac{1}{4}$ lb. \$1.50, lb. \$5.00.

Long Purple—Very hardy; early and productive. Pkt. 5c, oz. 40c, 2 oz. 60c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

GARLIC. *Ail, Fr.lauch, Gr.*

Plant in rows 6 inches apart, and about 2 inches deep; leave a foot between the rows; when the leaves turn yellow take up the crop. It is used extensively for seasoning pickles, etc. **Large Canadian Sets**— $\frac{1}{4}$ lb. 15c, lb. 35c, pd. to Canadian points.

KOHL-RABI, TURNIP-ROOTED CABBAGE.

Chou Rave, Fr. Kohl-Rabi, Gr.

Early Purple Vienna—Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2

Early White Vienna—Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2

Egg Plant, "Black Beauty."

LEEK. *Poireau, Fr. Porro, Gr.*

Sow early in spring, in drills or beds; when the plants are eight or ten inches high, transplant them in rows six inches apart and twelve inches between the rows. Plant at least six inches deep to have them well blanched. By many they are preferred to onions for soups, etc.

Extra Large Carentan—Very hardy; extraordinary size. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50

LETTUCE. *Laitue, Fr. Lattich, Gr.*

One ounce will sow a row of 100 feet.

For early use, sow in hot-beds in February, and for general use as early in the spring as the ground can be worked, in a well-prepared bed or drills; thin or transplant to one foot apart for heading. A sowing should be made at intervals throughout the season for succession.

New Unrivalled—This new variety is an improvement on the Big Boston, and produces a fine, large solid head. A splendid variety for forcing in cold frames, and also desirable for out-door planting. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Grand Rapids—This variety is best adapted for forcing. Leaves medium size, of light yellowish-green color, much crimped and frilled; forms a fair-sized but loose head, crisp and of good quality. Owing to its upright habit it may be planted very closely. A good shipper. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Hamilton Market—A variety of local origin; heads large, very solid; tender and well flavored. Color, yellowish green, suitable for forcing and open air cultivation. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Bruce's Nonpareil Lettuce.

Boston Market or Tennis Ball—One of the earliest, heads small, solid, crisp and fine flavored. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Brown Dutch—Very hardy; one of the very best for winter use. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Detroit Market Gardeners' Forcing—Seed white. A variety quite similar to the Grand Rapids in general character, but it will stand higher temperature and so can be crowded to maturity a little quicker. The leaves are not quite so tender and brittle as those of the Grand Rapids. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Big Boston—Resembles the popular Boston Market, but is nearly twice as large; desirable for forcing in frames and for out-door planting. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Paris White Cos—The finest form of Lettuce of the Cos type. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Bruce's Nonpareil Cabbage—This well-known variety has proved itself during the past 40 years to be one of the best Lettuces for outdoor cultivation, and for forcing in the greenhouse it has no equal; in color it is a beautiful yellowish-green, the heads being large, solid, and of finest quality. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

The Gardener's Favorite—A standard variety for early forcing or outdoor cultivation; crisp, sweet and tender. Color yellowish-green, heads large and solid. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Hanson—A well known variety; heads large and of finest quality. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

Early Curled Silesia—Very early and good for forcing. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

Black Seeded Simpson—One of the best forcing varieties. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

Extra Early Ohio—Oval-shaped heads, solid, sweet and crisp. A good variety for forcing. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Grand Rapids Lettuce.

MUSK MELON. *Melon, Fr. Melone, Gr.*

One ounce will plant about 60 hills; 3 pounds to the acre.

Culture—Plant middle of May, in hills six feet apart each way, eight to ten seeds in each, and thin out to three or four plants when in a state of forwardness. To grow good melons, the hills should be prepared by digging out the soil from one and a half to two feet deep, and two or three feet broad, according to the richness of the land. Add a very liberal quantity of best decomposed manure, and mix well with soil, filling a little above the level. Seeds should not be put into the hills until the weather becomes settled and warm.

Emerald Gem—A splendid variety for gardeners on account of its great earliness and luscious flavor. Skin, while ribbed, is smooth, of an emerald green color; flesh salmon and rind thin; melons of fair size. Pkt. 5c, oz.

Emerald Gem Musk Melon. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Unsworth's Perfect Musk Melon.

Unsworth's Perfect Musk Melon

This fine variety is of local origin, and in this vicinity, where melons are grown on an extensive scale for shipment to other markets, it is the favorite of the planter as well as the consumer. It is a finely netted green flesh melon of the Hackensack type, and combines all the qualities necessary in a first-class market fruit, being early, productive, of exquisite flavor and handsome appearance. The melons on the field from which our stock of seed was saved averaged seven pounds each in weight, and when exhibited for sale on a fruit stand the purchaser requires no other evidence than their aroma to convince them that they are getting a perfect melon. It is very important to those who grow melons for sale to get their fruit early on the market; and the system usually adopted by growers in this locality is to sow the seeds in hot beds about the 15th of May and plant them in the open ground the beginning of June, and as the seeds are placed in sod the roots are not disturbed when transplanting. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

Extra Early Citron—The largest of the very early Canteloupes, form half flat, fairly webbed, flesh green. The merit of this sort consists in its extra early habit, for which it will be found profitable by all market gardeners. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Paul Rose—The flesh is salmon in color, extra deep, and of the most delicious flavor. They are wonderfully uniform in size and appearance, the average weight being $1\frac{1}{2}$ lbs. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Rocky Ford—This fine extra early variety is largely grown in Colorado and shipped by the carload to the eastern cities. The flesh is light green in color, very juicy and rich. It is medium in size, of round form, and a good keeper. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

The Princess—Fruit nearly round, with heavily netted dark green skin; the flesh is of a rich salmon color, and the flavor is sweet beyond description. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Osage or Miller's Cream—Flesh is a rich salmon color, very thick, sweet, rich and delicious. It has a thin rind, finely netted; a vigorous grower and very productive. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Musk Melon—Continued.

Jersey Belle—Medium size, finely netted, green flesh, best for light soils. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Large Hackensack—A standard variety. The melons weigh from 4 to 10 pounds each, and are of a delicious flavor. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Extra Early Hackensack—This variety resembles the Large Hackensack, but is smaller and about ten days earlier. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Long Island Beauty—This splendid variety is an improvement on the Hackensack, which it resembles to a certain degree. It is one of the earliest melons grown, good size, flattish in shape, well netted, and has sweet green thick flesh of delicious flavor. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Montreal Improved Green Nutmeg—This variety grows to a large size, beautifully netted and deeply ribbed, flesh light green, melting, and exquisite flavor. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Grand Rapids—A splendid extra early variety of large size and handsome appearance; skin finely netted, flesh salmon. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

Early Orange Christiana—Yellow flesh. It is 10 days earlier than the Nutmeg. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

WATER MELON

Melone d'eau, Fr. Wasser Melone, Gr.

One ounce for every 30 hills; 4 to 5 lbs. for acre.

The Water Melon is purely a tropical plant, greatly appreciated for its refreshing coolness and delicious flavor. Cultivate same as musk varieties, only that the hills should be 8 feet apart each way.

Peerless Water Melon.

Peerless—An extra early variety of medium size, thin rind, light mottled green; flesh bright scarlet. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 90c.

Kleckley Sweets—Large oblong Melons, 20 inches in length by 10 to 12 inches in diameter, somewhat tapering at the ends. The skin is dark green, flesh bright scarlet, ripening close to the skin, the rind being only about one-half inch in thickness. The white seeds are placed close to the rind. Flesh crisp and sugary and melting in the highest degree; of handsome appearance and most uniformly superior quality; it is the "sweetest of all" large Water Melons. Pkt. 5c, oz. 10c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Water Melon—Continued.

Sweetheart Water Melon.

Cuban Queen—Flesh bright red, remarkably solid, crisp and sugary, and for delicious flavor is unsurpassed. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 90c.

Sweetheart—Early, uniformly large, handsome and productive. As a shipper and long keeper it has no equal. Fruit is oval, heavy, and mottled light green. Flesh bright red, firm and solid, but very tender. A profitable variety for market gardeners. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 90c.

Phinney's Early—An early, hardy and productive red fleshed variety. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 90c.

Citron—Fruit round, flesh white and solid; used for making preserves only. Red seed. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 90c.

Citron, Colorado Preserving—Of large size, very productive and of excellent quality. Green seed. Pkt. 5c, oz. 15c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Mushroom Spawn.

MUSHROOM SPAWN

Blanc Champ gnon, Fr. *Essbare Blatter Schwamme*, Gr.

Mushrooms can be grown in any cool, shady situation out of doors in the summer time, and during the winter months in any greenhouse, shed or cellar where the temperature does not fall below 45 deg. and is tolerably uniform. They are possibly the most profitable crop for the outlay that can be grown. The spawn we offer can be thoroughly relied on to produce a good crop of the best Mushrooms.

Directions for cultivation accompany each order for Spawn.

Fresh English Milltrack Spawn in bricks, 15c each; five for 70c, 12 for \$1.50. If it be sent by mail add 8c a brick for postage within the Dominion of Canada, and 25c to Newfoundland and the United States.

New Virgin Mushroom Spawn—The idea of raising virgin spawn by sowing the spores of the best mushrooms has occurred to many minds, but all endeavors remained fruitless until Dr. Ripen, after countless experiments, succeeded five years ago in manufacturing virgin spawn at will. This virgin spawn is characterized by its great vigor of growth, and being raised from spores of the best and healthiest Mushrooms, it does not

contain any of the bacterial or other organisms which may be prevalent in spawn that has not been manufactured and sterilized by this new process. It therefore is not so liable to be attacked by disease, a consideration which alone possesses a high degree of interest and does away with one of the great drawbacks in Mushroom growing. It is sold in the form of compressed and sterilized manure slabs or tablets, thoroughly pervaded by the spawn, and which are $1\frac{1}{2}$ inches thick and $2\frac{3}{4}$ x $3\frac{3}{4}$ inches in surface. 15c. tablet, \$1.20 a dozen. If by mail add 10c per dozen to Canadian points and 25c per dozen to Newfoundland and the United States.

MUSTARD *Moutarde*, Fr. *Senf*, Gr.

For early salad sow in hot beds in February and March; and for general crops at intervals throughout the season in shallow drills six inches apart. **White** for salad. pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 15c, lb. 40c.

ONION.

Ognon, Fr. Zwiebel, Gr.

One ounce will sow a row of 100 feet ; five lbs. to the acre.

Onion seed is sown from the first of April to the middle of May—the earlier the better—provided the ground is dry enough to work light and fine. Rich soil, with a good application of manure every year, and proper attention, will almost invariably ensure a good crop. Onions, unlike most other crops, may be raised on the same ground for an indefinite length of time. Onion sets and tops are placed on the surface in shallow, 12 inch drills, about four inches apart, but not covered.

Extra Early Australian Yellow Globe—A new yellow strain of the popular Australian Brown Onion. The bulbs are globe shaped, of medium size, and very solid ; skin a light brownish yellow. The flesh is pure white and exceptionally mild in flavor. Thin-necked, they ripen evenly and quickly in all soils and possess remarkable keeping qualities. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Large Red Wethersfield—Skin deep purplish red ; flesh purplish white ; fine grained and stronger flavor than that of the yellow and early red varieties ; productive, and one of the best to keep. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.70.

Danvers Yellow Globe—Bruce's Selected, a fine variety ; above the medium size, globular in form, skin yellowish brown, flesh white ; mild and well flavored ; very productive. Most profitable variety for market gardeners to grow. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Danvers Yellow Flat—In quality, equal to the preceding, but flat in shape. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.70.

Australian Brown—Of good marketable size. It ripens earlier than Yellow Danvers or Red Wethersfield. The outside skin is of a deep, amber brown, distinct from all other onions, and it is extremely hard and firm, and of fine flavor, and is pronounced the best keeper of all onions. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.35.

Early Red Globe—Globe shaped, skin deep red, flesh white ; mild and tender ; handsome in appearance and ripens early. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.

Extra Early Flat Red—Resembles the Wethersfield in color, but is much earlier ; valuable for heavy, late soils. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.70.

Yellow Dutch or Strasburg—Very flat and productive. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.70.

White Globe—A large, globe-shaped variety ; very solid, of mild flavor and good keeper ; clear white skin, and always commands the highest market price. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 70c, lb. \$2.40.

White Portugal—Large flat onion ; mild flavor ; fine for early winter use. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Welsh, Red or White—Used for salads. Sow the seeds of this variety in August. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.35.

NEAPOLITAN ONIONS.

Mammoth Silver King—An extra large white-skinned and white fleshed variety. It matures early. In shape somewhat flat and of an exceedingly mild and delicate flavor. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Giant Rocca—Large globular shaped, light brown skin. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 35c, lb. \$1.35.

Giant White Tripoli—Large and handsome. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 45c, lb. \$1.70.

HAZELTINE'S HAND WEEDER, EXCELLENT FOR WEEDING ONIONS, 30c. POSTPAID.

ONIONS—Continued.

— **Giant Prizetaker**—American grown. This variety may be grown to an enormous size by sowing the seed in a hot-bed in February or March and transplanting out as soon as the ground is in condition. Some of our customers exhibited specimens weighing as much as 3 lbs. each, and measuring 18 inches in circumference. Globe-shaped, of a rich straw color, solid, and an excellent keeper; flesh white, in flavor mild and sweet. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.70.

PICKLING ONIONS.

- **Small Silver Skin Pickling**—A standard variety; largely grown for pickles. Pkt. 5c, oz. 20c, 2 oz. 30c, $\frac{1}{4}$ lb. 45c, lb. \$1.70.
- **White Barletta Onion**—An extra early, small, white skinned variety; flesh pure white; very mild in flavor; excellent for pickling. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.
- **Queen**—This is another extra early variety; small, flat and mild flavored. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

To those requiring Onion Seed in quantity we will be pleased to quote special prices on application

Giant Prizetaker Onion.

ONION SETS.

When wanted in large quantities write for special quotations.

English Potato	Per qt.	10c
Dutch Sets—Yellow.	(We give)	15c
Shallots	Heaped	10c
Top or Button	(Measure.)	20c
Dutch Sets—White.		20c

When sets are to be mailed, postage must be added at the rate of 10c per quart, or 15c for two quarts, within the Dominion of Canada, and 25c per quart to Newfoundland and the United States.

OKRA. *Gombo*, Fr. *Safran*, Gr.

Plant late in the spring (after the ground has become warm), in drills two and a half feet apart; thin out to nine inches in the row. Use the pods when green and tender.

Dwarf Green—Round smooth pods. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

PARSNIP. *Panais*, Fr. *Pastinake*, Gr.

Sow as early as the ground will permit in very rich, loamy soil, in rows fifteen inches apart, and thin to seven inches in the row. The roots are very hardy, and are greatly improved by remaining in the ground through the winter.

Bruce's Improved Hollow Crown—A decided improvement on the old variety; roots finely shaped and flavor excellent. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 50c.

The Student—Well known variety, fine flavor. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 50c.

PARSLEY.

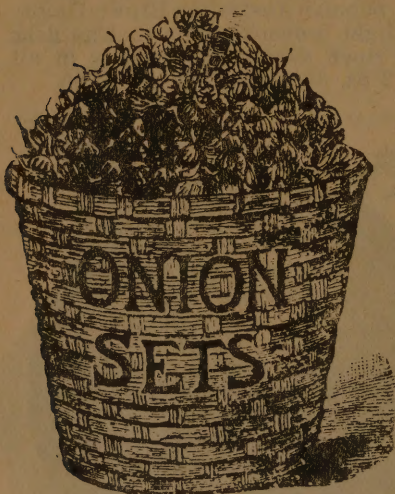

Persil, Fr. *Petersilie*, Gr.

Sow early in the spring in drills 12 inches apart, thin out the plants to 6 inches apart. To have green during the winter remove plants into a box and place in a light cellar or cold frame.

Extra Curled—Leaves beautifully curled. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Champion Moss Curled—This is the perfection of Parsley. Pkt. 5c, oz. 15c, 2 oz. 20c, $\frac{1}{4}$ lb. 35c, lb. \$1.00.

Carter's Fern Leaved—Invaluable for garnishing. Pkt. 5c, oz. 15c, 2 oz. 20c, $\frac{1}{4}$ lb. 35c, lb. \$1.00.

Champion Moss Curled Parsley.

New Pea, Thomas Laxton.

Bruce's C. P. R. Pea. See Page 18.

PEAS *Pois, Fr.* *Erbse, Gr.*

One quart for a row of 75 feet.

The soil best adapted for the Pea is a rich loam, well manured the previous year (using thoroughly decomposed manure if any, immediately before planting). For early crops sow as early in the spring as the ground can be worked in drills three feet apart, and for a succession every 2 weeks until the 1st of July. When they are about 2 inches high begin to draw the earth to the stems. Hoe often in dry weather. Peas should be soaked in water before planting, and if the ground is very dry should be watered in the hills.

EXTRA EARLY VARIETIES.

✓ **Bruce's Unrivalled**—In shape of pod and habit of growth it may best be described as a more robust form of American Wonder, growing five to six inches higher, and about ten days later. The pods, which are of the same brilliant deep green color as the plant, are produced in great profusion, each completely packed with 8 to 10 large and very sweet flavored peas. Pkt. 15c, ½ pt. 25c, pt. 40c, qt. 70c.

✓ **Thomas Laxton**—A new variety, producing large pods in abundance. The quality is delicious and cannot be surpassed by any other variety. It will mature fully as early as any of the extra early smooth peas, and being a wrinkled sort is much sweeter, and is an improvement on Gradus, being earlier, hardier and darker. Pkt. 10c, pt. 30c, qt. 50c, 2 qts. 90c, 4 qts. \$1.60, pk. \$3.00.

✓ **New Early Pea, Gradus**—This fine variety has now been well tested, and we recommend it highly. It is the earliest of all sweet wrinkled varieties excepting Thomas Laxton, and while ripening within a few days of our Extra Early Conqueror, its pods are as large and well-filled as Strata-gem, with large peas of exquisite flavor. The vine has heavy stems with large dark green leaves, and grows to a height of 3 feet; pods large, nearly round, and of a deep green color. Pkt. 10c, pt. 30c, qt. 50c, 2 qt. 90c, 4 qt. \$1.60, pk. \$3.

✓ **Bruce's Early Conqueror**—This well known variety surpasses all other peas as to earliness. Prolific cropper, bearing large pods; ripens up with wonderful uniformity, making it the most profitable early pea for market gardeners to grow. Height 2 feet. Pt. 15c, qt. 25c, pk. \$1.25, bush. \$4.80.

✓ **Alaska**—One of the very earliest blue varieties, productive, and a good canner. Height 1½ feet. Pkt. 15c, qt. 25c, pk. \$1.25, bush. \$4.80.

✓ **American Wonder**—This variety is justly entitled to take first position at the head of the list of Extra Early Dwarf Wrinkled Peas, and stands unrivalled in point of productiveness, flavor and quality. Height 10 to 12 inches, with a very branching habit. Pt. 25c, qt. 40c, pk. \$2.20, bush. \$8.00.

✓ **Nott's Excelsior**—A splendid extra early, a few days later than the American Wonder, but pods larger; very prolific and of splendid flavor. Height 1 foot. Pt. 25c, qt. 40c, pk. \$2.25, bush. \$8.50.

SECOND EARLY VARIETIES.

✓ **Heroine**—One of the best large green wrinkled sorts of recent introduction. Growing about 2½ feet high, it bears a profusion of large pointed pods, many of which contain from 8 to 9 large peas of the finest quality; rich, buttery, marrow-like flavor. A profitable pea for market gardeners. Pt. 20c, qt. 30c, pk. \$1.60, bush. \$6.00.

✓ **McLean's Little Gem**—This Pea is now a well-known standard variety. It is one of the best dwarf early sorts, and of exquisite flavor. Height 1 foot. Pt. 20c, qt. 30c, pk. \$2.00, bush. \$7.50.

✓ **Horsford's Market Garden**—A wrinkled variety, prolific bearer; pods medium size, numerous and well-filled with peas of a delicious flavor. Pt. 15c, qt. 25c, pk. \$1.25, bush. \$4.80.

✓ **McLean's Advancer**—A dwarf, green wrinkled variety of fine flavor. The best canner. Pt. 15c, qt. 25c, pk. \$1.25, bush. \$4.80.

We supply all varieties of Peas, except where specified, at 5c. per small pkt., and 10c. for good sized pkt.

PEAS—Continued.

GENERAL CROP

Improved Stratagem Pea.

✓ **Telephone**—Immensely productive and of the finest quality. Vines very strong, averaging 18 to 20 pods per stalk; the pods are of large size, containing 6 to 7 Peas each, which are of a pale green color, and are closely packed in the pod, and of most delicious flavor; 4 feet. Pt. 20c, qt. 30c, 4 qts. \$1.00, peck, \$1.65, bushel \$6.00.

✓ **Champion of England**—Good for general crop, very fine flavor. Height, 4 feet. Pint 15c, quart 25c, peck \$1.20, bush. \$4.50.

✓ **Improved Stratagem**—One of the best of the many English Peas. It grows to a height of two feet, and plant is literally covered with immense pods, many measuring six inches in length and frequently containing ten large fine flavored peas. Pint 25c, quart 40c, peck \$2.25, bush. \$8.50.

✓ **Bruce's C. P. R.**—The best main crop, blue, wrinkled marrow pea. It grows about two feet high, of a sturdy, branching habit, and it requires to be sown thinly, as the pods are produced from the very bottom of the plant to the top. The pods are large and slightly curved, and filled with peas of a fine deep green color, and of the most delicious flavor. We strongly urge all growers to give it a trial. Pint 20c, quart 30c, peck \$1.75, bush. \$6.50.

✓ **Sugar or Edible Podded**—The pods are cooked like String Beans. If used when about half grown they are deliciously tender and sweet. Pkt. 10c, pint 25c, quart 40c.

✓ **Large White Marrowfat**—A very prolific, first-rate variety. Pint 10c, quart 15c, peck 50c, bush. \$1.50.

✓ **Black-Eyed Marrowfat**—Great bearer, large pods. Pint 10c, quart 15c, peck 50c, bush. \$1.50.

When Peas are to be sent by mail, add the postage at the rate of five cents per pint within the Dominion of Canada and sixteen cents per pint to Newfoundland and the United States.

PEPPER

Piment, Fr. Spanischer Pfeffer, Gr.

Sow early in the spring in a hot bed, and transplant end of May in rows 18 inches apart and 10 inches in the row, and earth up a little at one or two hoeings.

Chinese Giant—This most desirable variety of recent introduction, is undoubtedly the largest sweet pepper ever offered. Their extremely large size is a great surprise and delight to all who grow them. The plant is of strong, vigorous growth, about two feet high when fully grown, and a very prolific bearer of the large Peppers, which set closely towards the bottom of the plant. They grow much larger than the Ruby King, which heretofore has been a favorite variety, and are of a bright scarlet color when ripe. The flesh is quite thick, very mild and remarkably sweet, without the least taste of firiness. Pkt. 10c, ½ oz. 40c, oz. 70c.

Chili—Pods pendant, shape conical, about 2 inches in length; very piquant. Pkt. 5c, oz. 40c.

Golden Dawn—A rich, deep, yellow pepper, of uniform large size, sweet and mild. Pkt. 5c, oz. 40c.

Bell or Bull Nose—A large, early variety, sweet and mild. Pkt. 5c, oz. 40c.

Long Red—Pods brilliant red, and three or four inches in length; very productive. Pkt. 5c, oz. 30c.

Long Yellow—Similar to the long red in shape and size, excepting in color. Pkt. 5c, oz. 40c.

Mammoth Golden Queen—The largest of the yellow varieties. Pkt. 5c, oz. 40c.

Mammoth Spanish—One of the largest and earliest varieties. Flesh is sweet and mild. Pkt. 5c, oz. 40c.

Monstrous or Grossum—A remarkably fine variety, growing to a large size. Pkt. 5c, oz. 40c.

Procopp's Giant—Very large, thick fleshed, scarlet variety. Pkt. 5c, oz. 40c.

Ruby King—Beautiful bright red; fruit very large and mild, one of the best. Pkt. 5c, oz. 40c.

Squash—Skin smooth and glossy; flesh thick, mild and pleasant to the taste. Pkt. 5c, oz. 40c.

Cayenne—Pods are small, cone-shaped, coral red when ripe. Pkt. 5c, oz. 40c.

Cherry—Pods of fruit erect, nearly globular, cherry form; of deep, rich, glossy scarlet. Pkt. 5c, oz. 40c.

Ruby King Pepper.

PUMPKIN. *Potiron, Fr. Kurbis, Gr.*

Plant middle of May in manured hills, eight feet apart, and leave but two or three plants in a hill.

Cheese—Medium size; one of the best for cooking purposes. Pkt. 5c, oz. 10c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Large Yellow—Better adapted for feeding purposes than for cooking. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 40c.

King of Mammoth or Jumbo—Can be grown to an enormous size; flesh fine grained and of excellent quality. Pkt. 10c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

Japanese Pie—Crook-necked variety, productive, ripens early, medium size, good keeper. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

SELECTED SEED POTATOES

Pomme de Terre, Fr. Kartoffel, Gr.

New Extra Early, Beauty of Noroton—See page 37.

Pride of Aroostook—This grand new potato comes from Aroostook county, Maine, which is famous for its potatoes. It is a second early, pure white variety, oblong in shape, and of exceedingly fine appearance and splendid quality. It has great vitality and is wonderfully productive, easily beating any variety of equal earliness. 1 lb. 20c, 5 lbs. 75c, postpaid to Canadian points. By freight, peck 65c, $\frac{1}{2}$ bushel \$1.10, bushel \$2.00.

Early Six Weeks—Popular first early, of fine quality.

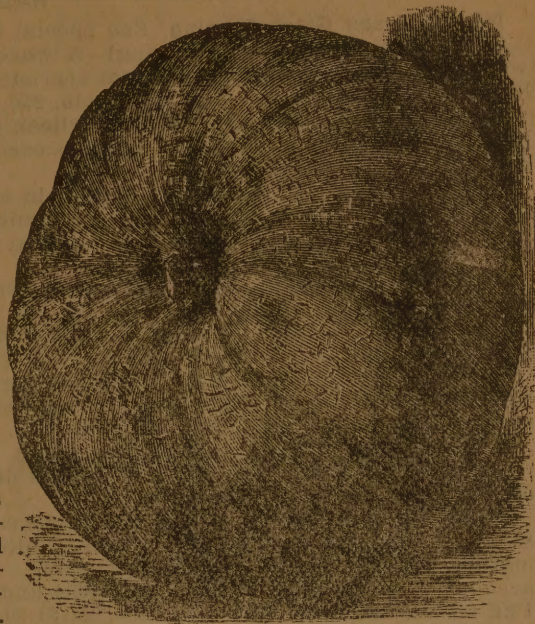

Burpee's Extra Early—Of good size, oblong shape, skin smooth, flesh pure white, and best quality.

The Bovee—An extra early, wonderfully productive variety of excellent quality.

Extra Early Ohio—A fine early potato of vigorous growth and superior quality. Our stock is very fine.

Early Puritan—Early, of handsome oblong shape; skin and flesh pure white. Very productive.

Sir Walter Raleigh—Main crop, very productive, white flesh and skin, of uniform large size, smooth, with few shallow eyes and of splendid quality.

King of Mammoth Pumpkin.

Bruce's White Beauty—This excellent potato still retains the position it has occupied since we introduced it fourteen years ago, on account of its attractive appearance and the excellence of its table qualities. It resembles the Beauty of Hebron, but is earlier and more productive. The skin and flesh are pure white, the tubers are uniform in size, and it is a good keeper.

Beauty of Hebron, Pearl of Savoy, Empire State, Carman, White Elephant and other standard sorts supplied.

Prices of above varieties, excepting the Beauty of Noroton and Pride of Aroostook, subject to market fluctuations. 1 lb. 15c, 5 lbs. 50c, postpaid to Canadian points. Peck 35c, half bushel 60c, bushel \$1.10, bag \$1.50. (Jute bags 10c each extra.)

We usually commence shipping about the first of April (weather permitting).

RADISH. *Radis, Fr. Retting, Gr.*

one ounce will sow a row of 100 feet.

For early crops they should be sown in hot beds in February or March, and in the open air as soon as the ground can be worked and at intervals of ten or twelve days for a succession throughout the season. Sow in drills 8 to 10 inches apart, and thin to a distance of 2 inches in the drills. The winter varieties should be sown in August and lifted before severe frost. A warm loam, made rich and light by some well-rotted sandy manure, will be the most likely to produce them brittle and free from worms.

Bruce's Non Plus Ultra Forcing Radish.

RADISH—Continued.

New Crimson Giant Forcing See special description and illustration, page 38.

Bruce's Non Plus Ultra (Forcing)—A wonderfully rapid grower, which is fit for use within three weeks; the root is round and bright scarlet; the flesh tender and delicate; it produces but few leaves. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Rosy Gem (Forcing)—One of the earliest, perfectly globular; color rich deep scarlet at the top, blending into pure white at the bottom, exceedingly tender and crisp; delicious. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Bruce's In and Out (Forcing)—Similar in size and shape to the Scarlet Turnip White Tipped, but of smaller top and much quicker growth, coming to maturity in a little over 20 days; desirable variety. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Lily White (forcing)—Handsome white variety, having few leaves, which are small and closely set; comes to maturity in about 20 days. Skin and flesh pure white, of excellent flavor. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Scarlet Olive (forcing)—The largest of the forcing varieties, of a pure, deep scarlet color, the top being unusually small. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Scarlet Globe (forcing)—Handsome shape, color brilliant red, flesh white and crisp, mild and of fine flavor. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

New Triumph—The roots are about the same size and shape as Rosy Gem, but are creamy white, beautifully marked with spots and dashes of carmine. Desirable on account of its distinct beauty, earliness and good quality. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

Early Deep Scarlet Turnip—Color of the skin is very dark red; white flesh, with very small tap root. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 70c.

Scarlet Turnip, White Tipped—A standard market variety. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 70c.

French Breakfast—Oval form, color scarlet, white tipped. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Scarlet Olive-Shaped—Skin fine scarlet, flesh rose color. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 70c.

White Olive-Shaped—Same as above in every respect except color. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 70c.

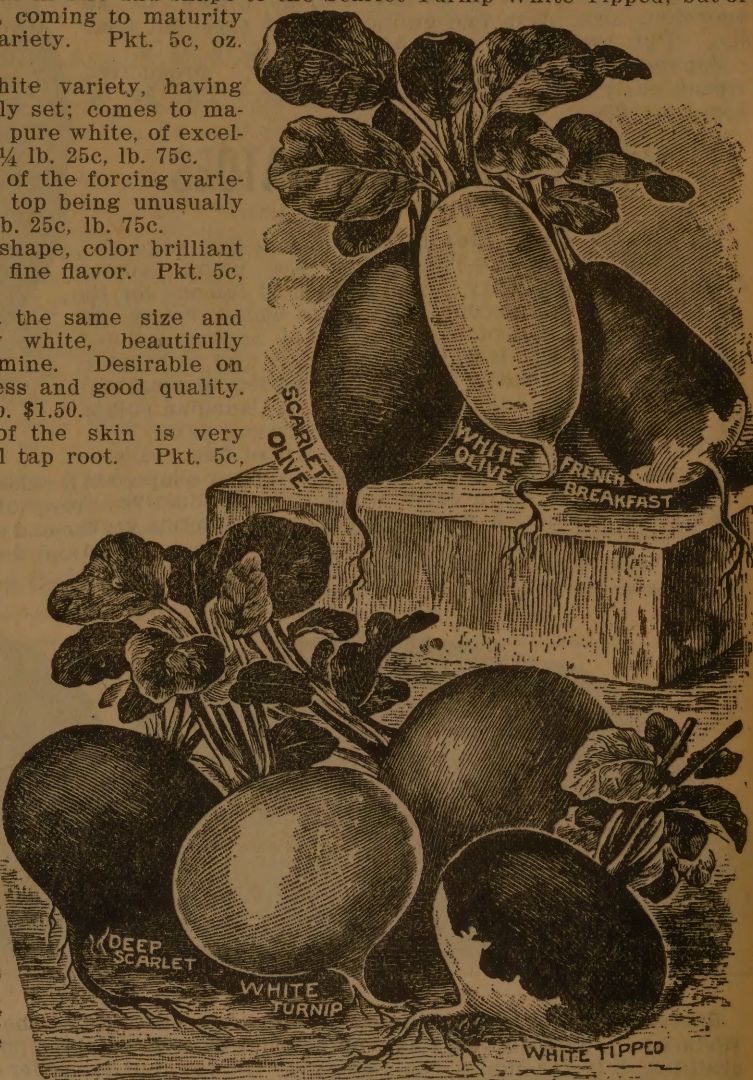

White Turnip—Skin and flesh white; some days later than the scarlet. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 60c.

Half Long Deep Scarlet—An early variety, intermediate in shape between the Long Scarlet and the Scarlet Olive-Shaped. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Long Brightest Scarlet—Resembles the old Long Scarlet in shape and size, but in color is very distinct, being of the most vivid scarlet imaginable, the tip of the roots being pure white. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 70c.

Long Brightest Scarlet Radish.

Long White Vienna, or Lady Finger—This is the best long white variety. Of handsome form; skin and flesh pure white; of very rapid growth, remarkably crisp, brittle and tender. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Chartier—A long radish, of deep crimson color at top, shading off lighter until at the bottom they become white. The roots attain a large size and remain for a long time tender and crisp. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 70c.

WINTER RADISHES.

China Rose Colored—Size medium, flesh firm, rather piquant. The standard winter variety. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Chinese White or "Celestial"—Stump-rooted, very like Nantes Carrot; 6 inches long; fine for winter. Pkt. 5c, oz. 15c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Black Spanish Round—Large size, skin black, of fine quality. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Black Spanish Long—Similar to preceding in every respect except shape. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

California Mammoth or White Russian—A giant white fleshed fall radish. It grows from 8 to 10 inches in length and about 2½ in diameter. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Mammoth Salsify.

RHUBARB. *Rhubarbe, Fr. Rhabarber, Gr.*

Sow early in spring, in rows twelve inches apart; the following spring transplant into rows two feet apart each way; manure the ground to the depth of two feet. In raising Rhubarb from seed no reliance can be placed on their producing the true varieties; the most expeditious and satisfactory mode to obtain a supply is to procure roots which will produce a moderate supply the first season.

Victoria—Very large, fine for cooking. Pkt. 5c, oz. 20c, 2 oz. 35c, ¼ lb. 60c, lb. \$2.00.

Myatt's Linnaeus—Very early and tender. Pkt. 5c, oz. 20c, 2 oz. 35c, ¼ lb. 60c, lb. \$2.00.

Rhubarb Roots, each 20c, three for 50c, \$2.00 per dozen, postpaid.

SEA KALE. *Grambe Maritime, Fr. Meerkohl, Gr.*

Sow in drills one foot apart and thin out to four inches in the row. When one year old transplant into hills eighteen inches apart and three plants to each hill. On approach of frost cover about two feet thick with dried leaves. Pkt. 5c, oz. 25c, 2 oz. 40c, ¼ lb. 75c, lb. \$2.50.

SALSIFY OR VEGETABLE OYSTER.

Sow early in spring in drills twelve inches apart, one inch deep, and thin out to six inches in the row; cultivate similar to Carrots and Parsnips. They are quite hardy and will stand the winter in the open ground.

Mammoth Sandwich Island—Roots are very large and of excellent quality. Pkt. 5c, oz. 20c, 2 oz. 35c, ¼ lb. 60c, lb. \$1.75.

Long White—Standard variety. Pkt. 5c, oz. 15c, 2 oz. 25c, ¼ lb. 40c, lb. \$1.25.

SPINAGE. *Epinard, Fr. Spinat, Gr.*

One ounce will sow a row of 100 feet; 10 to 12 pounds for an acre.

Sow early in spring, in drills one foot apart, and thin out to six inches in the row. Rich, light soil is requisite to produce large, tender leaves. For winter crop sow end of August; cover lightly with clean straw; soak the seed six hours before sowing.

Victoria—The foliage is heavy, the broad dark green leaves being of the true Savoy appearance and of the finest quality. It remains in prime condition from 2 to 3 weeks after all other varieties have run to seed. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 30c.

Monstrous Viroflay—Extra large round leaved variety, with thick, succulent leaves. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 20c, lb. 30c.

Catillon Long Standing—A variety with large, thick, succulent leaves, which does not run to seed as quickly as other sorts. One of the best for market gardeners to grow. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 20c, lb. 30c.

Fall or Prickly Seeded—Leaves long, thin in texture, and erect. Pkt. 5c, oz. 10c, 2 oz. 15c, ¼ lb. 20c, lb. 30c.

New Zealand—Produces leaves of the greatest succulency in the hottest weather. Pkt. 5c, oz. 15c, 2 oz. 20c, ¼ lb. 30c, lb. \$1.00.

Monstrous Viroflay Spinage.

SQUASH. *Courge, Fr. Speise Kürbis, Gr.*

One ounce for fifty hills.

Any good enriched soil is adapted to the growth of Squashes. They only thrive well in a warm temperature, as all the varieties are tender annuals, and the seeds should not be sown in spring until all danger from frost is passed and the ground is warm and thoroughly settled. The hills should be made from 8 to 10 inches deep, manured well and the seeds covered about three-fourths of an inch deep. Keep the earth about the plants loose and clean, removing the surplus vines from time to time, allowing not more than three plants in a hill. The custom of cutting or nipping off the leading shoots of the running varieties is now practised to some extent with the impression that it facilitates the formation of fruitful laterals and the early maturing of fruit.

Giant Green Crookneck (new)—See page 38.

Yellow Summer Crookneck—One of the finest of summer varieties. Pkt. 5c, oz. 15c, 2 oz. 20c, ¼ lb. 30c, lb. \$1.

Early Yellow Scallop Bush—Early, flat, scalloped

Early White Scallop Bush—shaped, fine grained. Pkt. 5c, oz. 15c, 2 oz. 20c, ¼ lb. 30c, lb. \$1.00.

Golden Custard—This is an improved strain of the Early Yellow Bush Scallop, of true bush growth and

nearly as early. The fruits are much larger and greater in depth, and have a rich golden orange skin, as well as rich creamy yellow flesh; very productive. Pkt. 5c, oz. 15c, 2 oz. 20c, ¼ lb. 30c, lb. \$1.00.

Long White Vegetable Marrow Squash.

SQUASH—Continued.

Vegetable Marrow Moore's Cream—Skin greenish yellow; flesh white, soft, rich flavor. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

Long White English Marrow—A very long, pure white marrow of the finest quality; very productive. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

Long White Bush Marrow—The fruit of this bush variety is similar in size and color to the preceding. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

Hubbard—The standard winter Squash, color dark green, shell hard, flesh dry, fine grained and sweet. Excellent keeper. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

Warted Hubbard—A variety of the Hubbard Squash, with warted skin. The vines grow strong and produce a large number of Squashes, which are of good size and keep well. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

The Faxon—Fine flavored and wonderfully productive; of medium size and varying in color; flesh deep orange yellow; matures early and can be used as a summer squash as well as for winter. Pkt. 5c, oz. 15c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Perfect Gem—Excellent both as a summer and winter variety. Pkt. 5c, oz. 15c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Essex Hybrid or Turban—A cross between the Hubbard and Turban, with color, shape and quality of the latter, and dryness and hard shell of the former. The flesh is sweet and thick, and a bright orange color; long keeper. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

Fordhook—A winter variety, oblong in shape, color a bright yellow. The flesh is dry, sweet, and of the finest quality; very productive; remarkable keeper; skin thin; delicate; meat thick; seed cavity small; a most desirable variety. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

**Red or Golden Hubbard Squash.**

Red or Golden Hubbard—While it resembles the old green hubbard in shape and size it is much more attractive in appearance; color a rich orange yellow, turning to a deep salmon red when ripened. Its keeping qualities are fully equal to, while in productiveness it excels the green variety. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

Boston Marrow—A very popular variety, productive, and a good keeper. Pkt. 5c, oz. 15c, 2 oz. 20c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

Mammoth—Grows to a great size, often weighing 200 lbs; good for stock. Pkt. 10c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

Mammoth Whale—Very prolific, flesh solid, of an orange yellow color, and of excellent quality. Specimens have grown 3 feet long and weighed 100 pounds. A splendid winter keeper and well worth a trial. Pkt. 10c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

TOMATO. *Tomate, Fr. Liebes Apfel, Gr.*

For early crops sow the seed in a hot-bed in March; when two inches high transplant into pots or into another bed, and attend them carefully until all danger from frost is past, then plant in hills four feet apart in a sheltered situation fully exposed to the sun, support them with brush to keep the fruit off the ground. This is a vegetable worthy of the most extensive cultivation. Two ounces of seed will produce enough plants for an acre.

Earliana (new, selected stock)—For description see novelties, page 38. Pkt. 5c, oz. 35c, 2 oz. 60c, $\frac{1}{4}$ lb. \$1.10, lb. \$4.00.

Bruce's Dominion Day Tomato—When we first offered this tomato in 1897 we specially recommended it as the most profitable extra early variety that could be grown for market. It combines with its extreme earliness, large size, magnificent color (a bright red), and delicious flavor. It is not liable to crack, is free from core, is almost smooth, and a great yielder. Its qualification of extreme earliness makes it very valuable, and the largest growers have confirmed our estimate of its value by planting it very extensively. Pkt. 5c, $\frac{1}{2}$ oz. 20c, oz. 30c, 2 oz. 55c, $\frac{1}{4}$ lb. \$1, lb. \$3.50.

Early Michigan—Vines large, with large dark green leaves, vigorous and wonderfully productive; fruit medium size to large, and unlike most varieties, grows larger as the season advances; perfectly smooth, solid, but without any core; deep, rich red color, and of excellent flavor. Its first fruits are very early, but the vines continue to bear for a long time. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 80c, lb. \$3.

Chalk's Early Jewel—Matures about a week later than Earliana, while the fruits are larger and heavier and produced in greater abundance; one of the most profitable tomatoes to grow for main crop; color bright red. Pkt. 10c, $\frac{1}{2}$ oz. 30c, oz. 50c, 2 oz. 90c, $\frac{1}{4}$ lb. \$1.50, lb. \$5.50.

Atlantic Prize—Extra early, largely grown for first crop Pkt. 5c, oz. 20c, 2 oz. 40c, $\frac{1}{4}$ lb. 70c, lb. \$2.50.

Early Ruby—Extra early, medium size, color bright red. Pkt. 5c, oz. 20c, 2 oz. 40c, $\frac{1}{4}$ lb. 70c, lb. \$2.50.

Success—A main crop variety, smooth and well formed. It has great meatiness and few seeds, is firm without being hard, and a splendid shipper; a brilliant red color and a big cropper. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 80c, lb. \$3.

Royal Red—Main crop, very productive, of a rich deep red color. It is deservedly popular with canners and catsup makers. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 70c, lb. \$2.50.

**Dominion Day Tomato.**

TOMATOES—Continued.

New Dwarf Stone—Resembles the Dwarf Champion in its stout, upright and compact growth, with fruit similar to the late Stone in color, shape and size; very solid; ripens evenly, and of splendid quality. The strong upright growth allows very close planting, and for small gardens it is unequalled. Pkt 5c, $\frac{1}{2}$ oz 25c, oz 40c, 2 oz 60c, $\frac{1}{4}$ lb. \$1.

Ignotum—Very early and prolific; color fine deep red, fruit smooth, heavy and solid and of delicate flavor. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 70c, lb. \$2.50.

Favorite—It is a popular canning variety of a fine dark red color. Ripens evenly, is very prolific, good flavor, flesh solid, and bears shipping long distance. Pkt 5c, oz 20c, 2 oz 35c, $\frac{1}{4}$ lb 60c, lb \$2.25.

Perfection—A well-known early variety, extensively grown for canning purposes; blood red color, perfectly smooth, ripens uniformly, is wonderfully productive. Pkt 5c, oz 20c, 2 oz 35c, $\frac{1}{4}$ lb 60c, lb \$2.25.

The Stone—Large, bright scarlet, smooth and solid, ripens up to the stem without a crack; an excellent main crop variety. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.25.

Matchless—Of a rich, cardinal red color, large size, very uniform and smooth, and for quality and solidity it is hard to beat. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

Dwarf Champion—Quite distinct in foliage and habit of growth; leaves thick and different from any other; growth compact and upright. Crop ripens very early and evenly and resembles Acme in appearance. Pkt 5c, oz 25c, 2 oz 45c, $\frac{1}{4}$ lb 80c, lb \$3.

Imperial—Early, perfectly smooth, solid and of the finest quality; in color a deep, rich red, tinted with purple. A handsome table variety. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 70c, lb. \$2.50.

Aristocrat—In habit, growth and foliage it resembles the Dwarf Champion. The color of its fruit, however, is a beautiful rich glossy red. Pkt. 5c, oz. 25c, 2 oz. 45c, $\frac{1}{4}$ lb. 80c, lb. \$3.00.

Golden Queen—Handsome, round, early, productive. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

Beauty—Large, dark crimson, tough skin, fine market variety. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 60c, lb. \$2.25.

Ignotum Tomato.

Ponderosa—This monster variety is smooth, of dark crimson color, all solid meat and fine flavor. Specimens have weighed 2 lbs. each. Pkt. 10c, oz. 40c, 2 oz. 70c, $\frac{1}{4}$ lb. \$1.25, lb. \$4.00.

Lorillard—Splendid for forcing under glass. Pkt. 5c, oz. 25c, 2 oz. 40c, $\frac{1}{4}$ lb. 75c, lb. \$2.75.

Mikado—Very large, smooth and solid; skin purplish red; has distinct and fine foliage. Pkt. 5c, oz. 20c, 2 oz. 35c, $\frac{1}{4}$ lb. 70c, lb. \$2.50.

We can also supply the following varieties: The Peach, Early Conqueror and Large Yellow at 5c per pkt, oz 25c, 2 oz 40c, $\frac{1}{4}$ lb 75c, lb \$2.75. Plants of the leading varieties supplied. Prices on application.

SMALL FRUITED TOMATOES.

The following varieties are useful for preserving and pickling:

Red and Yellow, Pear Shaped—Pkt. 5c, oz. 50c.

Yellow Plum—Pkt. 5c, oz. 50c.

Red and Yellow Cherry—Pkt. 5c, oz. 50c.

Strawberry or Ground Cherry—Fruit enclosed in a husk, excellent for preserves. Pkt. 5c, oz. 50c.

TURNIP. *Navet, Fr. Rube, Gr.*

For early crops sow as early in the spring as the ground can be worked, in drills 12 inches apart, and thin to 6 or 8 inches; for general crops sow to middle of August. They succeed best in light, rich soil.

Scarlet Kashmir—A distinct variety of a deep rich crimson above, shading to a soft crimson rose below, and of excellent flavor. Is an extra early, strap-leaved variety, with large, smooth white-fleshed roots, of good keeping quality; smooth, thin, silky skin. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 70c.

Bruce's Early Nimble Dick—The earliest and most delicious table Turnip in existence; bulbs medium size, flat; color pure white. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Extra Early White Milan—It grows with wonderful rapidity, and is the earliest White Turnip in cultivation. Of splendid quality, small top and single tap root; it is most attractive, with clear white skin and flesh fine grained and tender. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 25c, lb. 80c.

Early Flat White Dutch—Size medium, of quick growth, juicy, excellent quality. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Purple Top Strap Leaf—Flesh fine grained, rich and buttery flavored. Pkt 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Bruce's Golden Ball—Skin bright yellow, flesh firm, sweet and well flavored. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Early White Stone—A very fine variety. Pkt. 5c, oz. 10c, 2 oz. 15c, $\frac{1}{4}$ lb. 20c, lb. 50c.

Laing's Improved Purple Top Swede—An excellent turnip for rich, free soils, very handsome, with a peculiar leaf and small top. Pkt. 5c, $\frac{1}{4}$ lb. 12c, lb. 35c.

White Swede—Flesh pure white, of extraordinary solidity and well flavored. Pkt. 5c, $\frac{1}{4}$ lb. 12c, lb. 30c.

Bruce's Nimble Dick—Purple Top Strap Leaf.

IN PACKETS AT FIVE CENTS EACH.

TREE AND HEDGE SEEDS

Sow the seed moderately thick in the spring, just as soon as the ground is in good working condition, in beds 3 feet wide; then draw the soil with the back of the rake from the center of the beds to a uniform depth of 2 inches. Keep the beds free from weeds, and when the seeds begin to germinate lightly cover the bed with pine boughs to shade the young plants from the sun. When all are up the boughs should be gradually removed in order to harden off the young plants; during the first winter cover the beds with pine boughs to protect the young plants from the snow and sun. Let the plants remain in the beds from 2 to 3 years, and then transplant into rows two and a half feet apart, leaving six to 9 inches between each plant. Keep the ground clean and mellow, and when the plants are strong enough remove them to where they are intended to remain.

Norway Spruce—We offer a large stock of transplanted stocky plants of the following sizes: 12 to 15 inches, \$15.00 per 100; 18 to 24 inches, \$20.00 per 100; 24 to 36 inches, \$25.00 per 100; suitable for hedges and wind-breaks. Orders are requested to be sent in by the 1st of May.

Norway Spruce	oz. 15c	lb. \$1 25
Scotch Fir	" 20c	" 1 50
Silver Fir	" 20c	" 1 50

Mulberry White	" 50c	" 2 50
Black Walnuts		bush, \$2 00

Any of the above can be supplied at 10c per pkt.

SEEDS FOR HEDGES

Sow the following in the fall, if convenient. If sown in spring, soak the seeds in tepid milk or water forty-eight hours before sowing, which will assist the germination of the seeds. Sow in drills two feet apart, and when two years old transplant into rows two and a half feet apart and nine to twelve inches between each plant. Hoe frequently and keep free from weeds, and when two feet high transplant them to where you want them to remain.

Acacia Three Thorned or Honey Locust—(Gleditsia triacanthos)—Very hardy and effectual against man or beast. Admirably adapted for the prairies	oz. 10c	lb. \$0 50
Buckthorn—(Rhamnus Catharticus)—Clean seed	" 20c	" 1 50

AGRICULTURAL SEEDS

Bruce's Giant Feeding Sugar Beet

In submitting our list of Farm Seeds we take pleasure in stating that our extensive stocks have been secured in excellent condition; they have, as usual, had the most careful supervision by our growers, from the time of planting until maturity, and may be depended upon to give satisfaction, when due allowance is made for imperfections of weather, soil and cultivation. The large increase annually in our trade with the farmers in all portions of the Dominion is an evidence of the superiority of our stocks, and of the personal attention we give to the interests of those who have, without intermission, patronized us so liberally.

Sugar Beet, Field Carrot, Thousand Headed Kale, Mangel, Rape and Field Turnip, to be forwarded by mail requires postage to be added to Catalogue prices at the rate of 5c per lb. to all points in Canada, and 16c per lb. to Newfoundland and the United States.

SUGAR BEET

The demand for Sugar Beet Seed has more than doubled the past few years. Dairymen find when feeding to their cows a marked increase in the flow of milk and richness in butter which are not so apparent when using other cattle foods. Hogs may also be fed to advantage on Sugar Beets. Sow from middle of April to the first of June, in drills two feet apart, then thin to nine inches in the row. Five pounds seed per acre.

Bruce's Giant White Feeding Sugar Beet—This grand feeding beet, introduced by us lately, has found great favor with all who have grown it. It combines the fine rich qualities of the sugar beet with the long keeping, large size and heavy cropping qualities of the mangel. The roots are clean and tops small, color white, white flesh, solid, tender and very sweet, and on account of the bigger part of its length growing out of the ground they are easily harvested. This variety is a heavier cropper than our Rose, but not quite so rich in sugar; however, the larger yield will more than offset the difference in quality. Mr. Henry Ellis, Vine Vale Farm, season 1903, raised 3,500 bushels on three acres, many roots weighing 20 pounds each. We have no hesitation in recommending this fine variety as the best for stock feeding on the market at the present day. The roots are the largest, handsomest, most uniform and cleanest of all Sugar Beets, and this, combined with their richness and easy harvesting quality, makes them the "beau ideal" of a root for the farm. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. 95c.

Bruce's Giant Rose Feeding Sugar—This has all the good qualities of the above variety, only differing in the color, which is rose outside, though the flesh is white, and the roots are barely as large or heavy as the White. It will easily outfield all the other kinds of Sugar Beets and comes very close to that of the heaviest yielding Mangels of the intermediate type. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 95c.

Danish Improved—Remarkably productive in rich soil under good cultivation, nearly approaching in yield the standard varieties of Mangel Wurzel. Roots clean, well shaped, uniform in size, and of fine color. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

White Silesian—(Lane's Improved)—Grows to a large size. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 60c.

Red Top Silesian—Large and productive. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 60c.

FIELD CARROT

This is an indispensable root for the farm, and is deserving of more general cultivation. They succeed best in sandy soils; will also do well on strong clay loams, when perfectly pulverized, well drained and free from weeds. Well managed, there is no crop pays better, and most farmers would find an acre or so desirable. Sow from the middle of April to the first of June, in drills 18 to 20 inches apart, and when about 3 inches high thin to 4 inches between each plant. Sow 3 pounds of seed to the acre.

Bruce's Mammoth Intermediate Smooth White—This grand half-long Carrot is somewhat longer than the White Vosges and more uniform in shape. The flesh is pure white, solid, of the finest quality. It is the most productive and easily harvested, a splendid keeper. This carrot is sold under numerous aliases; our name for it is simply descriptive of the appearance of the best of all Field Carrots. We have every confidence in recommending it, and we know our strain to be the equal of anything offered. From the Farmer's Sun, December 11, 1901: "In the Ontario Experimental Union Tests, one of the striking features was that Bruce's Mammoth Intermediate Carrot gave a yield of 30 $\frac{1}{4}$ tons per acre—a yield in excess of any other variety of roots except Long Red Mangel." $\frac{1}{4}$ lb. 15c, lb. 50c.

Bruce's Mammoth Intermediate Carrot.

FIELD CARROT—Continued.

Large White Vosges—The root is large and very thick at the shoulder, much shorter than the White Belgian, and thus more easily harvested; skin and flesh pure white; a wonderful cropper and of excellent feeding quality. $\frac{1}{4}$ lb. 15c, lb. 40c.

White Belgian (Improved)—A well known variety of fine quality, most profitable for field culture. $\frac{1}{4}$ lb. 10c, lb. 30c.

Intermediate Scarlet—Valuable for shallow soils. $\frac{1}{4}$ lb. 20c, lb. 65c.

Long Orange Belgian—Superior in quality and a heavy cropper. $\frac{1}{4}$ lb. 20c, lb. 60c.

Long Orange—Large, fine quality. $\frac{1}{4}$ lb. 20c, lb. 60c.

Altringham—Long, deep red color. $\frac{1}{4}$ lb. 15c, lb. 55c.

MANGEL WURZEL—CHOICE SELECTED STOCKS

This is one of the most important crops cultivated for consumption on the farm, and in the vicinity of large towns is found to be a profitable crop for marketing. It is of easy culture. The weight of roots grown exceeds that of any other crop, and properly supplied to stock is perhaps the most valuable and nutritious. One of its best properties consists in its adaptation for long and safe storage, by which it is improved, as roots securely put into pits or cool cellars in October will come out in the early part of May containing more nutritive qualities than when put in, forming an admirable substitute for grass in a late season.

The heaviest crop of this root are invariably grown upon land which has been thoroughly cultivated and liberally manured.

The seeds should be drilled to secure uniform depth, at the rate of five to six lbs. per acre. Sow from the middle of April to the first of June, in drills two and a half to three feet apart, and thin to 16 to 20 inches in rows. The intermediate, from its peculiar shape, may be allowed to stand closer than other varieties. For feeding milch cattle it stands unrivalled. An average crop is 30 tons, and on some of the sewage farms in England the enormous yield of 80 to 90 tons has been grown.

MANGEL WURZEL—LONG VARIETIES—SECTION 1.

The following are the best adapted for deep, rich, loamy soil :

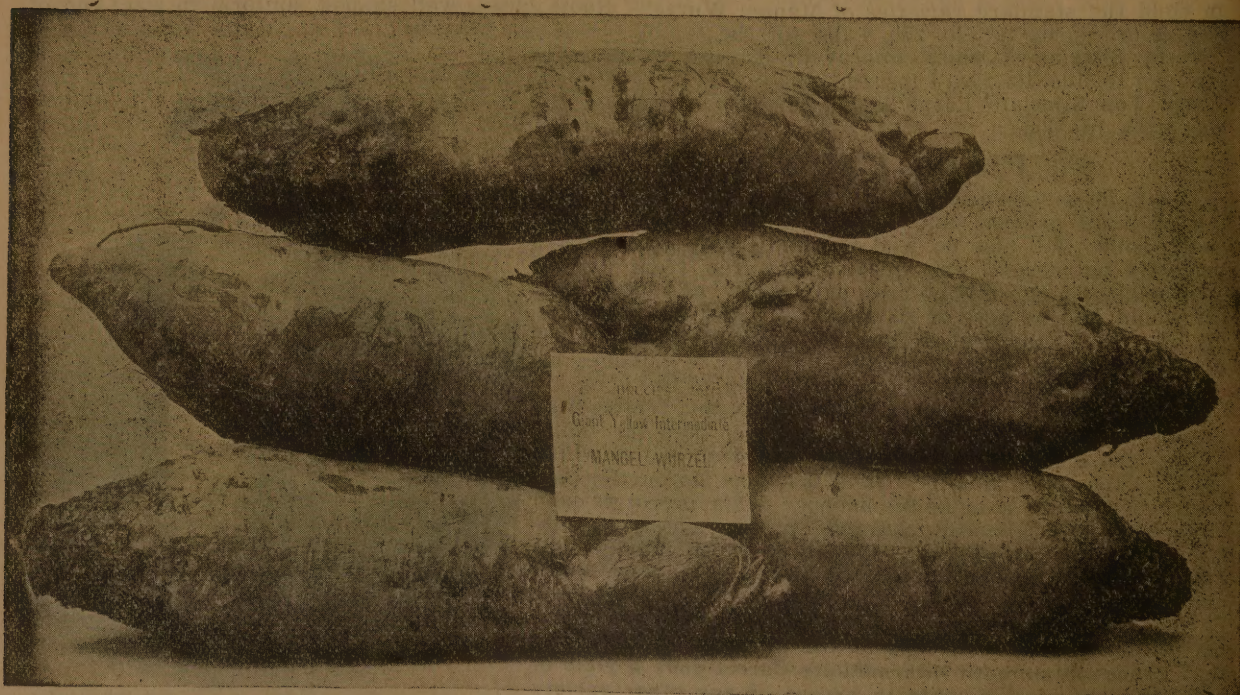

Bruce's Gate Post—A select stock of the Mammoth Long Red. Roots remarkably large, smooth, and perfect in shape. The most profitable of the Long Red varieties. Our stock cannot be excelled. Mr. T. Hines, Glanford, exhibited at Mount Hope Exhibition in 1902 six Bruce's Gate Post Mangels, grown from one seed, which weighed 197 lbs, one weighing 41 lbs. This, we think, is a record. We recommend this splendid variety with the greatest confidence. In the trials at the Central Experimental Farm, Ottawa, for several years the Gate Post frequently headed the list. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 80c.

Mammoth Long Red—A well known and popular strain. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 60c.

Long Yellow—A good variety, producing large roots. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 60c.

Bruce's Gate Post Mammoth Long Red Mangel.

Bruce's Giant Yellow Intermediate Mangel. See page 27.

MANGEL WURZEL—Continued.**GLOBE AND INTERMEDIATE SHAPED VARIETIES SEC. 2.**

Will succeed equally well with the above on light soil, but from the peculiar shape of the bulb may be grown on strong and even hard land with advantage where the former would fail to yield a satisfactory crop.

Bruce's Giant Yellow Intermediate—This grand Mangel, which we introduced in 1891, is without a doubt the favorite with all cattle men at the present day, and there has been such an increase in the demand each successive year that we have had great difficulty in obtaining sufficient stock to supply all our orders. The large size of the roots, their uniformity, handsome shape, bright, smooth yellow skin, flesh of the most solid texture, nutritious, and splendid keeping qualities makes it the most valuable introduction of recent years. While in point of size they will not equal the best of the

long varieties, yet in the yield per acre they have frequently produced as much, and in richness they far exceed the best long varieties, added to which they are much more easily harvested, about half of their length being above the ground. We have kept our stock fully up to the original high standard, and it will pay every grower to procure our grand strain of this unequalled variety. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 80c.

Golden Tankard—Flesh golden yellow. This Mangel contains more saccharine and a higher proportion of flesh forming constituents than any other mangel excepting Bruce's Giant Yellow Intermediate. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

Mammoth Red Intermediate—Yields enormously. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 60c.

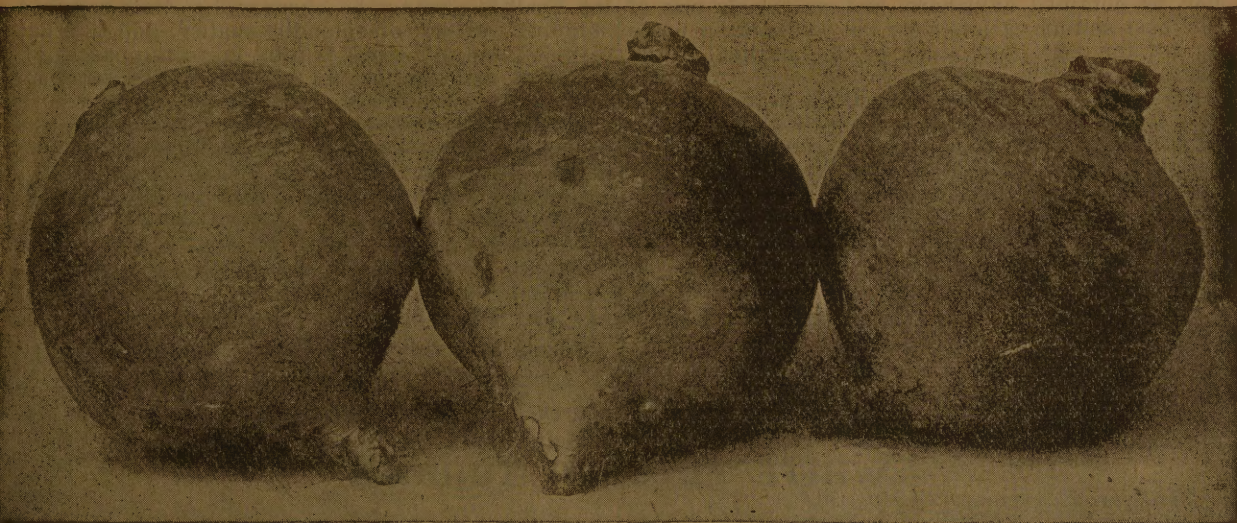

Red Globe—Large and fine. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 60c.

Yellow Globe—Productive. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 60c.

TURNIP SEEDS

The Turnip is now one of the most important crops grown on the farm, and its success no doubt depends greatly on the preparation of the soil and the judicious application of manure, but not less so on the quality of the seed and the care exercised in the selection of the bulbs from which the seed is saved. Impressed with this fact, we have for many years paid special attention to the growth of our

Turnip Seed, and the increased demand we experience each successive season, as well as the gratifying accounts we receive from all parts of the Dominion as to the excellence of our Turnip Seed, affords us satisfactory evidence as to the superiority of our stocks and the success that has attended our efforts. Sow in June in drills; two pounds to the acre.

**Bruce's New Century Swede Turnip.**

Bruce's New Century Purple Top—After carefully testing this variety we have no hesitation in offering it as the very best shipping variety on the market, while for cooking purposes it excels all the ordinary Swedes. It is a purple topped Swede, resembling the Westbury, of splendid uniform growth and of fine quality, and the roots are clean and well shaped. It is the best Swede we know of to resist mildew, and is a heavy cropper. The past season has more than confirmed our high opinion of this Swede. Those who have grown it will have no other. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. 90c.

Magnum Bonum Purple Top—A fine new Swede, of large size, fine color, and extra good quality; a heavy cropper. Recommended by the Ontario Agricultural College. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. 90c.

Carter's Imperial Purple Top—One of the hardest and best keeping varieties. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

Hartley's Bronze Top—Small neck and single tap roots, very rich in quality and a first rate keeper. A great favorite in some sections and demand constantly increasing. Our stock is very fine. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

East Lothian Purple Top—An excellent Scotch variety. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

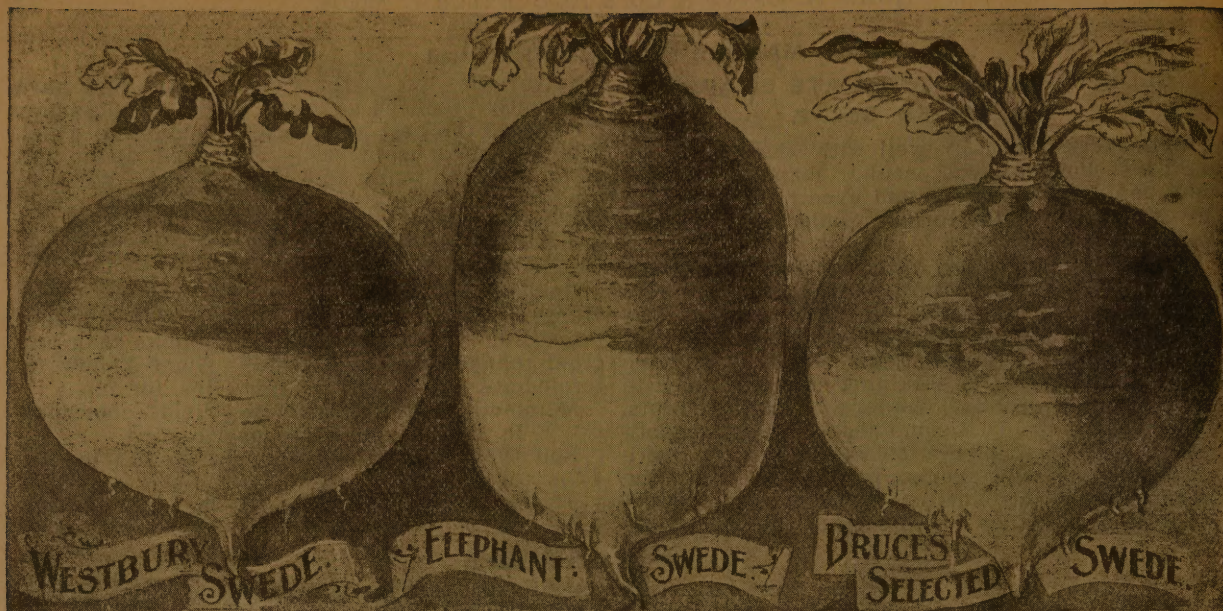

Skirving's Improved Purple Top—This is a most robust grower and heavy cropper, but runs to neck on rich ground. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

Sutton's Champion Purple Top—Recommended for size and fine quality. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

Bangholm Purple Top—A very large and handsome variety. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

New "Kangaroo"—A very hardy Swede, similar in size and growth to the Elephant; color a bronze green, possessing the heavy cropping features of the famous Elephant or Monarch, with the grand constitution of the best types of Bronze Green Top Swedes, and is increasing in popularity each year, particularly in those districts where the land lies exposed, and is consequently cold and backward. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

Royal Norfolk Purple Top—A heavy cropper and a good keeper. We consider this variety one of the best on our list for strong, heavy land. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

SWEDE TURNIPS—Continued.

Improved Hall's Westbury—A well known standard purple top variety of handsome appearance, fine quality, large and solid, a grand keeper, and one of the best shipping turnips grown. We are satisfied that no better stock of this grand variety can be obtained anywhere, and as this is one of our best selling varieties we have spared no pains to get the very best stock in the market. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. for 70c.

Elephant or Monarch—We offer a grand stock of this handsome tankard-shaped variety, which matures early. The upper part of the root is dark purplish crimson, the flesh deep yellow, solid and nutritious, producing more weight to the acre than any other variety. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. 70c.

Drummond's Purple Top—A selected Scotch variety of great excellence; globular in shape, large, solid, and finest quality. $\frac{1}{4}$ lb. 10c, lb. 20c, 4 lbs. 70c.

Bruce's Selected Purple Top—This fine variety has been carefully selected and improved so as to obtain a globular shaped root, free from least tendency to coarseness; it is practically adapted to the richer description of soils, and for long keeping qualities cannot be surpassed. It is a grand shipping variety, of splendid quality, and a great favorite, and our stock is fully up to the past high standard and cannot fail to give entire satisfaction. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

White Swede—Remarkable for its nutritious properties, hardiness and long keeping. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

Laing's Improved Purple Top—The finest Swede for table use. $\frac{1}{4}$ lb. 10c, lb. 30c, 4 lbs. for \$1.00.

Fettercairn Green Top—Will keep sound longer than any other variety; fine quality. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

YELLOW FLESHED TURNIPS

May be sown from the first week in July to middle of August, either after it is considered too late for Swedes, or on land of not sufficiently good quality to produce Swedes, or when there is an absence of a supply of manure.

Purple Top Yellow Aberdeen—Similar in quality to Green Top. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

Green Top Yellow Aberdeen—A hardy and excellent variety. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs for 90c.

WHITE FLESHED TURNIPS

The varieties embraced in this class may be sown still later than the preceding, say from the middle of July to the end of August.

White Globe—Grows very large; is early and of fine quality. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

Grey Stone—Grows to immense size, is early, hardy, excellent quality. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. 90c.

Red Globe Norfolk—Skin red where exposed to sun, white under ground, flesh white, medium size, should be fed early. $\frac{1}{4}$ lb. 10c, lb. 25c, 4 lbs. for 90c.

Red Top Strap Leaf—A rapid grower; valuable variety for late sowing. $\frac{1}{4}$ lb. 15c, lb. 35c.

Cow Horn—Roots long, flesh white, fine grained; matures quickly, half its length above ground. $\frac{1}{4}$ lb. 15c, lb. 35c.

White Stone or Stubble—A well known and excellent variety. $\frac{1}{4}$ lb. 15c, lb. 45c.

Grey Stone Turnip.

Add Postage when Field Seeds are Required by Mail. 5c per lb. to all Canadian points.

SOWING RAPE

Largely grown for soiling purposes; it is also excellent for sheep, and is strongly recommended as a most profitable crop for stock raisers to grow. Sow at the rate of six pounds of seed per acre, and successional sowings, beginning in May, will insure crops from August onward.

Broad Leaved Essex—Lb. 10c, 10 lbs. 90c, 25 lbs. \$2.00, 50 lbs. \$3.50.

THOUSAND HEADED KALE

For the purpose of the sheep farmer there is no forage crop equal to this, both as regards its productive qualities, nutritive value and hardiness, withstanding severe frosts. In Britain it is largely supplanting Sowing Rape, which it largely outyields. Sow early in April up to midsummer, 3 lbs. to the acre broadcast or 1 lb. to acre in rows 18 inches apart. It grows very rapidly, 3 to 4 feet high, branches out right from the bottom, and is covered with small whorls of leaves, and after being fed it grows with increased rapidity. The roots penetrate to a great depth, so that drouth does not affect it. It is greatly relished by hogs, cattle and sheep, and is well worthy of a trial. $\frac{1}{4}$ lb. 15c, lb. 35c, 5 lbs. \$1.50, 10 lbs. for \$2.50, 25 lbs. for \$5.00.

BARLEY.

Success—A distinct variety, quite beardless, and fully a week or 10 days earlier than any other barley. Height same as common, but straw better, and stands up on any land; a good yielder; six-rowed. Peck 20c, bushel 75c.

Improved Six-rowed—Peck 20c, bushel 70c.

Mandscheuri—The best standard variety. Peck 20c, bushel 75c

White Hulless—Beardless; grows quickly; 60 lbs. to bushel; good yielder. Peck, 30c, bushel \$1.10.

Black Hulless—Highly recommended for hog feed; 60 lbs. to bush. Peck 30c, bushel \$1.10.

Above varieties 15c per lb. Postpaid to Canadian Points.

BEANS—Field.

Where the soil is suitable, beans will be found a most profitable crop to grow, and at the same time there is nothing better for keeping the ground clean. We offer the following varieties:

Medium White or Navy—The standard variety. Pk. 60c, bush \$2.10

White Pea—A splendid cooking variety. Peck 60c, bushel \$2.20.

White Marrowfat—Very large; fine quality. Peck 70c, bush. \$2.40.

Above Varieties 10c per lb. Postpaid to Canadian Points.

BUCKWHEAT.

Silver Hull—The leading variety. Peck 25c, bushel 85c.

Japanese—Very large and productive. Peck 25c, bushel 85c.

Common—Peck 25c, bushel 80c.

Above Varieties 15c per lb. Postpaid to Canadian Points.

BROOM CORN.

Succeeds in good deep soil; it is very sensitive to cold.

Long Bush Evergreen—Lb. 10c, 10 lbs. 90c. If by mail add postage.

CORN—Field Varieties.

Compton's Early Twelve-Rowed Yellow—Owing to its earliness and productiveness, this variety has given great satisfaction; it is also highly recommended as a fodder corn. Shelled, peck 35c, bushel \$1.25.

Angel of Midnight—This is an extra early eight-rowed Yellow Flint variety; the grains are very large and compactly set on a very small cob. Shelled, peck 35c, bushel \$1.25.

Early Eight-Rowed Yellow Flint—A well-known variety. Shelled peck 35c, bushel \$1.25.

North Dakota Early White Flint—A very profitable variety. Shelled peck 35c, bushel \$1.25.

Longfellow—A most desirable eight-rowed Yellow Flt variety. Shelled peck 35c, bushel \$1.25.

King Philip—A favorite in some localities. Shelled peck 35c, bushel \$1.25.

Above Varieties 10c per lb. Postpaid to Canadian Points.

Kaffir Corn—A non-saccharine sorghum fodder plant. It grows from 5 to 6 ft. high, stocky and erect, wide foliage, and has the quality common to all sorghums, of resisting drought. Sow in drills, 5 lbs. seed to acre, and cultivate the same as common corn; or broadcast half bush. to the acre. Lb. 10c, 10 lbs. 70c. If required by mail add postage.

CORN—For Fodder and Ensilage Purposes.

Our list of corn embraces all the varieties that careful experiments have demonstrated to be the most valuable for cutting for green fodder and for use in the silo for winter feeding. Dairying has become such an important industry in Canada that any new introduction that tends to increase the products of the cow is sure to attract attention, and for this reason dairymen are close observers of the varieties that produce the best results. For cutting green we believe the Evergreen Sweet Corn will be found the most valuable on account of its richness, while the Dent varieties are better adapted for the Silo, as they are less liable to become sour. The corn we offer has been specially grown for seed and the germination fully tested.

Red or Yellow Western Horse Tooth—Well-known variety, inferior to white varieties. Per bush. shelled 85c.

Mammoth White Cob Ensilage—Similar to the Red Cob in every respect. Per bush. shelled 90c.

Mammoth Red Cob Ensilage—A well-known variety of great productiveness and most nutritious quality, but not as early as the following varieties. Per bush shelled 95c.

New Mortgage Lifter, Yellow—A very strong growing Dent variety producing a great quantity of fodder; grains long, cobs small, ears fine shape and large with from 10 to 18 rows on cob. Bushel \$1.10.

White Cap Yellow Dent—Expert Corn growers pronounce it a perfect field corn as to yield, size of ear, color, size of cob and growth of fodder. It matures in 90 to 95 days. No corn yields as well on poor, thin land nor stands the drought as well. Per bush. shelled \$1.10.

Above Varieties 10c per lb. Postpaid to Canadian Points.

All prices on this page subject to market fluctuations. Bags extra.

New Barley Success.

Angel of Midnight Corn.

CORN—For Fodder and Ensilage

Selected Improved Leaming Yellow—A splendid variety for withstanding drought by reason of its earliness in maturing, strong and vigorous growth, and its stocky, leafy nature, which enables it to stand until ripe. Per bushel, shelled, \$1.10.

Early Mastodon, Yellow—This Early Dent variety has the largest number of rows on cobs and the longest grains of any corn so far originated. A strong and vigorous grower; very productive. Per bushel, shelled, \$1.10.

Evergreen Sweet Fodder—This is the sweetest and most nutritious of all the fodder varieties, and will be found most valuable for cutting and using as green fodder. Bushel of 40 lbs, shelled, \$1.60.

Above varieties 10c per lb. Postpaid to Canadian Points. Prices subject to Market Fluctuations.

Purposes—Continued.

Cuban Giant, Yellow—A splendid fodder or ensilage corn for Canada. It outyields the Red Cob and is ten days earlier; the fodder grows on the stalks in great quantities, and is of the finest flavor, almost as sweet as sugar corn. The grains are yellow, large, broad, long and of great vitality. Per bushel, shelled, \$1.10.

Cloud's Early Dent, Yellow—Early, very prolific, strong and vigorous, growing from 8 to 10 feet high, producing large, handsome ears, with unusually deep grains. Per bushel, shelled, \$1.10.

Early Butler Dent Yellow—The fodder of this new sort grows up strong and rank. It roots deeply and withstands drought. Ears of good size. Matures in 90 to 100 days. Per bush., shelled, \$1.10.

CLOVER AND GRASS SEEDS

The large increase in our home and foreign trade made it imperative for us to introduce into our premises the most modern machinery, which is run by electric power, and we have now the perfection of appliances for turning out superior samples of Seed Grain, Clover and Grass Seeds. Increased sales, and the complimentary references to the quality of our shipments has been ample compensation for our expenditure in this department; and our long connection with the best growers in the seed producing districts gives us exceptional advantages in securing the best samples offered.

GOVERNMENT STANDARD GRADES.

By the provisions of the Seed Control Act, which came into force on the 1st September, 1905, the seeds of certain weeds are prohibited in Cereals, Grasses, Clovers and Forage Plants where the seed is sold as number one or first quality; and the lowest grade permissible under the Act for seeds of Timothy, Alsike or Red Clover, for the purpose of seeding in Canada, is five weed seeds to one thousand of the seed sold. Under the clauses of the Act all persons (excepting farmers on their own holdings) are prohibited from selling seeds below the minimum standard fixed by the Government and are liable for fines and imprisonment for non-observance of its provisions.

As usual we have exercised the greatest care to secure the finest quality of seed obtainable, and with the most modern cleaning machinery we are enabled to offer samples which we feel assured will satisfy the most critical buyer. The conditions imposed by the Act have placed a premium on the best grade of seed, but in our transactions extending over 50 years with the agricultural community, the question of quality with the great majority is a more important consideration than price, and it is the trade of the majority we cater for.

Clover Seed Being subject to constant variations, prices will be ruled by market. Write for special prices by peck and bushel.

Common Red—A well-known variety. Lb 20c, 10 lbs \$1.90.

Mammoth Red or Pea Vine—Valuable for plowing under for manure. Per lb. 20c, 10 lbs. \$1.90.

Yellow or Trefoil—Valuable for pasture. Per lb. 20c.

White Dutch—Esteemed for permanent purposes. Lb. 20c.

White Dutch—Extra selected for lawns. Lb. 25c, ¼ lb. 10c.

Lucerne, French, Alfalfa or Chilian—An invaluable and certain crop as green food for horses and cattle, and one of the best forage plants for withstanding drought. Should be sown from middle of April to middle of May, in drills 12 inches

apart, and may be cut 3 or 4 times a year. It thrives upon any soil where drainage is good, and as the roots penetrate the soil to a great depth, reaching the moisture, it continues green in driest weather. Sow 15 to 20 lbs. to acre. Lb. 20c, 10 lbs. \$1.90.

Bokhara (Melilotus Alba)—A very vigorous growing variety; blooms early in August; about 2 feet high. Sow in spring. The flowers are white and very sweet scented, very valuable for bees. Per lb. 25c.

Alsike (Trifolium Hybridum)—Excellent for low lands. Per lb. 20c, 10 lbs. \$1.90.

Crimson or Scarlet Clover (Trifolium Incarnatum)—Is an annual. Improves poor land and restores to fertility those that are worn down by excessive cropping. Crimson Clover grows at all times except when the ground is frozen. May be sown in spring, summer and fall. Splendid for reseeding Red Clover that has been winter killed. This Clover is extensively grown in the United States, and we give the latest methods adopted there for its cultivation, etc. Sow 12 to 15 lbs. broadcast per acre, cover light. All soils and situations seem to suit it. Try it on your poorest. If sown early it makes superior fall and spring grazing and afterwards a good crop to Mow. It is about 15 days earlier than Red Clover, and as a fertilizer one acre represents as much value as twenty tons of stable manure. Per lb. 15c, 10

lbs. \$1.40.

Lucerne Clover.

Crimson Clover.

GRASS SEEDS

Greater attention is being given yearly to the improvement of pastures, and it has been found that where a mixture of permanent grasses has been added to Clover and Timothy, which have heretofore been almost the only seeds used, a better heat resisting sod and a richer and more lasting pasture has been secured, and the result is of the utmost importance in our dry, hot climate. Many of the grasses contained in our list will be found invaluable for this purpose.

PRICES SUBJECT TO MARKET FLUCTUATIONS. SPECIAL PRICES BY THE BUSHEL.

Red Top Grass (*Agrostis Vulgaris*) A valuable native permanent grass growing in almost any soil, moist or dry, and standing well our hot climate. Best for low ground. Sow two bushels to the acre; weight per bushel 14 lbs. Lb. 10c. Fancy for lawns, 20c. lb., 10 lbs. \$1.90.

Bromus Inermis (Hungarian Forage Grass)—A hardy deep rooted species, which has proved highly suitable for Manitoba and the Northwest. Sow 20 to 25 lbs. to the acre. Per lb. 18c, 10 lbs. \$1.60..

Sweet Vernal Grass (*Anthoxanthum Odoratum*) (Perennial)—For a pasture mixture it is valuable on account of the fragrant odors it imparts to the hay. Sow 35 lbs. to the acre. Lb. 75c.

Meadow Fescue (*Festuca Pratensis*)—Valuable for permanent grass lands; it does not, however, attain its full productive power till the second or third year, when it exceeds most other sorts in productiveness and nutritive matter; relished by stock both in hay and pasture. Sow 40 lbs. to the acre. Lb. 17c, 10 lbs. \$1.60.

Orchard Grass (*Dactylis Glomerata*)—A valuable grass on account of the quantity of nutritious feed which it yields, and the rapidity with which it grows after being cut or grazed; well adapted for growing in orchards. If allowed to stand for hay it has a rather coarse appearance, but if grazed it has always a fresh green hue. Sow 2 bush. to acre; weight per bush. 14 lbs. Lb. 25c, 10 lbs. \$2.40.

Foxtail, Meadow (*Alopecurus Pratensis*)—One of the best grasses for permanent pastures, possessing the three great requisites of quantity, quality and earliness; it is particularly adapted for moderately stiff clay and heavy soils; 30 lbs. to acre. Per lb. 42c, 10 lbs. \$4.00.

Italian Rye Grass (*Lolium Italicum*)—One of the most valuable grasses in Europe, considered the best grass to cut green for soiling, affording repeated large and nutritive crops. Sow 3 bushels to the acre; weight per bushel 18 lbs. Per lb. 17c, 10 lbs. \$1.60.

English Rye Grass (*Lolium Perenne*)—One of the staple grasses of Great Britain, entering largely into the composition of most of the richest meadows and pastures. Sow three bushels to the acre; weight per bush. 22 lbs. Per lb. 15c, 10 lbs. \$1.40.

Timothy (*Phleum Pratensis*)—So well known needs no description. Sow 12 lbs. per acre. Per lb. 10c, 100 lbs. \$6.00.

Canadian Blue Grass (*Poa Compressa*)—A native grass which should be in all pasture mixtures; will do well on dry soils, or even on clay, hard trodden, or poor soils. On account of creeping root stalk it forms a splendid turf. Lb 10c, 10 lbs 80c.

Kentucky Blue Grass (*Poa Pratensis*)—Thrives on a variety of soils, but does best in dry and somewhat shady locations; it will stand the hottest summers. Sow three bushels to the acre; 14 lbs. per bushel. Per lb. 20c, 10 lbs. \$1.90. •

Oat Grass (*Avena Elatior*)—Is most valuable for pasture on account of its early and luxuriant growth; it produces an abundant supply of foliage, which is relished by cattle early and late in the season. Per lb. 25c.

Sainfoin (*Hedysarum Onobrychis*)—Recommended by Experimental Farm, Ottawa. Useful fodder plant. Lb 15c, 10 lbs \$1.25

Bruce's Mixture of Permanent Grasses and Clover Seeds for Laying Down Land to Pasture.

When ordering permanent Grass Seeds it is necessary that our customers should describe the nature and situation of the soil, subsoil, etc., and state whether they are to be sown with or without crop. Our mixtures are composed of the best Clovers and Grasses, and arranged in proper proportions to suit the various soils for which they are intended, our aim having always been to produce a rich and nutritious herbage in the shortest possible time. 25 lbs. per acre. Price acre \$2.50 to \$3.50, according to quality.

Below we give the Ontario School of Agriculture, Guelph, formula of Grasses and Clovers for Permanent Pastures.

Six lbs. Meadow Fescue, 3 lbs. Timothy, 2 lbs. Canadian Blue Grass, 3 lbs. Orchard Grass, 3 lbs. Red Top Grass, 4 lbs. Lucerne Clover, 1 lb. White Dutch Clover, 1 lb. Alsike Clover, 2 lbs. Red Clover, total 17 lbs. Grasses and 8 lbs. Clovers being the quantities required for an acre. Price, \$3.50 for 25 lbs., per lb. 15c. Reduced prices for large quantities.

Orchard Grass.

Clovers and Grass Seeds going by mail require 5c per lb. additional for postage to all Canadian points, and 16c per lb. to the United States and Newfoundland. When ordering Grains, Clovers and Grass Seeds by the bushel, remit 20c each for 2 bushel cotton seamless bags.

Bruce's Selected Mixture of Grass Seeds For Lawns

The annual increase in our sales of Lawn Grass Seed is the best assurance of its superiority; and the testimony of those who have used it justifies our claim that it is the most perfect mixture in use for Lawns, Croquet, Golf, Cricket and Lawn Tennis Grounds.

Our mixture is composed of grasses especially selected to produce a close evergreen sod, calculated to withstand to the best advantage the summer heat, and sufficiently hardy to live through the extreme frosts of our northern winters. The greatest care is exercised in the selection of our grass seeds to use only such samples as are absolutely free from weeds, as it is generally found in the preparation of a new lawn that weeds indigenous to the soil are too plentiful without sowing them in a lawn mixture.

A top dressing of thoroughly rotted manure in the fall, and a good sprinkling of bone dust in the early spring, with the addition of a light seeding, are great aids in the preservation of the sod. Sixty pounds of seed is sufficient for an acre, and one pound will sow a plot 15 x 20 feet, or 300 square feet. 20c per lb., \$18.00 per 100 lbs. Postpaid to Canadian points, 25c per lb.

Bruce's Special Mixture for Shady Places—25c per lb., \$23 per 100 lbs. Postpaid to Canadian points, 30c per lb.

Pure White Dutch Clover for Lawns— $\frac{1}{4}$ lb. 10c., 25c per lb. Postpaid to Canadian points, 30c lb.

MILLETS

Annual forage plants, valuable for furnishing green fodder and hay in from 60 to 90 days from sowing, producing on good soils extraordinary yields of excellent forage, highly relished by stock. All varieties should be cut in the blossom. Sow from $\frac{1}{2}$ to $\frac{3}{4}$ bush. per acre.

Common Millet (*Panicum Miliaceum*)—Very early; height 2 to 3 feet; foliage very broad and very abundant; heads very open, branching panicles, seeds glossy, oval and somewhat flattened. Peck 30c., bushel \$1.00.

German or Golden Millet (true)—Medium early; height from 3 to 5 feet; heads closely condensed; spikes very numerous; seeds round, in rough bristly sheaths. Peck 45c., bushel \$1.50.

Hungarian (Grass) Millet (*Panicum Germanicum*)—Early; height 2 to 3 feet; abundant foliage and slender heads; withstands drought and yields well on light soils. Peck 30c., bushel \$1.00.

Above Varieties 10c per lb. postpaid to Canadian points. Prices subject to market fluctuations.

New Japanese—Very heavy yielder. Grows about 6 feet high; covered with leaves; very juicy; an excellent green fodder and valuable when cured for silo. Sow 15 lbs. to acre broadcast or 10 lbs. in drills. Also called "Billion Dollar Grass." 1 lb. 10c., 10 lbs. 80c., 25 lbs. \$1.75. If by mail add postage, 5c per lb. to Canadian points.

EARLY SOY OR SOJA BEAN

It ripens in Canada, grows nearly four feet in height, heavily podded, and has yielded over ten tons per acre. It is said to be a very valuable fodder variety, either for curing, feeding green or for the silo in mixture with corn. A rich, nitrogenous

food unsurpassed as a flesh former, and, like the Clovers, a soil improver. Sow in June broadcast 30 lbs. per acre, or plant in drills 3 ft. apart 1 ft. between plants. Lb. 15c., peck \$1.00, bushel \$3.60; postpaid to Canadian points, 20c lb., 5 lbs. for 75c.

COW PEAS

Green crops plowed under are one of the best and cheapest ways of improving the soil. For this purpose the Cow Pea is superior, especially for medium or light soil. They should be sown towards end of May or in June, at the rate of $1\frac{1}{2}$ bushels to the acre, and plowed under as soon as they have attained their full growth. While this crop is very largely grown wherever known with the results attained from it, the wonder is that it is not grown ten times as much as at present. There is no surer or cheaper means of improving

poor soil than by sowing Cow Peas. In its capacity as a nitrogen gatherer its growth largely enables the farmer to dispense with the use of nitrogen or ammoniated fertilizers. The stalk and leaves fed green make excellent fodder. They have been grown with marked success by many of the leading fruit growers in this district during the past two seasons.

Whipporwill—The favorite variety. Lb. 10c, 5 lbs. 35c., peck 65c, bushel \$2.10.

Mixed—Largely used. Lb. 10c., 5 lbs. 30c., peck 55c., bushel \$1.85.

Postpaid to Canadian Points, 15c per lb., 5 lbs. for 60c. Prices subject to market fluctuations.

FIELD PEAS

Golden Vine—The favorite variety, early, good straw and a splendid yielder. 25c peck, 95c bush.

Grass or Bug Proof—Sow early, good yielder but not as much straw as Golden Vine. 25c pk., 95c bush.

Blue Prussian—Very prolific and excellent for boiling. 30c peck, \$1.10 bushel.

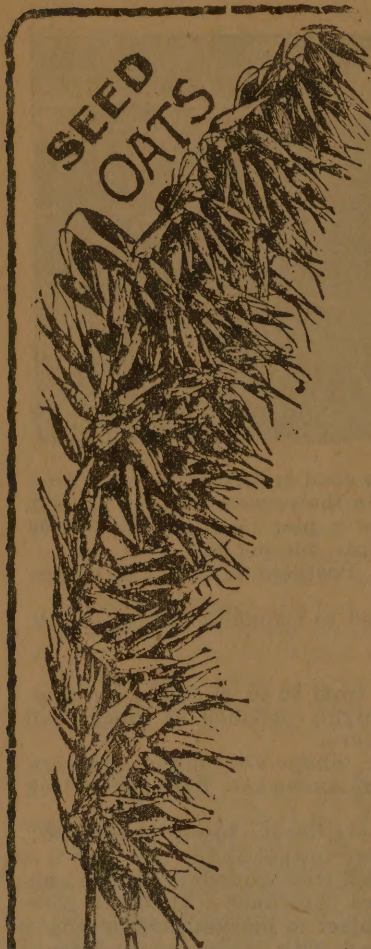

Postpaid to Canadian Points 10c per lb. Prices subject to market fluctuations. Remember when ordering Grass Seed, Clover and Grain to remit for cotton bags.

Potter—An excellent large white pea, heavy yielder. Peck 35c., bushel \$1.15.

White Marrowfat—Prolific, with large pods filled with large peas. 45c peck, \$1.50 bushel.

Black eyed Marrowfat—Equal to the white variety. Peck 45c, bushel \$1.50.

SEED OATS A CHANGE OF SEED ALWAYS PAYS

New Silver Mine—A very early white oat, ripening with barley, with strong stiff straw of medium height. It stands straight even in windy and wet weather. A very heavy yielder with a large number of oats in each head. Those who have grown it will have nothing else. Bush 65c.

Mortgage Lifter—A highly recommended new, handsome, bright, white variety, very heavy, with a very thin hull, and a strong stiff straw free from rust. It is early, and no matter what the weather is it is so strong and thrifty nothing seems to affect it, and the yield is always there. Grown near here this season it produced close to 100 bushels to the acre and the grower says it cannot be beaten for an all-round variety. Bushel 65c.

Early Daubeney—One of the earliest White Oats grown, and is just the sort to sow along with barley for a mixed grain crop, as they ripen about the same time. It has medium length straw, a spreading head, and yields fairly well. Bushel 70c.

Waverley—A new heavy-yielding white variety, medium early, thin in the hull, with clear, bright, amber colored straw, which stands upright in all weather. Kernels sweet, large and meaty. It produces three grains in a spikelet. Bushel 60c.

Twentieth Century—A new heavy-yielding variety, thin in hull and a heavy grain, stiff straw and not inclined to rust or smut. Bushel 60c.

Giant Swedish or Golden Giant Side Oat—Grows from 4 to 5 feet high, with strong, yellow, bright straw; panicles are of great length, the grains closely set and enormously productive. Bushel 60c.

Holstein Prolific—White, with large branching open head; fine, clean, bright straw, panicle close and completely covered with close set grains. Bushel 60c.

Ligowo—Very early; grain white, plump and heavy; straw stiff, clean, and of medium length, a vigorous grower and exceedingly prolific. Bushel 60c.

Sensation—White, very early; straw stiff and bright; head long, open and pyramidal; grain plump and heavy, very productive. Bushel 60c.

White Australian New Zealand, or White Russian—Productive and of good quality. Bushel 60c.

American Banner—The grain is white, of medium size, plump and even, the straw stands up well. We recommend it highly. Bushel 60c.

Siberian White—A very early, most productive variety; claimed to be rust proof; straw is stiff and strong, grain handsome, plump and valuable for feeding on account of its thin hull. Bushel 60c.

Black Tartarian—Imported Scotch pedigree stock. A grand oat and splendid yielder. Bushel \$1.20.

Black Tartarian—The favorite black oat, early and a good yielder. Bushel 65c.

Black Goanette—Very productive; best suited for heavy lands. Bushel 65c.

Any of the above varieties postpaid to Canadian points, 5 lbs. for 50c.

RYE

Spring—An excellent catch crop for fodder or grain. 1 lb. 15c, 5 lbs. 50c, postpaid. By freight, 40c peck, \$1.25 bushel.

Fall—The variety commonly cultivated for grain, straw, green fodder, etc. 1 lb. 15c, 5 lbs. 50c, postpaid. By freight, 25c peck, 85c bushel.

SPELTZ OR EMMER

It is claimed that this new grain is superior to all other grain for fattening sheep, poultry, cattle, horses, pigs, etc. It is excellent for pasture, and can be fed in a green state also; grows well and produces large crops on poor soil, while dry weather appears to have no effect on it. It is a wonderful stooler. Prepare land as for any other grain, and sow about 60 lbs. to acre; cut when the grain is past middle stage of milk; thresh like wheat, only not so closely. Lb. 10c, peck 30c, bushel of 40 lbs. 90c. Postpaid to Canadian points, 1 lb. 15c, 5 lbs. 50c.

TARES OR VETCHES

Black Spring—Species of pea, grown for sowing or sown with oats for feeding green. 1 lb. 15c., 5 lbs. 50c., postpaid. By freight, peck 50c., bushel \$1.75.

Sand or Hairy—It succeeds and produces good crops on poor sandy soils as well as on good land; grows to a height of four to five feet. It is perfectly hardy, remaining green all winter, and should be sown in the spring, mixed with oats, spring rye or barley; or during August and September with winter rye, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting spring crops. It is exceedingly nutritious, eaten with relish, and may be fed with safety to all kinds of stock. Sow 50 to 60 lbs. per acre with one-half bushel of rye, oats or barley. Lb. 15c, peck \$1.50, bushel of 60 lbs. \$5.50. Postpaid to Canadian points, 20c lb., 5 lbs. for 85c.

SPRING WHEAT

Manitoba Red Fife } —Very productive, splendid milling varieties. Pk 35c., bushel \$1.25.
Manitoba White Fife }

40c., bushel \$1.40.

Colorado—A great favorite in some sections. Pk 35c., bushel \$1.25.

Rio Grande—An excellent all-round variety. Pk 35c., bushel \$1.25.

Wild Goose—Very productive, bearded head with white chaff, straw stiff, grain hard and flinty, midge-proof. Peck 35c., bushel \$1.10.

Postage at the rate of 5 cents per lb. to Canadian points, and 16c per lb. to Newfoundland and the United States must be added to the above prices if required by mail. Prices on this page subject to market fluctuations.

NITRO-CULTURE

This new method of fertilizing soils is endorsed by the U. S. Department of Agriculture.

The accompanying photograph of garden peas was taken last June, sown side by side on the same day. One row inoculated with your NITRO-CULTURE, the other row uninoculated. On the inoculated row the pods were nearly twice as large, the most of them producing 11 peas in a pod and of better quality, vines stronger and more than double the quantity of peas. NITRO-CULTURE is all right and something we can't afford to do without in the future. I also used NITRO-CULTURE on Sweet Peas where we grew them in the same place every year. The growth was remarkable, produced more bloom, and the vines kept green longer than they ever did before.

Falmouth, Mass., August 5th, 1905.

(Signed)

JAMES NICOL.

Specimen plants characteristic of uninoculated and inoculated field of Alfalfa, on farm near Bynum, Harford County, Maryland. The uninoculated plants turning yellow, though sown on ground richer and better than the inoculated field. Gain from inoculation nearly 500 per cent by weight.

IMMENSE CROPS WITHOUT FERTILIZERS

A new, sure and easy way has recently been discovered to make worn-out or poor land enormously productive without fertilizers and almost without expense. Plants need nitrogen—can't grow without it. Heretofore fertilizers have been needed to put nitrogen into the soil. Nitrogen is very necessary—is the most expensive part of fertilizers. The new way is easier, surer and cheaper—it is to let nitrogen-gathering germs feed the plants. The soil is full of air. Air is four-fifths free nitrogen. Right here the new discovery comes in. Plants can't extract nitrogen from the air, but there are germs that can.

These germs, when put into the soil, fasten themselves to the roots of the plants, draw the free nitrogen out of the air, and feed it to the plants.

The germs come ready for use in a form called Nitro-Culture. It is put up in small dry packages you can put in your vest pocket. Simply add it to water, and sprinkle the water over the seeds before planting. The germs remain on every seed—

live with it—increase about it—feed the roots when they start and keep on feeding them. They also enrich the soil by storing nitrogen in it, so that the second year's crop, whatever it may be, is increased from 2 to 10 times. When ordering state what particular crop you desire to inoculate. Crops mentioned together require the same bacteria.

Alfalfa or Lucerne. Soy Beans.
Red and Mammoth Clover. Field Peas.
Alsike and White Clover. Sweet Peas.
Cow Peas. Vetch or Tares.
Garden Peas. Common Clover.
Garden Beans, Wax Green Pod Pea and Lima.

PRICE LIST.

Trial package, 60c; 1 acre package, \$1.80; 5 acre package, \$6.00.

Garden package—Sweet Peas, 30c.; Garden Beans, 30c; Garden Peas, 30c.

Guaranteed to keep six months from date of shipment, and can be used within that time.

Circulars with testimonials on application.

Novelties and Specialties in Vegetables

Descriptions given are those of the Raisers.

The Ideal Pickling Cucumber.

THE IDEAL PICKLING CUCUMBER

A beautiful variety of the short green type; unlike any other variety; pickles dark green in color; solid, crisp and brittle, and of fine flavor; uniformly symmetrical in shape; immensely productive; does not become saddle-backed or hollow in center; vines shorter in habit of growth than other varieties; rows can be planted half the usual distance apart, increasing the yield per acre. The Ideal Cucumber is the perfection of every point desired by pickle growers and dealers. Try it and convince yourselves. We earnestly recommend every pickle manufacturer to plant this new variety this coming season of 1906. It is the handsomest and best pickling cucumber ever introduced—the most productive and the most attractive in shape and color and the finest quality in every stage of growth. Pkt. 5c., oz. 20c., 2 oz. 35c., ¼ lb. 60c., lb. \$2.00.

Noroton Beauty Potato.

NEW SWEET CORN, PEEP O' DAY

Ten days to two weeks earlier than any other sort, and the sweetest of all Sweet Corn.

The two points of this remarkable Corn to which we wish to call most particular attention are its extraordinary earliness and unparalleled sweetness, surpassing in these particulars any other known variety early or late.

So marked is its sweetness and delicacy of flavor that many of our customers who have been in the habit of planting several varieties to secure a succession, now plant Peep o' Day exclusively, arranging the plantings a few days apart so as to have this delicious corn throughout the entire season.

The early varieties of sweet corn do not as a rule yield as heavily as the late sorts, but Peep o' Day not only surpasses in this particular all other early varieties, but all late varieties as well; in fact our crops of Peep o' Day have given us for three successive years almost double the yield per acre of any other variety we have grown, early or late.

Incredible as it may seem, it is readily accounted for by the fact that the stalks bear from two to five ears each, and the growth being dwarf—about 4 feet—admits of very close planting.

Pkt. (300 seeds) 10c, pint 20c., quart 35c., peck \$2.25; by mail, 25c pint, 45c quart, postpaid to any Canadian address.

NEW EGG PLANT, "BLACK BEAUTY"

From 10 to 12 days earlier than New York Improved Purple. The fruits are broad and thick and of most attractive form. The skin is a rich lustrous purplish black. The calyx, which attaches the fruit to the stem, is bright green, contrasting finely with the dark satin skin of the fruit, and is entirely free from spines or thorns. The fruits set freely and are ready to market early, so that the entire crop can be gathered before there is any danger of frost. Pkt. 10c, ¼ oz. 25c, ½ oz. 40c, oz. 75c.

NEW POTATO, NOROTON BEAUTY

Noroton Beauty is a lineal descendant of the famous Peach-Blow, being a seedling from a seedling of that variety. We may summarize its merits as follows:

It is the earliest potato ever grown.

It is by far the most productive extra-early, yielding as heavily as any of the medium early sorts.

It is handsomer in appearance and more uniform in size and shape than any other variety.

Its table quality is superb and it keeps longer than any other sort, early or late.

It is the best all-round Potato in existence.

Price, 1 lb. 20c, 5 lbs. 75c, ½ peck 90c, peck \$1.50. If by mail add postage at rate of 5c lb. to Canadian points and 16c lb. to Newfoundland and the United States.

June Pink Tomato.

The June Pink Tomato

The June Pink Tomato in habit of growth is similar to the Earliana. The plant is neat and compact, branching freely, with fruit hanging in clusters of six to ten fruits, both in the crown and at the forks of the branches. Under exactly the same conditions as given Earliana and Chalk's Jewel, the June Pink yielded as much fruit as either, and the vines after the crop had been harvested were greener and brighter, and showed no tendency to blight. It ripens fully as early as Earliana and quite ten days to two weeks ahead of Chalk's Early Jewel. The fruit is of medium size, uniform, smooth, and attractively shaped, without cracks or any green core. The fruit will average $2\frac{3}{4}$ to 3 inches in diameter, and from 2 to $2\frac{1}{2}$ inches in depth. The skin is reasonably tough so that it is excellent for shipping purposes. In color it is a bright, pleasing pink, and in markets where a pink tomato is desired will bring 25 per cent. more in price than any red variety. It has the further quality, making it especially desirable for private use, of continuing to bear and ripen fruit up until frost. Pkt. 20c.

Lambert's Pure Culture Mushroom Spawn

Until very recently Mushroom culture stood in the position which fruit growing occupied before grafting was discovered. The best spawn, English or French, was wild spawn, no one could tell what variety of mushrooms it would produce—all depended upon the accidents of nature for the supply. It did not occur, until recently, to scientists, who had vainly labored in the solution of this problem, to apply the grafting process to the development of selected varieties and thereby reproduce the large, vigorous and prolific specimen used in the grafting to the exclusion of other and inferior fungi. The pure culture method of raising spawn was discovered in 1903, and exhaustive tests have since demonstrated the practicability of producing it in commercial quantities. Lambert's Pure Culture Spawn received the highest award at the St. Louis Exposition in competition with all other spawn. Pure Culture Spawn is more expensive than the old-fashioned English or French spawn for the same reason that grafted trees cost more than wild seedlings. In $1\frac{1}{2}$ lb. bricks 25c each, per dozen \$2.50 here. Postage 8c per brick extra.

New Early Pea, "The Pilot."

In this new introduction we have a First Early Cropper, producing deep green pods of the well known Gradus type. It is a hardy, vigorous, branching plant, growing 3 feet in height, and bears throughout the length of the haulm a large proportion of pods in pairs, which contain five deep green peas of exquisite flavor. The Pilot is in every respect the first and best of all Early Round-seeded Varieties. An award of merit has been granted by the Royal Horticultural Society to this valuable variety. Pkt. 15c, $\frac{1}{2}$ pint 40c, pint 75c. If by mail add postage 5c pint to any Canadian address.

Unrivalled Peas.

New Early Pea, Bruce's Unrivalled

In shape of pod and habit of growth it may best be described as a more robust form of American Wonder, growing five to six inches higher, and about ten days later. The pods, which are of the same brilliant deep green color as the plant, are produced in great profusion, each completely packed with ten large and very sweet flavored peas. Bruce's Unrivalled will be found profitable to the producer and pleasing both to the eye and the palate of the consumer. We highly recommend this fine variety. Pkt. 15c, $\frac{1}{2}$ pint 25c, pint 40c, quart 70c. Postpaid 40c pint, 80c quart to any Canadian address.

New Field Corn, Australian Extra Early

Hardest known variety; will thrive at an altitude of 6,000 feet, where the climate is always too cold for ordinary corn; a great drouth resister; will produce crops when other sorts fail; used largely in the south for Green Corn or Roasting Ears. Prices here—1 lb. 15c, 5 lbs. 50c. Postpaid, lb. 20c, 5 lbs. 75c. By freight, peck 50c, bushel \$1.75 shelled.

New Globe Tomato.

Livingston's New Globe Tomato

The fact that this is another new tomato originating with the Livingston's, of world-wide tomato fame, will be sufficient to warrant most growers of fine tomatoes to give it a liberal trial. It is of beautiful globe shape, with quite a percentage of elongated (stem to blossom) fruits, which permits of a greater number of slices being taken than with flat-fruited sorts. Among the very first to ripen, although of large size, very smooth, firm fleshed, few seeds, ripens evenly; color a beautiful glossy rose, tinged purple. Flavor very delicate and agreeable; splendid slicing variety. The fruit is borne on short jointed, branching plants, in great abundance—literally loaded with fruit. A good general cropper, and one of the very best for greenhouse growing or first early crop on stakes or trellis. An entirely distinct and fixed new sort. Every grower of Livingston's New Globe, whether he grows for private or market purposes, will be pleased with the beautiful and attractive globe shaped fruit. Pkt. 5c, oz. 30c, 2 oz. 50c, $\frac{1}{4}$ lb. 90c, lb. \$3.00.

Earliana Tomato

SELECTED STOCK

The earliest large tomato in the world. It is not only remarkable for its earliness, but for its large size, handsome shape, productiveness and beautiful red color. Its solidity and fine quality are unsurpassed by any of the best medium and late sorts. The fruit contains but few seeds, about one-fourth of that of other varieties, and for this reason the genuine seed can never be sold at a low price. Pkt. 5c, oz. 35c, 2 oz. 60c, $\frac{1}{4}$ lb. \$1.10, lb. \$4.00.

Giant Green Crook Neck Squash

A Neapolitan variety of unique size, 4 to 6 feet in length, and weighing up to 100 lbs. Seed cavity small and confined to the larger end of the fruit. Finely grained orange colored flesh of the most delicious flavor; a splendid keeper. Pkt. 10c, oz. 40c.

New Crimson Giant Forcing Radish

This new radish is an entirely new type and differs considerably from all the varieties hitherto in cultivation, in so far as its roots attain more than double the size of other forcing varieties without getting pithy or hollow. In form this new radish varies a little, some of the roots being long and others inclined to oval, but its beautiful deep crimson color is quite constant. The flesh is pure white, firm and crisp and of the most delicate flavor. This novelty combines the advantages of a good hothouse radish with that of a summer radish, and it will surely become widely popular both for the market and the private garden. Pkt. 5c, oz. 15c, 2 oz. 25c, $\frac{1}{4}$ lb. 40c, lb. \$1.50.

New Danish Drumhead Cabbage

One of the finest cabbages on the market and a money maker. It is equal to the Danish Ballhead both in quality and long keeping qualities. It differs from Danish Ballhead in being very short stemmed and fully two weeks earlier. We recommend it highly. Pkt. 5c, oz. 30c, 2 oz. 50c, $\frac{1}{4}$ lb. 90c, lb. \$3.00.

Earliana Tomato.

Floral Novelties for 1906

THE DESCRIPTIONS GIVEN ARE THOSE OF THE GROWERS

Schizanthus Wisetonensis.

Schizanthus Wisetonensis

This handsome and striking annual deserves to be widely known and cultivated. The plants form pyramidal bushes of about 18 inches in height, covered with masses of elegant flowers of various shades of white to rose, and white spotted rose to carmine, while the upper lip is adorned in the centre by a spot of yellow or brown. It makes an excellent pot and market plant and cannot be surpassed for table decoration. Pkt. 20c.

Vick's Violet King Aster

A New and Distinct Variety.

The habit of this newcomer is similar to the popular Vick's Branching, vigorous in growth, long stiff stems, generously furnished with luxuriant foliage of the richest green. In form the flower is entirely new and distinct from any other variety; petals somewhat resemble the quilled varieties, but are much larger and broader, those in the centre being fantastically twisted, curled and incurved, completely covering the crown. In shape and size the bloom is round, full and very large, many of the flowers measuring from four to five inches in diameter. Its color is a soft violet-lilac. Florists and growers who have seen this variety pronounce it a valuable addition to the Aster family. Pkt. 25c.

Cineraria Radiata Hybrida

(Selection.)

A selection from *Cineraria Stellata*, it distinguishes itself from that variety by a far more elegant and refined form of the floweret. The cactus or star-shaped flowers, comparatively larger than the orbicular flowered *Stellata*, give this new class an exceedingly pretty and elegant appearance. The flowers are much more lasting than those of the well known *Cineraria hybrida* and are indispensable for decoration work of any kind. The display of new and fashionable shades and colors is remarkable in this new introduction, and combined with its easy culture *Cineraria Radiata Hybrida* will recommend itself to both gardeners and amateurs. Pkt. 25c.

Large Flowering Cecily Phlox.

Large Flowered Cecily-Phlox

Phlox Drummondii Grandiflora
Nana Compacta.

The flowers of this new strain of Dwarf Phlox are of large size and fine form, white and dark centered, striped and self colors. Cecily Phlox grows about 6 inches high, has a close compact and robust growth, and the plants are covered with bloom. Its regular habit and height, its richness of shades and colors places this novelty above all other dwarf varieties hitherto known. Pkt. 10c.

Asters, Daybreak and Purity

These are not new, but their rare beauty has placed them in the front rank as florists' flowers. **Daybreak**—The flowers are round, very large and full, on long stems. The color is a lovely, sea-shell pink. It is an early bloomer and a strong compact grower. Pkt. 10c.

Purity—Identical in form and habit, but the blooms are pure white. Pkt. 10c.

FLORAL NOVELTIES—Continued.

NEW HARDY ANNUAL.

Nicotiana Sanderæ

Carmine Tuberosc-flowered Tobacco.

It is the hardy annual of the century. Among *Nicotiana* we know nothing approaching it in point of floriferousness, nor in its graceful and copiously branching habit. The whole plant is laden with flowers from base to summit—literally ablaze with most handsome carmine-red blossoms, hundreds of which are produced on a single plant.

Its combined hardiness and character of producing flowers continuously in all kinds of soil and situation under all circumstances are undeniable recommendations; and we certainly know of no plant that produces such an abundance of blossoms for the little care that is necessary to bestow on it. This valuable novelty is undoubtedly destined for universal use, and every one can grow it successfully. It is a plant for the million, possessing all the best qualities of *Nicotiana Affinis*, with myriads of lovely *Calanthe*-like blossoms. Although the odour of *N. Sanderæ* is not so powerful as that of its white parent, yet there is a decidedly delicious, sweet scent.

Culture: Same as for Stocks, Petunias, etc. Sow in the house or hot-bed in early spring, and plant out latter part of May. Seed may also be sown in the open ground when weather becomes warm. There is no plant easier to grow. Pkt. 10c.

*Nicotiana Sanderæ.***Nicotiana Sanderæ Hybrids**

IN EIGHT VARIETIES.

Purple, White, Pink and Light Red, Crimson, Violet, Salmon.

The most easily cultivated annual is not more readily grown than these magnificent new *Nicotianas*. They thrive in any soil or situation, and if wanted for the decoration of the cold greenhouse or conservatory there is no difficulty in having a glow of colors in huge masses for cutting all through the spring months. These handsome and showy varieties, with their many bright colors, have wherever exhibited been the admiration of all beholders and have been awarded the highest possible honors.

Imported collection of eight varieties, 40c.

New Nasturtiums

QUEEN OF TOM THUMBS

Silver Variegated foliage

Award of Merit: Royal Horticultural Society.

This charming novelty has won the highest opinions from all who have grown it.

Flowers are a rich bright crimson, which forms a very pretty contrast to the silver variegated foliage, and is a strikingly handsome and useful bedding or pot plant, even before coming into bloom; it is very free flowering, and unlike most variegated plants, comes very true from seed; producing 90 per cent. with true variegated foliage. It is very dwarf and compact, and will be found a great acquisition as a bedding plant. Pkt. 10c.

New Sweet Peas

Helen Pierce, the new white mottled blue.

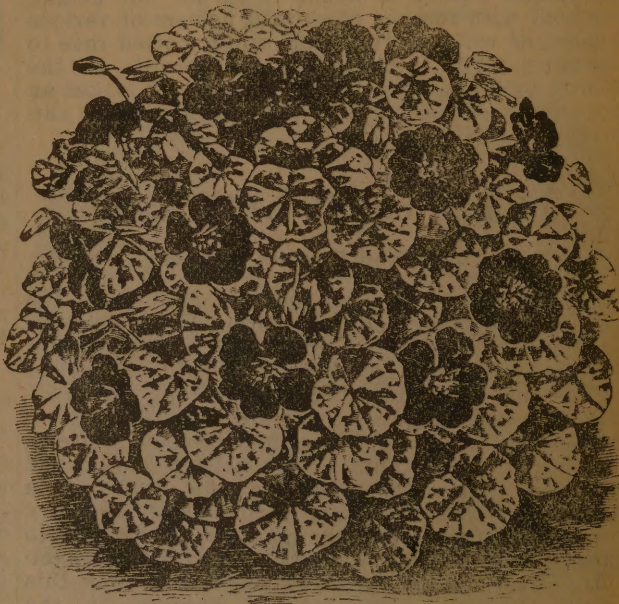

Gladys Unwin, the new giant pink.

Mrs. Geo. Higginson, Jr. Flora Norton.

Scarlet Gem. Countess Spencer.

Marchioness Cholmondeley. Mrs. Knight Smith.

For descriptions, collections and general list see page 67.

**Nasturtium Queen of Tom Thumb.**

FLORAL NOVELTIES—Continued.

Shasta Daisy.

Burbank's New Shasta Daisy

The best of the large flowering perennial Daisies. The plants are entirely hardy, blooming better and more abundantly each season; flowers measure fully four inches across and have three or more rows of long slender snowy-white petals surrounding a small golden center or eye. As the flowers come singly on a stiff slender stem, nearly 2 feet in length, they are especially useful for decorative purposes. Pkt. 15c.

Primula Obconica Grandiflora Fimbriata

A splendid new strain, the flowers, which are of the improved Grandiflora type, being exquisitely fringed, which make the flowers appear more graceful and adds to the general attractiveness of this popular Primula. The flowers, which are borne on large trusses well above the foliage, vary in color from white to bright rose. A free and constant bloomer. Pkt. 25c.

Primula Floribunda

Primula Floribunda—Of the same general character as Obconica, differing only in color of the flower, which is a lovely shade of yellow, slightly fragrant, and produced in continuous succession for months. Pkt. 25c.

Double Primula Obconica

The success of the Primula Obconica has been so great that it surely will extend to this new double form. The flowers are produced in large trusses borne on stout stems and rising well above the foliage; the individual flowers are of good size, well filled, and a very delicate shade of light rosy lilac. By its elegant foliage and the extraordinary abundance of the flowers which are produced in succession for a very long time, this new variety will be found invaluable for decorating apartments and conservatories. Pkt. 25c.

Chrysanthemum Tricolor, New Yellow Marguerite, Evening Star

Flowers pure golden yellow and from 3 to 4 inches in diameter, and of extraordinary durability. Bad weather has little or no effect on stem, the petals remaining firmly extended in the rain and sunshine. It is of easiest culture, the plants bloom in about 10 weeks after sowing and continue until frost. It is a cut flower of the first rank; height 18 inches. Pkt. 10c.

Kochia Scoparia or Summer Cypress

An attractive easily grown globe-like plant, which is equally showy planted singly to show its round ball-like form, or grown in continuous rows. The plants branch freely, and the stems are clothed with slender light green leaves, the ends of which in the fall are thickly set with small bright scarlet flowers, when the plants resemble balls of fire. Pkt. 10c.

See page 55 for illustration.

Winter Stock, "Beauty of Nice."

Under good cultivation the plant attains a height of 2 to 2½ feet, is clothed in bold foliage and throws up a gigantic main flower-spike of about a foot in length. All around the central stem the plant sends out a number of long side shoots, loosely covered with uncommonly large and very fragrant flowers of nearly two inches across, remarkable alike for their beauty of form and their delightful color. This is a delicate shade of fleshy pink, such as is now in the height of the fashion and just what the grower of cut flowers requires. One may rely on getting from 60 to 75 per cent. of double flowering plants and a further striking feature in this stock is the rapidity with which it comes into bloom, so that it may just as readily be employed as an early Ten-week Stock. Pkt. 15c.

Double Primula Obconica.

FLOWER SEEDS

A FEW BRIEF, PRACTICAL DIRECTIONS ON THEIR MANAGEMENT.

To be successful in the raising of plants from seeds requires much greater care than is commonly exercised, and many packets of valuable seeds are annually destroyed for the want of a little skill and forethought. Inattention or want of skill in watering is undoubtedly the main source of failure, a single hour of a dry surface at certain stages of germination being sufficient in many cases to destroy life. Amateurs especially are reminded that there can be no fixed time for watering; the surface of the soil must never be allowed to become quite dry, neither must it at any time become decidedly wet, and to maintain this intermediate state is one of the essential conditions of success.

FLOWERING PLANTS ARE USUALLY DIVIDED INTO THE FOLLOWING SECTIONS:

ANNUALS, BIENNIALS, PERENNIALS.

Annuals—Plants which require to be sown annually, as they live and bloom only one season.

Biennials—Plants which do not flower until the second season after sowing, remain a certain time in perfection and then die. They are produced from seed and some of the finest varieties are propagated from cuttings.

Perennials—Plants which continue to grow and bloom annually.

Annuals are called either *hardy*, *half-hardy* or *tender*. Hardy annuals will grow and blossom in the border without any artificial heat or protection, and may be sown during the months of May and June. The soil should be well prepared and neatly leveled and the seed sown either in small patches, each kind by itself or in drills. In about a month, more or less, many of them will be fit to transplant, which should always be performed in cloudy or rainy weather.

Half-hardy annuals applies to those annuals which, although they will flower freely in the open ground, require artificial heat to assist germination, and protection from atmospheric changes during the earlier stages of their growth, many of them are of great beauty and interest and derive an additional value from flowering after most of the hardy annuals are out of bloom.

Tender annuals require the aid of greenhouse or conservatory to bring them to perfection. The seeds are generally sown in March, placing them in a warm part of the greenhouse or plunging them into a moderate hot-bed carefully protecting them from cold, shading them from the sun and watering them with a fine rose watering pot.

Biennials and Perennials may be sown at the same time as Annuals of the same degree of hardiness and treated similarly, except such of the hardy kinds as do not bloom the first year. These last may be thinned out or removed from the seed beds as soon as they are well rooted and planted either in different parts of the garden, or into a nursery bed, in rows a foot or more apart. Some Biennials and Perennials may be sown in September, or as soon as the seeds are ripe, and if the plants get strong enough before the setting in of winter, most of them will flower the next season.

On the Preparation and Management of a Hot-Bed for Raising Seedlings.

"Sow in heat, sow in hot-beds," are the directions so commonly found in the notices of half-hardy annuals, that we feel that we shall be materially aiding those who are their own gardeners if we give a few simple directions on the subject of hot-beds composed of stable manure, the most frequent and useful form in which it is to be found.

The preparation of the manure is a matter of great importance, and if the bed be expected to retain its usefulness for any length of time it should be well worked previous to being used. If obtained fresh from the stable yard and found to be dry, it should be well watered and thrown lightly together to ferment. This will take place in the course of a few days, and three or four days afterwards it should be completely turned, well shaken and mixed, keeping the more littersy portion to the interior of the heap; a second watering and turning may be necessary, although one will be generally sufficient. When thus cleansed of its rankness the beds may be made.

The situation for this should be dry underneath, sheltered from the north as much as possible and fully exposed to the sun; it should be built from two feet six inches to four feet high, and wider by six inches each way than the frame to be placed upon it. The manure should be well shaken and mixed up while being put together, and firmly pressed with the foot. The frame should be kept closed till the heat rises, and three or four inches of sifted sand or ashes should be placed on the surface of the bed. In a few days it will be ready for use, but air should be given night and day while there is any danger of the rank steam, and if the sand or ashes are drawn away from the side of the bed they should be replaced.

BRUCE'S 25 CENT FLORAL COLLECTIONS FOR 1906

The following collections of Flower Seeds are arranged specially for the benefit of purchasers who find difficulty in making a selection where there are so many varieties in a class to choose from. Each collection contains an assortment of the most brilliant shades, giving the greatest diversity of color obtainable, and all are selected from our choicest strains. We offer them at half our catalogue price to encourage the more general cultivation of flowers and to disseminate a knowledge of the different varieties. We have been so successful in capturing the public taste with our selections that we feel a degree of pride in referring to it, and it is our intention to maintain this standard of perfection.

BRUCE'S COLLECTION OF FLORAL GEMS.

contains the following liberal and choice selection:
Sweet Alyssum, sweet scented.
Snap Dragon, mixed colors.
Calliopsis, mixed colors.
Balsam, double flowered, mixed colors.
Mignonette, sweet scented.
Scarlet Flax, splendid for cutting.
Larkspur, many varieties, mixed colors.
Dianthus (Pinks), single and double, mixed colors.
Petunia, striped and blotched.
Zinnias, large flowering, mixed colors.
Cornflower, fine mixed.
Eschscholtzia, all colors.

Twelve beautiful varieties for 25 cents.

BRUCE'S EMPIRE COLLECTION OF ASTERS.

Queen of the Market, extra early.
Truffaut's Perfection, finest mixed.
Crown, with white centre, very attractive.
Washington, very large blooms.
Giant Comet, flowers large and of fine form.
Late Branching, highly prized for cutting.

Six superb varieties, all colors, for 25 cents.

BRUCE'S ROYAL NOSEGAY OF SWEET PEAS.

Dorothy Eckford.	Miss Willmott.
Queen Victoria.	King Edward.
Earliest of All.	Courtess of Cadogan.
Venus.	Navy Blue.
Prima Donna.	Duke of Westminster.

Ten exquisite varieties for 25 cents.

BRUCE'S PEERLESS COLLECTION OF DWARF NASTURTIUMS.

Chameleon.	Lady Bird.
King of Tom Thumb.	Violet.
King Theodore.	Pearl.
Golden King.	Empress of India.

Eight of the finest varieties for 25 cents.

BRUCE'S PEERLESS COLLECTION OF TALL OR CLIMBING NASTURTIUMS.

Von Moltke.	Chameleon.
Crimson.	Madame Gunter hybrids
Spitfire.	Lobbianum, varieties.
Marguerite.	Sunlight.

Eight of the best tall or climbing sorts for 25 cents

Abronia.

Ageratum.

Little Gem—Dwarf compact habit; 4 inches. Pkt. 5c.
Saxatile Compactum—Flowers golden yellow; very pretty. Hardy perennial; height, 9 inches. Pkt. 5c.

AGROSTEMMA.

Coronaria—Rose Campion—Free blooming and pretty. Hardy perennial. Pkt. 5c.
Coeli Rosea—(Rose of Heaven)—Flowers bright rose, excellent for cutting. Height 18 inches. Hardy annual. Pkt. 5c.

AMARANTHUS.

Ornamental foliage plants of an extremely graceful and interesting character, producing a striking effect whether grown for the conservatory or flower garden. Hardy annual.

Melancholicus Ruber—Crimson foliage, 2 ft. Pkt. 5c.
Tricolor Splendens—Joseph's Coat; very pretty; 2 feet. Pkt. 5c.

AMPELOPSIS VEITCHII.

Japanese Ivy—This beautiful climber, generally known as Boston Ivy, is specially adapted for covering brick or stone buildings. Hardy perennial. Pkt. 5c.
Two-year-old plants, 25 cents each, \$2.50 per doz., postpaid.

ABRONIA.

A pretty creeping plant, with verbenalike heads of sweet-scented flowers. Hardy Annual.

Umbellata—Grandiflora delicate rose. Pkt. 5c.

Arenaria—Lemon color. Pkt. 5c.

ABUTILON.

Large flowers, in red, white, rose and orange; richly veined; suitable for house in winter and garden in summer; half-hardy shrubs; easily raised from seed.

Finest mixed hybrids, pkt. 15c.

Abutilon.

ACONITUM.

Monkshood—A free blooming plant of easy culture; flowers blue and white; 3 feet. Hardy perennial. Pkt. 5c.

AGERATUM.

Very valuable and showy bedding plants. If lifted in fall and placed in the parlor or greenhouse will keep up a succession of flowers during the winter. Annual.

Mexicanum—Blue. Per oz. 30c, pkt. 5c.

Dwarf Blue—Azure blue; very floriferous. Pkt. 5c.

Dwarf White—Extra fine. Pkt. 5c.

Princess Pauline—Sky blue flowers with white centre. Very pretty. Height 7 inches. Pkt. 5c.

ALYSSUM.

Free flowering, useful, pretty little plants for beds, edgings and rock work, blooming all summer; they also succeed well in the greenhouse for winter and early spring flowers, and are much used in bouquets because of their delicate fragrance. Annual.

Sweet Alyssum—Height, ½ foot. Oz. 30c, pkt. 5c.

Sweet Alyssum.

ANTIRRHINUM.

Snap Dragon—An old garden favorite, of easiest culture. They thrive in any soil, the tall sorts yielding an abundance of fine cut flowers, while the dwarf sorts make handsome edgings. Half-hardy perennial.

Queen of the North—The plants form elegant symmetrical little bushes covered with large white flowers of beautiful form, standing well above the foliage; suitable for bedding and pot culture; 1½ feet. Pkt. 5c.

Tom Thumb—Finest mixed; ¾ foot. Pkt. 5c.

Tall Varieties—Finest mixed; 2 feet. Pkt. 5c.

New Giant Flowered—The flowers of this new strain are much larger than those of the old

**Auricula.****Antirrhinum.**

type, and the plants grow taller. For gorgeous colorings few flowers can match them. Raised under glass in spring and planted out, all the varieties will bloom profusely during summer and into autumn. Finest mixed. Pkt. 5c.

AQUILEGIA OR COLUMBINE.

An extremely showy genus of early summer blooming plants, their flowers being beautiful, both in form and color. Hardy perennial. Choice mixture of single and double varieties. Pkt. 5c.

ARCTOTIS GRANDIS.

A remarkably handsome new annual from Southwest Africa, growing luxuriantly and forming profusely branched bushes of about 2 to 2½ feet in height and breadth. The leaves are soft and whitish. Its flower-heads, borne on long stems and rising well above the foliage, are long and showy, from 2½ to 3 inches across; the ray florets being pure white on the upper surface, are embellished by a narrow yellow zone at their base; reverse of petals pale lilac. Being of very easy culture, the plants produce their splendid flowers most abundantly. Pkt. 5c.

ARISTOLOCHIA SIPHO.

(Dutchman's Pipe Vine.)

A vigorous and rapid growing climber, and trained against the house or verandah the effect of its massive foliage is matchless; brownish colored pipe-shaped flowers. Hardy perennial. Pkt. 10c.

AURICULA.

A well-known variety of great beauty, succeeding best in northern aspect. Half-hardy perennial. Choice mixed. Pkt. 10c.
Extra Choice Mixed, from named flowers. Pkt. 25c.

ASPARAGUS SPRENGERI.

A beautiful new variety of this graceful class of plants. Specially useful to grow as a pot plant for decorative purposes or for planting in vases or suspended baskets. It grows freely the whole year round; as it withstands dry atmosphere it makes an excellent house plant. A vigorous grower, producing sprays four to five feet long, of fresh, green, feathery foliage. Useful for bouquets, wreaths or sprays, remaining perfect for weeks after cutting. Flowers white, followed by red berries. Pkt. 10c.

ASPARAGUS PLUMOSUS NANUS.

A beautiful climbing plant, with bright green, gracefully arched foliage, surpassing Maidenhair Ferns in grace, delicacy of texture and richness of color. The fronds are twelve to fifteen inches in length, and taper to a point from a width of twelve inches. One of the most beautiful decorative plants. Pkt. 20 cents.

**Arctotis Grandis.****Asparagus Plumosus.****Aquilegia.**

ASTERS

The Aster is not only one of the most popular, but also one of the most productive of our garden favorites, producing in profusion flowers in which richness and variety of color are combined with the most beautiful and perfect form. In our flower beds and mixed borders it occupies a deservedly prominent position. All the varieties delight in a rich, deep soil, and in hot, dry weather should be mulched with well-rotted manure, and frequently watered. Hardy annual.

Our Special Offer in Asters

BRUCE'S EMPIRE COLLECTION FOR 1906

Six Superb Varieties for 25 Cents.

All separate; mailed to any address for 25 cents; usual catalogue price 60 cents.

Queen of the Market, Washington, Perfection,
Late Branching, Giant Comet, Crown.

LATE BRANCHING ASTER.

A variety of American origin. The flowers are large, exceedingly graceful and handsome, and are borne erect on very long stems. The broad, wavy petals are gracefully curled or twisted. Being a late bloomer the flowers come at a time when other kinds are scarce, and are thus the more prized.

LARGE FLOWERED VICTORIA.

A magnificent race of Aster; flowers are large, globular and double; plants pyramidal, bearing from 10 to 12 blooms at one time; height 18 to 20 inches.

Pure White, Peach Blossom, Pale Pink, Crimson, Light Blue, Purple, each per pkt. 10c.

Choice Mixed, all colors, pkt. 10c.

Imported collection of 12 separate colors, 75c.

Imported collection of 6 separate colors, 50c.

Giant Comet Aster.

ASTERS—Continued.

Truffaut's Paeony-Flowered Aster.

TRUFFAUT'S PAEONY-FLOWERED.

One of the most perfect and popular of all Asters, the flowers being very double, large and handsome; petals incurved; height 18 to 24 inches.

Snow White .. Pkt. 10c Bright Rose ... Pkt. 10c
 Pale Pink " 10c Light Blue " 10c
 Crimson. " 10c Purple. " 10c
 Choice Mixed, all colors " 10c
 Imported collection of 12 separate colors..... 75c
 Imported collection of 6 separate colors..... 40c

"SUNLIGHT"—Sulphur Yellow.

The finest of its color. The flowers, which are borne on long stiff stems, are of fine form, with somewhat shorter petals than those of the Jewel Aster, and measure 3 to 4 inches in diameter; height, 18 to 20 inches. Pkt. 10c.

DWARF VICTORIA.

Admirably adapted for bedding and also florists' use; height 9 to 12 inches.

Pure White. Pkt. 10c.

Choice Mixed, all colors. Pkt. 10c.

New Japanese—The beautiful flowers of this new strain of Asters are of immense size, with long petals curiously waved and curled, so as to give them a striking resemblance to the most disheveled Japanese Chrysanthemums; height 14 to 15 inches. Mixed colors. Pkt. 10c.

Dwarf Chrysanthemum-Flowered—Flowers very large and double, resembling Chrysanthemums. Valuable on account of profuse late blooming; height 9 to 12 inches.

Pure White, extra fine Pkt. 10c
 Choice Mixed, all colors Pkt. 10c

Comet—Charming and distinct; are large and double, resembling in the shape, and artistically curved and twisted petals, the finest Chinese Chrysanthemums; height 12 to 15 inches.

Pure White, extra fine Pkt. 10c
 Pink Pkt. 10c Finest Mixed .. Pkt. 10c

Victoria Needle—Flowers large and double; petals twisted as round as needles, the effect being unique and charming; height 18 inches.

Choice Mixed, all colors Pkt. 10c

Boltze's Dwarf Bouquet—Charming free-blooming class of compact habit; height 8 to 10 inches.

Choice Mixed, all colors Pkt. 10c

Mignon—Medium sized flowers of the Victoria type; profuse bloomer. Very popular for cut flower work; height, 1 foot.

Pure White.... Pkt. 10c Mixed Colors... Pkt. 10c

Crown or Cocardeau—A very showy variety; flowers double, with a white centre surrounded by petals of a distinct bright color; height 18 to 20 inches. Choice Mixed. Pkt. 10c.

Lady in White—The pure white flowers of this free-flowering variety are borne on slender stalks, and have the same graceful semi-globular form as the Mignon. Indispensable for florist work. Pkt. 10c

Giant Emperor—Flowers of an enormous size, very double, and of great beauty; height, 2 feet. Pkt. 10c.

Triumph—A distinct variety, forming compact plants from 8 to 10 inches high. The flowers are large, and of rare beauty, the petals being beautifully incurved. Makes a fine pot plant, and is unequalled as a better. Choice Mixed. Pkt. 10c.

German Quilled Betteridges—Petals quill shaped; flowers large and double; height 2 feet. Choice mixed. Oz. 75c, pkt. 5c.

China—Choice mixed. Oz. 75c, pkt. 5c.

BRUCE'S SUPERB MIXTURE OF ASTERS

The best large-flowering varieties of different types, suitable for cut flowers. This select mixture contains a liberal proportion of white and light shades, insuring a most satisfactory result in color. $\frac{1}{4}$ oz. \$1.00, pkt. 10c.

DOUBLE BALSAM

Well-known and deservedly popular plants, producing flowers in wonderful profusion, resembling the Camellia in form, and often fully as double. Half-hardy annual.

White and Crimson—Separate colors. Each per pkt. 10c.

Double-Flowered—Extra choice mixed. Oz. 75c, pkt. 10c.

Double-Flowered—Fine mixed. Oz. 50c., pkt. 5c.

Solferino—Spotted and striped. Pkt. 5c.

IMPORTED COLLECTIONS.

Camellia Flowered—Six distinct colors..... 40c

Double Balsam.

BALLOON VINE.

Cardiospermum Halicacabum—A genus of rapid growing climbers, remarkable for an inflated balloon-shaped seed capsule, which it bears in clusters; height, 6 to 8 feet. Annual Pkt. 5c

BARTONIA AUREA.

Very showy; golden yellow; height, 1½ feet. Annual. Pkt. 5c.

BROWALLIA.

Speciosa Major—The plants of this new variety grow only about a foot high, forming dense little bushes, which are covered with an abundance of the most intense violet blue flowers, much larger than those of the older sorts. For beds, borders or pots there is hardly another plant with blue flowers that compares with it. Annual. Pkt. 10c.

BRACHYCOME.

Swan River Daisy—Dwarf, free flowering plants; covered all summer with a profusion of Cineraria-like flowers; very attractive in edgings, rustic baskets or for pot culture. Half-hardy annual.

Iberidifolia—Fine mixed; ½ foot. Pkt. 5c.

Single Begonias.

BEGONIA.

Tuberous rooted; new hybrids. These splendid varieties produce handsome plants from 12 to 18 inches high, covered the whole summer with bright and elegant flowers of almost every shade of color; flowers of some varieties attain an extraordinary size, being frequently 6 inches in diameter. Plants do best when grown in a partially shaded situation. Seedlings raised in heat early in spring will flower the same summer.

Single varieties, finest mixed, pkt. 10c.

Double varieties, finest mixed, pkt. 25c.

Begonia Semperflorens—A perpetual flowering section of great value for bedding. Seedlings of spring bloom in summer, while seedlings of summer make valuable decorative plants for the greenhouse during winter.

Vernon—A fine bedding sort, with rich red flowers, and glossy bronze red foliage. Height, 6 inches. Pkt. 20c.

CALCEOLARIA.

Plants of highly decorative character, indispensable for the ornamentation of the greenhouse and garden. *C. Hybrida* is grown for indoor decorations, while *C. Rugosa*, a shrubby variety, is sometimes grown for indoor and sometimes for outdoor decorations. Half-hardy perennial.

Hybrida—Finest mixed, from prize flowers; 2 ft. Pkt. 25c.

James' International Prize—Unequalled for size and brilliancy of color; 2 feet. Pkt. 50c.

Rugosa—Mixed; valuable for bedding; 1 foot. Pkt. 25c.

CALENDULA.

Pot or Garden Marigold—Remarkably profuse blooming plants; their easy culture and continuous bloom make them valuable for beds and borders. Hardy annual.

Meteor—Double yellow flowers, striped with orange. Pkt. 5c.

Fine Mixed—Many colors. Pkt. 5c.

Calendula.

CANARY BIRD FLOWER.

Tropaeolum—Bright fringed, yellow creeper; very ornamental; a general favorite; 10 feet. Half-hardy annual. Pkt. 5c.

CALLIOPSIS OR COREOPSIS.

This genus is one of the most striking of all annuals, the varieties being very effective in mixed borders, while the dwarf, from their compact habit, are well adapted for beds, the colors all being strikingly beautiful. Hardy annual.

Drummondii—Orange yellow. Pkt. 5c.

Nigra Speciosa—Rich crimson; 1 foot. Pkt. 5c.

Tinctoria—Crimson brown, tipped yellow; 2 ft. Pkt. 5c.

Fine Mixed—All colors. Oz. 30c, pkt. 5c.

Double—Flowers are double and semi-double; yellow and maroon; very pretty. Pkt. 5c.

Coreopsis Lanceolata Grandiflora—One of the best hardy garden plants. The flowers are large, of a bright golden yellow, freely produced on long stems from June till frost; excellent for cutting; height, 3 feet. Pkt. 5c.

Coreopsis.

CAMPANULA.

Canterbury Bell—Well known favorite, bearing large bell and saucer-shaped flowers; well adapted for borders and pot culture. Half-hardy biennial. Single, mixed.....Pkt. 5c. Double, mixed....Pkt. 5c

Cup and Saucer (Calycanthema)—Fine mixed.....Pkt. 5c

Superb Mixed—This special mixture includes single, double and Calycanthema varieties, in all colorsPkt. 10c

Pyramidalis—A grand sort, known as the Chimney Bell Flower. Hardy perennial. Finest mixed blue and white; 4 feetPkt. 5c

Grandiflora—Chinese Bell Flower. Hardy perennial, with large, broad, bell-shaped white or blue flowers; very handsome; 2 ft. Mixed blue and whitePkt. 5

CANDYTUFT.

One of the most useful of border annuals; very effective in beds, groups, etc. Also very useful for pot culture for conservatory decorations during the winter. Hardy annual.

WhitePkt. 5 White Fragrant..Pkt. 5

Crimson.Pkt. 5 Purple or Lilac..Pkt. 5

Finest Mixed—All colorsPkt. 5c., oz. 20

Empress Improved or Giant Hyacinth Flowered—A new variety of great beauty and most desirable for cut flower purposes. It is of very branching habit, and when full grown and covered with its large trusses of pure white flowers presents a perfect pyramid of bloom throughout the summer. Pkt. 5.

Queen of Italy—New dwarf, erect growing variety, plant fairly covered with beautiful pink flowersPkt. 5

CANNA.

This genus, from its stately growth, combined with its rich and varied flowers and picturesque foliage, is one of the most strikingly effective of our ornamental plants. Seed should be steeped for a few hours in hot water before sowing. The roots may be taken up and preserved like Dahlias. Half-hardy perennial.

Giant Empress Candytuft.

Crozy's New Dwarf Hybrids—Splendid large flowering, with broad leaves; finest mixed. Pkt. 5c.

Dark Leaved Varieties—Finest mixed. Pkt. 5c.

CARNATION.

Marguerite—An exceedingly valuable strain of Carnations. Plants will begin to bloom in about four months from sowing the seed; the flowers are varied and beautiful in color, are deliciously fragrant and exceedingly useful for cutting; about 75 per cent. of seedlings produce double flowers. Pure white, pkt. 10c.; choice mixed, pkt. 10c.

Giant Marguerite—This improved strain, which, while it retains the noted earliness of the popular Marguerites, produces much larger flowers; this, combined with great diversity and richness of color, make it a most valuable acquisition. Finest mixed, pkt. 10c.

New Perpetual Riviera Market—This is the finest of all strains of Perpetual Carnations, and is nearly as rapid in growth as the Marguerite class; the seed produces about 80 per cent. of splendid double flowers, with a large percentage of yellow. Pkt. 25c.

Grenadin—An extra early and very hardy variety, with brilliant double scarlet flowers.Pkt. 20c

Grenadin—Pure white; extra finePkt. 20c

Hardy—Fine mixed; excellent for cutting.Pkt. 10c

CASTOR OIL BEANS.

Ricinus—The picturesque foliage and stately growth, combined with the size of the giant varieties, impart to select plantations, shrubbery and mixed flower borders, quite an oriental aspect. Half-hardy annual.

Zanzibariensis—A new Castor Oil plant, far exceeding in size the much admired older kinds. The foliage is of the usual palmate character, produced in great luxuriance and of gigantic proportions, measuring 2 to 2½ feet in diameter; coloring varies from light green to dark coppery bronze and brownish purple.Pkt. 5c

Duchess of Edinburgh—Dark purple stem and leaves; 5 feet ..Pkt. 5c

Cambodgensis—Fine dark red foliage, strikingly beautiful; 5 feetPkt. 5c

Fine Mixedoz. 20c., Pkt. 5c

CERASTIUM—(Snow in Summer).

Tomentosum—A pretty dwarf white-leaved edging plant, bearing small white flowers. Perennial.Pkt. 10c

Canterbury Bell.

Castor Oil Bean.

Marguerite Carnation.

CENTAUREA.

Splendid border plants; some, such as the Cornflowers, Sweet Sultans, etc., being prized for their handsome flowers; others for their ornamental and picturesque foliage.

White Leaved Varieties.

The silvery foliated Centaureas are amongst out most beautiful and valuable bedding plants; should be started early, in gentle heat. Half-hardy perennial.

Candidissima—Broad white foliage; 1 foot. Pkt. 10c.

Gymnocarpa—Narrow silvered foliage; 1 foot. Pkt. 5c.

CORNFLOWER—Centaurea Cyanus.

A very hardy annual for borders. Flowers most suitable for bouquets; 2 feet.

Emperor William—Deep blue, splendid. Pkt. 5c.

Single Mixed—All colorsoz. 30c., pkt. 5c

Double Mixed—Handsome double flowers of various colors.Pkt. 5c

CENTAUREA IMPERIALIS OR GIANT FLOWERED SWEET SULTANS.

These new hybrids are admirably adapted for cut flower use, being almost double the size of the well known Marguerite. The flowers are borne on long stout stems and are very lasting, and if cut when scarcely opened and placed in water will keep for ten days; 2 feet.

Giant White—(Centaurea Imperialis alba)Pkt. 10c

Giant Mixed—All colorsPkt. 10c

Yellow Sweet Sultan—Large, bright yellow flowers, very fragrant and useful for bouquets; 1½ feetPkt. 5c

Sweet Sultan—Mixed colors; 1½ feetPkt. 5c

CLARKIA.

Beautiful tribe of favorite plants, with pretty, cheerful-looking flowers, growing freely and blooming profusely under almost any circumstances; but when planted in rich soil and properly attended to they rank among the most effective of bedding plants. Hardy annual.

Single Mixed—Many sorts; 1 footPkt. 5c

Double Mixed—Many sorts; 2 feet.Pkt. 5c

CHINESE PRIMROSE—See Primula, page 62.

Single Annual Chrysanthemum.

Corn Flower.

CLEMATIS.

A beautiful fragrant climber; perfectly hardy; seeds often lie dormant for weeks. Hardy perennial. Choice MixedPkt. 10c

CHELONE—BARBATA.

Hybrida. An excellent hardy perennial, producing long spikes of flowers, ranging in color from light pink to deep red and violet. 2½ feet. Pkt. 5c

CHRYSANTHEMUM.

The annual or summer flowering Chrysanthemums are very effective border plants. They are of easy culture, growing rapidly and flowering freely the whole summer; the flowers of various colors, are bright and attractive, and being borne on long stems are generally prized for cutting.

Single annual varieties, many colors.Pkt. 5c

Double annual varieties, white and yellow. Pkt. 5c

Double Hybrids—The flowers of this charming new strain are large and double, the colors being beautiful and diversified, the petals exquisitely fringed and penciledPkt. 10c

SINGLE PERENNIAL VARIETIES.

Marguerites, or Paris Daisies—Largely grown for cut flowers. They flower all summer in the garden and make elegant pot plants for winter bloom.

Frutescens—WhitePkt. 10c

Maximum—Large ox-eyed daisy; white flowers; hardy.Pkt. 10c

New single yellow, "Evening Star," see page 41.

Shasta Daisy—See description page 41.

DOUBLE PERENNIAL VARIETIES.

These are the double sorts which attract so much attention at the autumn shows.

Indicum Grandiflorum—Finest mixed.Pkt. 25c

Japonicum (Japanese Varieties.)—Finest mixed.Pkt. 25c

CINERARIA.

A well known greenhouse favorite; owing to the richness and diversity of its colors it is one of the most valuable of our early spring flowers; succeeds best in light, rich, free and open soil. Greenhouse perennial.

Bruce's Prize—The flowers possess extraordinary substance, and are of immense size under good cultivation. For exhibition purposes it is unsurpassed Pkt. 25c

James' Giant—Plants of this superb strain are remarkable for their dwarf growth, the immense size of their blooms and well-defined brilliant and delicate colors. . Pkt. 50c

CINERARIA MARITIMA.

(Dusty Miller.) White foliage; very ornamental. Half-hardy perennial.

Maritima Candidissima—An extra fine variety. Pkt. 5c

Bruce's Prize Cineraria.

CINERARIA MARITIMA.

(Dusty Miller.) White foliage; very ornamental. Half-hardy perennial.

Maritima Candidissima—An extra fine variety. Pkt. 5c

Cockscomb.

COCKSCOMB.

Celosia—Highly ornamental, curious looking flowers for the greenhouse and garden. The following sorts have been saved from combs remarkable for their size, symmetry and color. Half-hardy annual.

Glasgow Prize—An extra fine dwarf variety, with immense crimson combs Pkt. 20c

Dwarf Mixed—Splendid Pkt. 10c

Pyramidalis Plumosa—Magnificent annuals, with charming feathery plumes of the richest colors, most effective for either pot or outdoor planting; 2 feet; fine mixed Pkt. 5c

Thompson's Superb—(Triumph of the Exposition)—Pyramidal in growth, attaining a height of a little more than two feet. Each stem is crowned with a magnificent feathery plume of the most intense brilliant red, which is admirably set off by the bronze colored foliage . . . Pkt. 5c

CONVOLVULUS. (See Morning Glory, page 57.)**COSMOS.**

Mammoth Perfection—This new selection will be found a decided improvement on the old variety, the flowers being so much larger, usually 4 to 5 inches across. It is a strong and vigorous grower, and produces its beautiful single Dahlia-like flowers with the greatest freedom. Seed should be sown early, and the plants, which grow 4 to 5 feet high, set out 2 to 3 feet apart. Half-hardy annual.

Mammoth White . . . Pkt. 5c **Mammoth Mixed** . . . Pkt. 5c

New Fringed—Flowers of this charming variety are beautifully fringed with pink, white and red Pkt. 10c

New Early Flowering—This variety comes into bloom in July, and continues to flower until cut down by frost. The flowers are white, pink and crimson, all colors mixed. 4½ feet high. Pkt. 10c

COBAEA.

Scandens—A beautiful climber, with large, bell-shaped flowers and elegant leaves and tendrils. It is of very rapid growth, and consequently eminently adapted during the summer for

warm situations out of doors; in sowing place the seeds edge-ways and cover slightly. Half-hardy annual.

Purple Pkt. 10c **White** Pkt. 10c

Cobaea Scandens.

COLEUS.

Handsome foliage plants, remarkable for their great variety and brilliancy of colors; indispensable for bedding; easily grown from seed. Choice mixed; 2 feet. Pkt. 25c

COLLINSIA.

Attractive in beds or mixed borders. Hardy annual. Mixed colors, 1 to 2 feet Pkt. 5c

CORDYLINE. (Dracaena.)

Beautiful decorative foliage plants.

Australis—Fine for vases Pkt. 10c

Indivisa Lineata—Very graceful Pkt. 10c

CORN FLOWER. (See Centaurea, page 49.)

Cosmos.

COWSLIP.

An early spring blooming border plant. Treatment about the same as for Pansies. Perennial Pkt. 5c

CUCUMBER ORNAMENTAL.

An interesting tribe of plants, remarkable for their luxuriance and rapidity of growth, which, if the soil is rich, is marvelous. Annual.

Snake Cucumber—(*Cucumis Flexuosus*)—10 ft. . . Pkt. 5c
Wild Cucumber—(*Echinocystis Lobata*)—This is the quickest climber known. It will grow 30 feet in one season, has dense graceful foliage, which is thickly dotted with pretty white fragrant flowers. The seed should be soaked in water for at least 24 hours before planting. Once planted this vine seeds itself and comes up every year oz 30c, pkt 5c

CYPERUS ALTERNIFOLIUS.

Umbrella Plant—Handsom half-hardy perennial; the long slender stems being surmounted by plumes of narrow green shining leaves; succeeds best in moist situations; valuable for aquariums; easily raised from seed . . . Pkt. 10c

CYPRESS VINE.

Ipomea Quamoclit—A most beautiful climbing plant, with very delicate fern-like foliage. Half-hardy annual; 10 feet. **Scarlet** Pkt. 5c **Finest Mixed** Pkt. 5c

Delphinium—See Larkspur, page 55. **Dracaena**—See Cordyline, page 50.

CYCLAMEN.

A genus of the most beautiful and elegant winter and spring blooming plants for pot culture; if sown early in spring under glass and well grown will make flowering bulbs in one year. The seed we offer is from the finest strains.

Giganteum—This section is remarkable for the immense size and magnificent colorings of the flowers

Giant White—Pure white. . . Pkt. 25c

Giant Rose—Soft bright rose. Pkt 25c

Giant Crimson—Deep crimson Pkt. 25c

Giant Mixed Pkt. 25c

Persicum—Choice mixed . . Pkt. 10c

New Butterfly—(*Persicum papilio*)

The flowers of this magnificent new strain are of the largest size. The edge of the broad petals are frilled, fringed and curled, and the colors range from purest white through delicate pink to rose and crimson. . . . Pkt. 25c

DICTAMNUS (Gas Plant)

Favorite old-fashioned border plants cultivated for their showy flowers and fragrant foliage. Hardy perennial; 2 feet.

Fraxinella—Rose purple. . Pkt. 5c

**Datura.****DAHLIA.**

The Dahlia is one of the most popular of our autumn flowering plants. Although perennials, these flower the same season from seed if sown in the house in February or March; the single sorts will bloom from seed sown in the open ground as late as June. The roots should be placed in dry sand and kept in cellar where there is no frost during winter.

Double—Large flowered; choice mixed Pkt. 10c

Double Pompon or **Bouquet Varieties**—Finest mixed. Pkt. 10c

Cactus-Flowered Double—Finest mixed hybrids. Pkt. 10c

Single—Finest mixed; very showy Pkt. 5c

Dormant Tubers—Finest named varieties. . . . each 20c, per doz. \$2.00

DATURA.

Trumpet Flower—A tribe of highly ornamental plants with large trumpet shaped flowers; 3 feet. Annual.

Double Varieties—Finest mixed Pkt. 5c

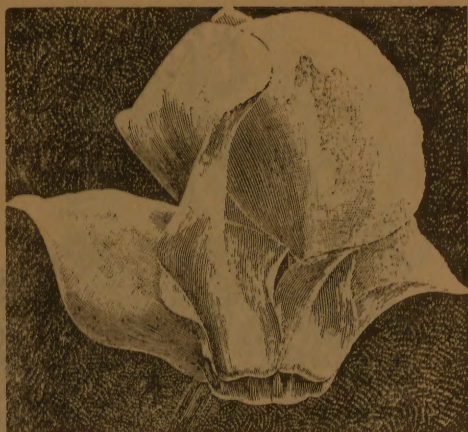

DOUBLE DAISY.

Bellis Perennis A well known and favorite plant for the border or pot culture. Half-hardy perennial.

Snowball—Extra large, very double; pure white flowers Pkt. 10c

Longfellow—Double dark rose Pkt. 10c

Choicest Mixed Pkt. 10c

**Giant Flowered Cyclamen.****Double Daisy.**

Double Pink.

DIANTHUS—PINKS.

These handsome single and double pinks are deservedly popular. The flowers, which are large, embrace all colors from white to deep crimson, while most of them are beautifully variegated. The plants bloom the entire summer and fall, and also the second season if slightly protected during the winter.

Single Mixed—Bruce's Selected—A splendid mixture of rich and brilliant colors; flowers large and handsome, many being beautifully fringed. Excellent for cutting oz. \$1.50, pkt. 5c

DOUBLE ANNUAL VARIETIES.

Imperial—Flowers of blood-red ground color, irregularly striped and splashed with white and pink, a charming variety Pkt. 5c

Mourning—The flowers are large, colors unique, rich purple maroon, etc., edged with white. Pkt. 5c

Diadem—Many colors, beautifully striped and laced Pkt. 5c

Laciniatus—Fringed flowers of rare beauty. Pkt. 5c

Finest Double Mixed—Consisting of the best double varieties, all colors oz. \$2.50, pkt. 10c

Mixed—China or India Pink oz. 50c., pkt. 5c

Foxglove.

**GYPHOPHILA.**

Paniculata—A handsome hardy perennial, with graceful, branched panicles of small, white flowers, which are highly prized for bouquets. Height 2 feet Pkt. 5c

Elegans—Hardy annuals; feathery white flowers, useful for bouquets. Height 18 inches. Pkt. 5c

INCARVILLEA DELEVAYI.

The flowers which resemble a Gloxinia in shape, are produced on stout stalks, about 2 feet high, and are of a rosy-carmine color, spotted with yellow; the throat is brown. It is of easy culture, and it will bloom during the first year if the seed be sown in a cold frame very early in the spring. Should be well protected with leaves during the winter, or the roots lifted and stored in dry sand in a cellar. Pkt. 15c

IMPATIENS SULTANI HYBRIDA.

One of the most useful plants of recent introduction. Remaining in bloom for a long period, they produce lovely flowers, varying in color from delicate pink to the deepest red. Tender perennial. Height 3 feet Pkt. 25c

**HEUCHERA.**

Without doubt one of the finest perennials. The plants, as will be seen from our illustration, are of fine compact habit, with elegant deep green foliage. The flowers are borne on elegant spikes, and can be used with fine effect in cut flower decorations. It is easily raised from seed, perfectly hardy, and should be in every garden; height 18 inches. **Sanguinea**—Rich bright crimson. Pkt. 10c

HELIOTROPE.

A well known genus, of profuse flowering and deliciously fragrant plants. Half-hardy perennial. **Fine Mixed Varieties.** Pkt. 10c

HIBISCUS.

A very ornamental and showy plant, well adapted for mixed or shrubby borders. Tender annual. **Africanus**—Color cream, brown centre; $1\frac{1}{2}$ feet. Pkt. 5c

HONESTY.

Lunaria Biennis—A handsome hardy biennial with purple or white flowers, followed by numerous silvery seed pods, much prized for winter decoration; 2 feet Pkt. 5c

HONEYSUCKLE.

Hedysarum—Very hardy plants producing racemes of attractive pea-formed flowers, in two colors, scarlet and white. Perennial. Pkt. 5c

HUNNEMANIA.

The so-called Bush Eschscholtzia. The plants grow into a shrubby bush, 2 feet high, and produce large cup-shaped flowers 3 inches across on long stems. The color is of clear, bright yellow, the petals are broad and crinkled like crushed satin, and as cut flowers remain in perfection for a long period Pkt. 5c

**HOLLYHOCKS.**

A splendid plant for autumn decorations, and from its stately growth and varied colors of its magnificent spikes of flowers, may justly demand a place in every large garden or pleasure ground. Hardy perennial. Pkt. 5c

Fine Mixed Pkt. 5c

Splendid Double Mixed Pkt. 10c

Chaters collection of 12 varieties \$1.00

Chaters collection of 6 varieties 60c

New Mammoth Fringed Allegheny—The flowers are of mammoth size, 5 to 7 inches in diameter, and gracefully formed of loosely arranged fringed petals, which look as though made from the finest China silk, and when cut are hardly recognizable as a Hollyhock, having none of the formality of the ordinary. The colors range from the most delicate shell pink to dark red. **Mixed colors.** Pkt. 10c

HUMULUS JAPONICUS.

Climbing Hop—A plant of very rapid growth, beautiful when planted isolated and properly supported, also valuable for trellises, etc. Annual Pkt. 5c

Variegatis—The foliage of this variety is distinctly marked with silvery white, yellowish-white, light and dark green Pkt. 5c

ICE PLANT.

A dwarf trailing plant, much used for garnishing. The leaves and stems are covered with crystalline globules, giving it the appearance of being coated with ice. Half-hardy annual. Pkt. 5c

JACOBEEA.

Senecio—Free growing plants, producing their gay colored flowers in great profusion; very effective for beds. Hardy annual. Fine mixed, all colors Pkt. 5c

KENILWORTH IVY.

Linaria Cymbalaria—Splendid plant for hanging baskets, rustic work, etc. Hardy perennial Pkt. 10c

KOCHIA SCOPARIA or Summer Cypress.

The plants grow freely from seed grown in the open ground, when the trees are coming out in leaf, and from the earliest stage of growth in the spring until they reach maturity in the fall the plants are always of globe-like form. The plants branch freely, and the stems are clothed with slender light green leaves. Early in the fall the ends of the shoots are thickly set with small bright scarlet flowers—the bushy plants resembling balls of fire. The plants are equally showy, planted singly to show the round ball-like form on all sides, or grown in continuous rows or hedges. Pkt. 10

LOBELIA.

A very valuable and beautiful class of mostly dwarf growing plants, their delicate drooping habit and the profusion of their charming little blue and white flowers render them exceedingly ornamental for rustic or hanging baskets, while for border cultivation they are equally effective. Half-hardy annual.

Compacta Crystal Palace—Dark blue, excellent for edging. Pkt. 10c

Erinus Alba Compacta—Pure white . . . Pkt. 10c

Speciosa—Blue, fine for bedding; ½ ft. . Pkt. 5c

Gracilis—Pale blue, fine for vases, trailing. Pkt. 5c

Prima Donna—Rich crimson, dwarf compact. Pkt. 10c

Cardinalis Queen Victoria—Very dark leaves and beautiful flowers of brilliant scarlet, quite constant, splendid acquisition. Perennial. . . Pkt. 20c

LANTANA.

A very desirable class of plants for indoor pot culture and summer bedding, constantly in bloom; verbenalike heads of orange, white and rose. Half-hardy perennial. The seed should be sown in hot bed, or in boxes of light soil in warm, sunny window in March or April. Finest mixed. . Pkt. 5c

LINUM.

Flowering Flax—One of the brightest colored of summer annuals; flowers glowing crimson rose; 1 foot Pkt. 5c

**Lantana.****Kochia Scoparia.****LARKSPUR—DELPHINIUM. Annual Varieties.**

Very ornamental plants, possessing almost every requisite for the adornment of the garden. Profuse bloomers, and great variety of brilliant colors.

Dwarf Rocket—Hyacinth flowered, finest mixed; 1 foot oz. 25c., pkt. 5c

Giant—Hyacinth flowered, finest mixed; 2 feet. oz. 25c., pkt. 5c

Tall Branching—Stock flowered, finest mixed; 1 foot oz. 25c., pkt. 5c

Blue Butterfly—New—Of rare merit, beautifully compact, color a fine ultramarine blue, splendid bedding plant. Pkt. 10c

Emperor—Very double, extra fine. oz. 25c., pkt. 5c

Perennial Varieties.**Perennial Larkspur**

Perpetual Larkspur—One of the best hardy herbaceous plants, flowering in great profusion throughout the summer; flowers in large spikes of endless shades of colors, from pearl white to the richest and deepest blue.

Formosum—Deep Gentian blue, with white eye, very attractive; 3 feet. Pkt. 5c.

Formosum Coelestinum—(Pillar of Beauty)—Large light blue flowers, fine contrast to preceding. Pkt. 10c

Nudicaule—Scarlet, habit dwarf; 1 foot. Pkt. 10c

Zalil—Sulphur yellow plant, of branching habit; really handsome; it requires a shady situation; 3 feet Pkt. 10c

Finest single mixed hybrids Pkt. 5c

Finest double mixed hybrids Pkt. 10c

LOPHOSPERMUM SCANDENS.

A very beautiful and ornamental climber, with handsome showy Foxglove-like flowers; very effective for conservatory or garden decorations; rosy-purple flowers; 10 feet. Half-hardy perennial Pkt. 10c

LILY OF THE VALLEY.

Convallaria Majalis—Will thrive in any common soil and in shady situations. Hardy perennial. Pkt. 10c

LAVATERA—(Tree Mallow).

A very beautiful and showy annual, growing about 2 feet high, and covered during the entire summer with large cup-shaped flowers. Sow in May where they are to flower, and thin out to 12 inches apart.

Trimestris—Mixed pink and white. Pkt. 5c

LYCHNIS.

Very free flowering herbaceous plant. Hardy perennial.

●**Chalcedonica**—Bright scarlet; pretty; 2 ft.Pkt. 5c

●**Haageana**—Hybrid mixed; 1 ft.Pkt. 10c

MALOPE.

A handsome plant of branching habit, with large, showy flowers. Hardy annualPkt. 5c

MARIGOLD.

A tribe of well-known free flowering plants, with handsome double flowers of rich and beautiful colors; very effective in beds, borders, etc. Half-hardy annual.

●**Legion of Honor**—Flowers bright yellow, distinctly blotched rich brown. The plants are dwarf and compact, and remain in bloom a long time; height 9 inches..Pkt. 5c

Pot or Garden Marigold—See *Calendula*, page 47.

MARTYNIA.

Very handsome free-flowering plants, with large flowers of great beauty. The young fruit or seed pods are highly esteemed for pickling. Half-hardy annual; 2 ft....Pkt. 5c

MATRICARIA.

●**Double Feverfew**—Pure white double flowers; a desirable bedding plant, and largely used for cemetery decoration. Hardy annualPkt. 5c

MATHIOLA.

●**Bicornis**—(Night Scented Stock)—For the exquisite perfume, profusely exhaled in the evening, this hardy annual should be grown in every garden. Flowers lilac. Height 1 footPkt. 5c

MIGNONETTE.

Within recent years Mignonette has been immensely improved in size, and several distinct tints have been selected. These have been saved with such care that an agreeable variety of this fine old favorite is now available for the garden and for pot culture. The following are hardy annuals:

●**Sweet Scented**oz. 15c., pkt. 5c

●**Machet**—A dwarf and compact growing variety, with large flowers of a deep, reddish crimson; the most popular variety for pot culturePkt. 10c

●**Golden Machet**—This handsome Mignonette is practically identical with the Red Machet, except that the long spikes are covered with golden yellow blossoms.Pkt. 10c

●**Golden Queen**—Large flowered; a handsome dwarf variety; flowers golden yellow; a free bloomer.....Pkt. 5c

●**Crimson Queen**—Robust in habit, with very large spikes of handsome red flowersPkt. 5c

●**Myles Hybrid Spiral**—Habit dwarf and branching, flowers large. The odor of this variety is superior to any other varietyPkt. 5c

●**Parson's White Flowering**—The flowers are almost pure white, of the most exquisite fragrance.....Pkt. 5c

●**Defiance**—Spikes of remarkable size and deliciously fragrant; the individual florets are very large, standing out boldly; its keeping qualities are extraordinary....Pkt. 10c

●**Large Flowering Pyramidal or Tree**—This plant is more vigorous than the old variety, the stems stronger, and with proper treatment the so-called Tree Mignonette will be obtainedPkt. 5c

●**New Bismarck**—A grand addition to our Mignonettes, forming dense bushes covered with handsome thick flower heads of remarkable size, rich in color and deliciously scented; it is indispensable to the florist for cut flowers, and the best for pot culture.....Pkt. 10c

Double African Marigold.

Machet Mignonette.

Japanese Morning Glory.

MORNING GLORIES.

Old and well-known favorites. The beauty and delicacy of their colors are unsurpassed; they all grow freely in almost any situation. Hardy annual.

Morning Glory—(*Convolvulus Major*)—This popular climber is too well known to need a description, 10 ft., all colors, mixed. oz. 15c, pkt. 5c.

Double Flowered—Flowers are white with a spot of red or blue at the base of petals. Pkt. 5c.

Setosa—(*Brazilian Morning Glory*)—Flowers 3 inches or more across, of a beautiful rose color, borne very freely in large clusters from July to frost. As a quick-growing vine it has no equal, covering an enormous space in a short time Pkt. 5c.

Dwarf Morning Glory—(*Convolvulus Minor*) The flowers are of the same size and shape as the tall or climbing Morning Glory. The colors are most varied and pleasing; 1 ft. oz. 15c., pkt. 5c.

Mauritanicus—Charming for baskets, rock work, etc.; flowers lavender. Perennial. Pkt. 5c.

IMPERIAL JAPANESE MORNING GLORY.

The handsomest of a handsome family, of the easiest culture and of a strong and rapid growth; the foliage is of varied forms and the markings fantastic. The flowers are very large, of good substance, remaining open most of the day, and the colorings are beyond description.

..... Pkt. 5c.

MOON FLOWER.

Ipomea Grandiflora Alba—One of the finest of all annual climbers. It bears lovely white flowers five to six inches in diameter, with a five-pointed star in the centre; the flowers open at dusk, or earlier on cloudy days, at which time they are deliciously fragrant. Start the seed in the house and set out as early as safe in the spring. Pkt. 5c.

MARVEL OF PERU.

Mirabilis Jalapa—The flowers are varied and of beautiful colors, and are produced in great abundance. The roots may be preserved throughout the winter like Dahlias. Half-hardy annual.

Finest mixed; 2 feet oz. 20c., pkt. 5c.

MAURANDIA.

Beautiful climbers for greenhouse or out-door cultivation. Annual.

Barclayana—Deep violet; pretty Pkt. 10c.

MUSA ENSETE.

Abyssinian Banana Tree—Magnificent for sub-tropical massing. Or as single specimens they are very effective. Seed sown early will produce immense plants the first season. Tender perennial. Pkt. 25c.

MIMULUS.

Extremely handsome flowers of brilliant colors. Seeds sown in spring make fine bedding plants for summer blooming, while seeds sown in autumn produce very effective early flowering greenhouse plants. Half-hardy annual.

Moschatus—Musk plant; ½ foot Pkt. 10c.

Tigrinus—Tigered and spotted varieties. Pkt. 15c.

NOLANA.

Very pretty trailing plants, with convolvulus-like flowers; excellent for rustic work or hanging baskets. Hardy annual.

Fine Mixed Pkt. 5c.

NEMOPHILA.

Dwarf growing hardy annuals; all varieties have a neat, compact and uniform growth, comprising varied and beautiful colors.

Insignis—Deep blue, with white centre; ¾ ft. Pkt. 5c.

Choice Mixed—Many sorts Pkt. 5c.

NICOTIANA.

Ornamental Tobacco—Half-hardy annual.

Affinis—Sweet-scented, pure white, star-shaped flowers, three inches across, blooming continually in the greenhouse in winter or when bedded out in summer. Pkt. 5c.

Colossea—An immense variety; very ornamental. Pkt. 20c.

Sanderae—For description of this charming novelty see page

40. Pkt. 10c.

Marvel of Peru.

Nicotiana.

NASTURTIIUMS

Nasturtiums are probably the most popular flowers grown from seed.

Bruce's Peerless Collection of Dwarf Nasturtiums

See Collections page 42.

PENTSTEMONS.

The Pentstemons are amongst the best perennials. The flowers are large and beautifully marked, tubular in shape and produced in handsome spikes.

Choice MixedPkt. 10c

PERILLA.

Nankinensis—Ornamental foliage plant of compact habit; leaves dark mulberry, a most useful bedding plant; $1\frac{1}{2}$ ft. Annual.....Pkt. 5c

PANSY.

(Heartsease). This lovely flower, a favorite with everyone, is too well known to need any description. Seed sown in August or September, and kept in cold frames through the winter and planted out in the spring, will blossom abundantly the whole season; for summer and fall blooming sow from January to June. The Pansy delights in loamy soil, enriched with thoroughly decayed cow manure. The seed we offer has been saved from celebrated collections in Europe, and will not fail to give perfect satisfaction. Hardy perennial.

Masterpiece—In this new type of Pansies the great advance consists in the very robust and compact habit of growth and in the immense size of the flowers, which have the remarkable feature of mostly having the margins of their petals undulated and curled. The flowers of this strain show many new shades of color, while each petal is distinctly marked with a large dark blotch..Pkt. 25c

Bride's Maid—New—The flowers of this variety are very large and of fine form. The ground color is a rosy white, rivalling in delicacy and beauty with the finest apple blossom and most strikingly setting off the dark blotches of the centrePkt. 25c

Ruby—New—Embraces the richest shades of red colors, from scarlet, scarlet orange, wine red to rose; the flowers are of large size and fine formPkt. 25c

Giant Madame Perret—A beautiful new strain of rose and crimson shades; called the Wine PansyPkt. 25c

Paris Market—The flowers of this celebrated French strain are of a large size and produce a great diversity of the handsomest and rarest colors; a favorite with those that grow for the marketPkt. 15c

PANSY—Continued.

Bruce's Premium Pansy.

Bruce's Premium—In our Premium Pansy we offer a strain that ranks second to none for the size of bloom, matchless form and substance; the flowers are beautifully blotched and pencilled with rich and striking colorsPkt. 25c

Orchid Flowered—The flowers of this new race are of peculiar shape, the upper petals, which stand upright, are laid out in small folds or frills, which, with the unique color combinations, give the flowers their resemblance to orchids. The colors range through shades of terra cotta, flesh, orange, rose, pink and lilac.....Pkt. 25c

Bugnot's—The flowers of this variety are of immense size, symmetrical in shape, petals thick and beautifully marked. Every lover of Pansies should give it a trialPkt. 25c

Fire King—The three lower petals each have a deep brown-red blotch with a broad margin of yellow, while the upper two petals are of a most intense fiery redPkt. 10c

Lord Beaconsfield—Purple-violet, shading off, in the top petals only, to a whitish hue....Pkt. 10c

Giant Trimardeau—Flowers of immense size and beautifully marked; mixed colors.....Pkt. 10c

New Giant Flowered—A magnificent class of Primula of immense size; the flowers, which include many shades of color, are borne well above the foliage, are beautifully fringed and of great substance. Finest mixedPkt. 25c

DOUBLE CHINESE PRIMROSE.

Embracing beautiful shades of magenta, scarlet, rose and white. The large double and semi-double flowers are invaluable for cutting during the winter months, when other flowers are generally scarcePkt. 25c

PRIMULA OBCONICA GRANDIFLORA—While blooming as freely and constantly as the old Obconica, the flowers of this new variety are much larger; they vary in color from pure white to bright rose, making a very attractive pot plant; sown in February or early spring will bloom uninterruptedly from middle of MayPkt. 25c

PRIMULA OBCONICA GRANDIFLORA FIMBRIATA—A new fringed large flowering variety. For description see Novelties, page 41Pkt. 25c

PRIMULA OBCONICA, DOUBLE FLOWERED. One of the most valuable plants introduced in recent years. For description see Novelties, page 41Pkt. 25c

PRIMULA FORBESI—Like Obconica, this species begins to flower in babyhood and continues a mass of bloom all the year round. Each flower stem bears 3 to 6 whorls of pale rosy lilac flowers, smaller than those of Obconica, but more charming and gracefulPkt. 25c

PRIMULA FLORIBUNDA—Of the same general character as Obconica, differing only in color of the flower, which is a lovely shade of yellow, slightly fragrant and produced in continuous succession for months. See page 41Pkt. 25c

PRIMROSE.

Mixed Hybrids—Flowers of these new hybrids are produced in all shades of color, varying from white to crimsonPkt. 10c

Yellow—The old fashioned favoritePkt. 5c

PRIMROSE—JAPONICA.

This beautiful Primrose, growing about 1½ feet in height, produces from its tuft of robust leaves a stem bearing four or five separate tiers of whorls of charming flowers, each flower being an inch in diameter and of splendid magenta color. Half-hardy perennialPkt. 10c

PRIMROSE—POLYANTHUS.

Splendid free-flowering plants, either for pot culture or open border. Hardy perennial. Height ½ foot.

Fine Mixed—Border varietiesPkt. 10c

ROSA MULTIFLORA NANA.

Liliput Rose—This new dwarf Polyanthus Rose flowers the first season from seed. The flowers are single, semi-double and double, are of perfect form, and are produced in every color exhibited by other roses. The plants grow only about 15 inches high, forming very neat compact bushesPkt. 10c

Double Portulaca.

PORTULACA.

For brilliant, beautiful and gorgeous colors this charming genus stands unrivalled; and whether in baskets, small beds, edgings or rock work, its large splendid flowers, produced in the greatest profusion, are extremely effective; succeeds best in light, gravelly soils and a warm situation. Hardy annual.

Single—Mixed colors; ½ ft.oz. 60c., pkt. 5c

Double—Mixed, extra fine; ½ ft.Pkt. 10c

RICINUS—See Castor Oil Beans, page 48.

ROCKET.

Very pleasing early spring flowers, deliciously fragrant. Hardy perennial.

Purple and White—1½ feetPkt. 5c

Salvia Splendens.

SCHIZANTHUS.

Butterfly Flower—A splendid annual, combining elegance of growth with a profusion of rich and various colored flowers; fine for greenhouse decoration and the flower garden; of easy culture; mixed colorsPkt. 5c

SENSITIVE PLANT.

Mimosa—Very curious and interesting plants, their leaves closing if touched or violently shaken; may be grown out of doors, in a warm situation; grow in peat or loam; 1 foot. Half-hardy annualPkt. 5c

SCABIOSA.

Sweet Scabious—Flowers are double, remarkably handsome and very richly colored, crimson, purple, pink and lilac shades predominating; splendid for cutting. Hardy annual.

Dwarf Mixed—Double, all colors; 1 ft.oz. 20c., pkt. 5c

Tall Mixed—Large flowered, double varieties; 2 feet.oz. 30c., pkt. 5c

Double White—Snowball extra; 2 feet.Pkt. 5c

Double Yellow—A new color, very pretty.Pkt. 5c

Caucasica—One of the handsomest of hardy perennials, especially valuable for cutting, the bloom lasting a long time in water; lilac blue; 3 feet.Pkt. 10c

SCARLET RUNNER BEANS.

A great favorite in England and the continent of Europe, not only as an ornamental climber, but for the delicious edible beans which succeed the bright scarlet sprays of pea-shaped blossoms; grows 10 to 15 feet high.

Pint 20cPostage extra.Pkt. 5c

STREPTOCARPUS.

Cape Primrose—New hybrids—Highly decorative pot plants. They produce a continuous succession of large trumpet-shaped flowers, borne on erect slender stems, ranging in color through lavender, purple, violet, rose and red to pure white. Seed sown in January or February will produce plants which will come into bloom during the following June and JulyPkt. 10c

SALPIGLOSSIS.

Highly ornamental and remarkably beautiful summer blooming plants. Their curiously pencilled and marbled funnel-shaped flowers produce a fine effect in beds, borders, edging, etc. Hardy annual.

Superbissima or Emperor—A grand new strain, remarkable for its very large flowers, which are of brilliant, varied colors, all richly veined with gold.Pkt. 10c

Finest Mixed—Large flowering sorts. Beautiful colors; 1½ feet.oz. \$1.00, pkt. 5c

SALVIA.

(Flowering Sage.) A favorite bedding plant, bearing long spikes of flowers in great profusion from July till frost; half-hardy perennials, blooming first year from seed, which should be sown as early as possible either indoors or in a hotbed and the young plants transferred to their flowering quarters when the weather has become settled and warm.

Splendens—Brilliant scarlet flowers; a magnificent variety; 3 feetPkt. 10c

Splendens Compacta—In habit more dwarf and compact than above; flowers intense scarlet; unsurpassed for bedding and pots; 2 feetPkt. 15c

Patens—Handsome large deep blue velvety flowers; highly recommended; 2 feetPkt. 25c

Coccinea—Scarlet, very showy; 1 foot.Pkt. 5c

SMILAX.

A well known greenhouse plant; largely used by florists for table and house decorations; flowers whitePkt. 5c

SAPONARIA.

Of these beautiful little plants it is impossible to speak too highly. They carpet the ground with their beautiful star-shaped flowers during the summer and autumn months; for edging they are unequalled, bearing cutting back if necessary. Hardy annual.

Calabrica—Rich deep pink; ½ footoz. 30c., pkt. 5c

Salpiglossis.

Sweet Scabious.

Stocks.

the best of all intermediate varieties; the purity and constancy of their respective colors, their continuous blooming and great percentage of double flowers which they produce, renders them the most valuable for garden or pot culture. **White and Scarlet**—mixed or separate colors... Pkt. 25c
Beauty of Nice—See Novelties, page 39 Pkt. 15c

SUMMER FLOWERING TEN WEEK VARIETIES.

Fine Mixed oz. \$1.50, pkt. 5c
Choice Double Mixed—Large flowered sorts, extra fine. Pkt. 10c
Pure White Pkt. 10c
Royal Gem—Rich dark crimson Pkt. 10c
Triumph—Brilliant scarlet Pkt. 10c
Giant Perfection—Choice mixed Pkt. 10c
Imported Collection—12 finest varieties 75c
Imported Collection—6 finest varieties 50c
Princess Alice—(Cut and Come Again)—A magnificent Stock of strong growth and fine branching habit, bearing enormous spikes of large double pure white flowers, suitable alike for the garden and winter forcing under glass Pkt. 10c
Snowflake Forcing—A dwarf variety with large double snow-white flowers. Fine for pot culture Pkt. 25c

EAST LOTHIAN INTERMEDIATE STOCKS.

These Stocks, when properly cultivated, are acknowledged to be

BIENNIAL STOCKS.

Brompton—Snow White—Large flowered early variety, of dwarf compact habit; producing 70 per cent. of very double pure white flowers Pkt. 15c
Brompton Scarlet—Covent Garden variety Pkt. 15c

STEVIA.

Serrata—The tiny white flowers are produced in graceful sprays, valuable for cutting, perennial. Pkt 10

SUNFLOWER

(Helianthus.) Very showy plants; remarkable for their stately growth and the brilliancy and the size of their flowers, and well adapted for large shrubbery borders or round the margin of lakes or ponds. Hardy annual.

Single Varieties.

Miniature—Of dwarf branching habit, producing an abundance of small flowers of a bright golden yellow, with dark centre; one of the finest; 3 feet oz. 25c., pkt. 5c

New Miniature Seedlings—These new seedlings retain the same growth and freedom of flowering of the original Miniature Sunflower, but the individual flowers are most distinct in color and markings. They come in charming shades of orange, lemon yellow and light primrose. Some of the single flowers, with their twisted petals, resemble the Cactus-Dahlia, others are semi-double, whilst others are quite double and full centred like those of the large flowered double sorts. As a cut flower their convenient size and bright coloring make them invaluable for decorative purposes; these include last year's novelties Pkt. 5c

Giant Russian—Very large; 8 feet Pkt. 5c

Primrose Dame—Sulphur yellow, with black centre; 6 feet. oz. 15c., pkt. 5c

Double Varieties.

Chrysanthemum-Flowered—Grows seven feet high and bears profusely all summer long. Flowers are perfectly double, and of the very brightest golden yellow. The plants remain in bloom a long time and bear flowers of so many sizes that any one can suit himself as to what size would make the prettiest bunch. The flowers are so perfect in form that they resemble very double Chrysanthemum-flowered Assters with long stems oz. 25c., pkt. 5c

Globosus Fistulosus—Handsome large flowered; 5 feet oz. 20c., pkt. 5c

Many Flowered Double—Handsome and ornamental; it grows erect, about 4 feet in height, with only a single stock, and at each leaf joint is a very short stem, terminating in a fine double flower. The terminal flower is the largest, being from 6 to 8 inches in diameter oz. 25c., pkt. 5c

Dwarf Double—Very attractive; 4 ft. oz. 25c., pkt. 5c

Tall Double—Large bright yellow flower; 5 feet. oz. 20c., pkt. 5c

SWEET SULTAN—See Centaurea, page 49.

Miniature Sunflower.

New Giant White Pea—Dorothy Eckford.

SWEET PEAS

These lovely and deliciously perfumed flowers are everywhere appreciated. They possess all the qualities which are prized in decorative flowers, gracefulness of form, brilliant and varied coloring, slender stems and sweet perfume. When cut for filling vases the blooms will last for days. The seed should be sown as early as the ground can be worked in the spring, to enable the vines to get a good strong growth before the warm weather comes. Prepare the ground by thoroughly working in a large quantity of well-rotted manure. As fast as the flowers come into full bloom or fade they should be cut off, for if the pods are allowed to form the plants will stop blooming. Seed may be sown with great advantage late in the autumn.

A Carefully Revised List of the Best New and Standard Varieties.

PURE WHITE, PRIMROSE, AND VERY LIGHT SHADES.

Coquette—Light primrose-yellow, shaded pale lavender. Pkt. 5c., oz. 10c.

Dorothy Eckford—The finest pure white variety. In addition to its pureness it is a grand giant flower of great substance, also robust in growth and stem; the plant is very short jointed and grows an enormous mass of bloom. Pkt. 5c., oz. 10c.

Emily Henderson—Pure white, extra fine. Pkt. 5c., oz. 10c.

PURE WHITE PRIMROSE AND VERY LIGHT SHADES—Continued.

Golden Rose—Primrose, lightly striped and mottled with light pink; wings unusually large, both wings and standard quite wavy at edges. Pkt. 5c., oz. 15c.

Gracie Greenwood—Creamy white, shaded pink, with pink edge, large bold flower. Pkt. 5c., oz. 15c.

Honorable Mrs. E. Kenyon—Primrose, self-colored, large semi-hooded flower; this is the largest and best of this shade. Pkt. 5c., oz. 10c.

Lady M. Ormsby Gore—Standard buff and primrose; wings light primrose; the flowers are very large and of hooded form. Pkt. 5c., oz. 10c.

Marchioness of Cholmondeley—New—See page 67.

Mont Blanc—Extremely early; the flowers are of the purest snowy whiteness, pre-eminently suited for forcing purposes. Pkt. 5c., oz. 10c.

Mrs. Dugdale—Standards most lovely rose, shaded rich primrose; wings primrose, shaded and splashed light rose—a most charming color. Pkt. 5c., oz. 10c.

Queen Victoria—Color soft yellow, subtly overlaid with faint purple, imparting a lustre most desirable but difficult to describe. Pkt. 5c., oz. 10c.

Sadie Burpee—Pure pearly white, of perfect form and substance, and of large size. Pkt. 5c., oz. 10c.

Sue Earl—The standard is primrose, with mauve at the edges; wings almost pure primrose. The flowers are uniformly of large size and hooded form, borne three on a long stem. Pkt. 5c., oz. 10c.

Stella Morse—Deep cream with blush pink stem, hooded form. Pkt. 5c., oz. 10c.

White Wonder—The flowers are uniformly of large size, borne six to eight on long stout stems. About half the flowers have double standards. Pkt. 5c., oz. 15c.

PINK AND ROSE.

Agnes Johnson—A bright rose-pink standard, shaded cream, wings cream, slightly flushed pink. Pkt. 5c., oz. 15c.

Countess Lathom—A charming delicate pink self; the flowers, borne on long stems, are of splendid substance and lasting qualities. Pkt. 5c., oz. 10c.

Countess Spencer—Very large pale blush pink, with a delicate darker picotee edge. The most beautiful Sweet Pea yet raised. It sports somewhat, but all the sports are beautiful and worth growing. Pkt. 5c., oz. 20c.

Earliest of All—Standard rosy pink, wings white, lightly tinged with pink, growing only about two feet high; it comes into bloom fully ten days earlier than Extra Early Blanche Ferry. Most desirable variety for forcing. Pkt. 5c., oz. 10c.

Gladys Unwin—New—See page 67.

Hon. F. Bouverie—Standards a most beautiful coral-pink, wings slightly lighter of same color. Pkt. 5c., oz. 10c.

Janet Scott—New—A pure rich shade of pink, flowers unusually large, generally borne three on a stem, hooded form. Pkt. 5c., oz. 10c.

Jeanie Gordon—Standards bright rose, shaded cream, slightly hooded wings. Flowers large; a charming variety. Pkt. 5c., oz. 15c.

Lovely—Soft shell pink; wings delicate rose. Pkt. 5c., oz. 10c.

Majestic—Deep rose pink, borne almost uniformly three on a stem; the flowers are of the largest size, slightly hooded. Pkt. 5c., oz. 10c.

PINK AND ROSE—Continued.

Mrs. Knight Smith—New—See page 67.

Prima Donna—A most lovely shade of soft pink, of large size and fine form; a great gem; very frequently bears four flowers on a stem, which are very prettily placed. Pkt. 5c., oz. 10c.

Royal Rose—The standards deep rosy pink; the wings a light rosy pink; almost a self-colored flower. Pkt. 5c., oz. 10c.

Venus Salmon-buff; magnificent flower. Pkt. 5c., oz. 10c.

ORANGE AND PINK.

Gorgeous—Standard rich orange-salmon, wings bright orange rose. Very showy. Does best where not exposed very much to the sun. Pkt. 5c., oz. 10c.

Lady Mary Currie—A deep orange-pink, delicately shaded rose lilac, a most charming flower of exquisite brilliancy. Pkt. 5c., oz. 10c.

Miss Willmott—A grand flower of great substance, standard rich, deep orange pink, wings rose with orange tint; semi-hooded form; flower stems long and stiff and plant very vigorous. Pkt. 5c., oz. 10c.

RED SCARLET AND CRIMSON.

Coccinea—Soft cherry-red self-colored flower, a new and distinct shade, very bright and attractive; flowers of good size; semi-hooded. Pkt. 5c., oz. 10c.

King Edward VII—This is a lovely bright crimson self. A true giant-flowered variety, with strong stems and growth, with no inclination to burn in the sun. Pkt. 5c., oz. 15c.

Lord Kenyon—A most perfect self; rose magenta, flushed crimson, deepening toward the edges; this is a flower of splendid size and substance. Pkt. 5c., oz. 10c.

Prince Edward of York—Finely expanded standards of a charming shade of scarlet, and large wings of the deepest rose color. Pkt. 5c., oz. 10c.

Prince of Wales—A bright rose-self of intense color and fine bold form, bearing three and frequently four flowers well placed on long, stout stems. Pkt. 5c., oz. 10c.

Salopian—A superbly beautiful variety. Color deep crimson tinged with mulberry red suffused with rich orange scarlet; flowers large, finely formed and handsome; without doubt the very finest red. Pkt. 5c., oz. 10c.

Scarlet Gem—New—See page 67.

STRIPED AND PICOTEE EDGED.

America—Bright cardinal stripe on pure white ground. Pkt. 5c., oz. 10c.

Aurora—The flowers, which are gigantic in size, are borne three or four on a stem; the color effect is gorgeous. Both standards and wings are flaked and striped on a white ground, with bright orange salmon. Pkt. 5c., oz. 10c.

Dainty—Flowers of the largest size, and borne three and four on a stem; upon first opening appear to be white, but quickly change to white with pink edge, making a most charming contrast. Pkt. 5c., oz. 10c.

Jessie Cuthbertson—A fine erect standard, pale buff ground, striped with rosy magenta, three and often four flowers on a stem. Pkt. 5c., oz. 15c.

Lottie Eckford—Flowers large, standard white, shaded mauve; wings white, blue edged; very handsome. Pkt. 5c., oz. 10c.

Maid of Honor—Beautiful flowers, shaded light blue on a white ground and edged with violet. Pkt. 5c., oz. 10c.

LAVENDER AND MAUVE.

Admiration—Pink mauve, on a ground of light primrose, wings a shade lighter than standard, but almost self-colored. Pkt. 5c., oz. 10c.

Countess Cadogan—Standards slightly hooded, of a bright, shining, violet color overlaid with a charming light sky-blue; wings a pure sky-blue. Pkt. 5c., oz. 10c.

Countess of Radnor—Improved New Countess—Standard lavender; wings pale blue; a charming flower. Pkt. 5c., oz. 10c.

Dorothy Tennant—Rosy mauve; a handsome flower. Pkt. 5c., oz. 10c.

Flora Norton—New—See page 67.

Lord Roseberry—Rosy magenta, grand flower, of fine form and substance; very free flowering and robust. Pkt. 5c., oz. 10c.

Lady Grisel Hamilton—Color a beautiful shining pale lavender. In form it is one of the most advanced giant-flowered type. Pkt. 5c., oz. 10c.

Lady Nina Balfour—Delicate light lavender or lilac, very attractive. Pkt. 5c., oz. 10c.

Mrs. Geo. Higginson, Jr.—New—See page 67.

Mrs. Walter Wright—The standard is a beautiful shade of mauve, clear and bright, while the wings are a bright coerulean blue; flowers large, slightly hooded. Pkt. 5c., oz. 15c.

DARK BLUE, PURPLE, AND MAROON.

Captivation—Rosy purple self, shell-shaped standard; distinct and beautiful. Pkt. 5c., oz. 10c.

Duke of Clarence—Large, rosy-claret. Pkt. 5c., oz. 10c.

Duke of Sutherland—Purplish maroon standard, indigo blue wings a very dark variety. Pkt. 5c., oz. 10c.

Duke of Westminster—A deep rose-maroon overlaid with bright shining violet; a grand flower, quite unique, being perfectly distinct from any other variety. Pkt. 5c., oz. 10c.

Navy Blue—General color effect dark blue; standards brilliant royal purple; wings pure violet; the best of the color yet introduced. Pkt. 5c., oz. 10c.

Othello—A beautiful dark-brown chocolate red, self-colored flowers, a color not before attained. Pkt. 5c., oz. 10c.

Shahzada—A decided advance in the direction of dark colored Sweet Peas. The color, rich dark maroon with a shade of purple, is most distinct and attractive. Pkt. 5c., oz. 10c.

SWEET PEAS IN MIXTURE.

Bruce's Choice Mixed—This superb mixture is a choice blending (mixed by ourselves) from named varieties only, including many of Eckford's best, insuring a most satisfactory result in colors, and vastly superior to the ordinary mixture sold, which usually contains a large proportion of dull colors. Pkt. 5c., oz. 10c., 2 oz. 15c., ¼ lb. 20c., lb. 60c.

Good Mixed—Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 50c.

DOUBLE SWEET PEAS.

Under favorable conditions these will produce a large percentage of double flowers, and while not, in our judgment, as graceful as the singles, show the high state of development to which Sweet Peas have been brought.

Mixed Double Sweet Peas—Pkt. 5c., oz. 10c., 2 oz. 15c., ¼ lb. 25c., lb. 75c.

NEW SWEET PEAS.

Helen Pierce—A very pretty and distinct variety. Flowers a bright blue, mottled or marbled on white ground, after the style of a Gloxinia in coloring and markings; very striking and unique. The flowers are of remarkably good substance and last well when cut. A first-class addition which should be included in all collections. Pkt. 10c., 3 for 25c.

Gladys Unwin—Said to be the finest pink Sweet Pea yet introduced. The flowers are large and bold, not hooded, but with a very striking upright crinkled or wavy standard and broad wings; color a pale rosy-pink. About 75 per cent. of the long flower stems are with four blooms, which is a most unusual thing in Sweet Peas. Pkt. 10c., 3 for 25c.

Scarlet Gem—A dazzling scarlet, beautiful, bright and clear, strong grower and free flowering. Pkt. 5c., oz. 20c.

Marchioness of Cholmondeley—Flowers very large, bold and erect; color, a soft shade of cream, overlaid and edged with a delightful shade of pink. Pkt. 5c., oz. 20c.

Mrs. Knight Smith—An entirely new shade of pink, almost a self-color; flowers large, borne on long stout stems; free flowering. Pkt. 5c., oz. 20c.

Mrs. Geo. Higginson, Jr.—A very distinct and delicate pure light blue. It is especially valuable for florists and a decided novelty. Pkt. 5c., oz. 20c.

Flora Norton—This is a very bright self blue, two or three shades darker than Mrs. Geo. Higginson, quite distinct, and a great acquisition. Pkt. 5c., oz. 20c.

BUSH SWEET PEAS.

The plants are semi-erect, fifteen to eighteen inches high when in full flower, but branching freely so that the close bushes are frequently fifteen inches and more in diameter, composed of short erect branches with abundant light green foliage.

Mixed—All Colors—Pkt. 5c., oz. 10c., 2 oz. 15c., ¼ lb. 25c., lb. 75c.

NEW DWARF SWEET PEAS.

Plants of this new and distinct race of Sweet Peas are seldom more than six to eight inches in

New Dwarf Sweet Peas—Continued.

height, and form a dense mat of richest green foliage fifteen inches or more in diameter. The flowers are fully equal in size to those of the tall growing varieties, but are placed closely together, generally three or four at top of a stout stem. For bedding, bordering or cemetery decoration they are specially valuable.

Choice Mixed Cupids—Pkt. 5c., oz. 10c., 2 oz. 15c., ¼ lb. 25c., lb. 75c.

Mrs. Geo. Higginson, Jr.

SPECIAL MIXTURE OF**FLOWER SEEDS FOR WILD
FLOWER GARDENS**

These mixed flower seeds embrace a great variety of such easy growing and pretty flowers as are suitable for forming a wild flower garden. They are very useful for sowing in almost any odd corner of the garden or grounds, and if kept free from weeds can be made to produce a continual display of bloom during summer. Pkt 10c, $\frac{1}{2}$ oz. 20c, oz. 30c.

Helichrysum—Everlasting.

EVERLASTINGS

The Everlasting flowers are not only ornamental during the summer, but very attractive for winter decoration. They should be cut as soon as they come into bloom and dried in the shade with the heads downward to keep the stems straight.

Acroclinium—Double mixed, white and rose. Half-hardy annual.

Globe Amaranth—(Gomphrena)—Double mixed. Hardy annual.

Helichrysum—Exceedingly effective, double flowers of most brilliant colors. Hardy annual.

Helipterum—Flowers white and golden yellow. Tender annual.

Rhodanthe—Very handsome, rose and white mixed. Tender annual.

Xeranthemum—Double mixed; purple, yellow and white mixed. Hardy annual.

Any of above, pkt. 5c; the six for 25c.

Zinnia.

ORNAMENTAL GRASS SEEDS

Are particularly valuable for the formation of winter bouquets, wreaths and other ornaments, in connection with the everlasting flowers, for which purpose they should be cut when green, at about the time of flowering, and dried in the shade.

Those marked with an Asterisk are Perennial Species.

Agrostis Pulchella—Very beautiful.....Pkt. 5c

Agrostis Nebulosa—The most elegant of ornamental grassesPkt. 5c

Briza Maxima—One of the most ornamental grasses; perfectly hardy.....Pkt. 5c

Briza Gracilis—Very beautiful variety from Cape of Good HopePkt. 5c

*Bromus Brizaeformis—Very fine grass, with elegant hanging earsPkt. 5c

Eragrostis Elegans—An elegant airy grass of dwarf growthPkt. 5c

*Erianthus Ravennae—Extremely elegant, resembling the Pampas Grass in appearance, and habit of growth; its noble plumes of silvery inflorescence are pure white and delicately beautiful; 7 feetPkt. 5c

*Gynerium Argenteum—(Pampas Grass)—The most noble grass in cultivation; flowers second season; not quite hardy here, though we have kept plants safely by covering with leaves.Pkt. 5c

Lagurus Ovatus—(Hare's Tail Grass)—Small white plumes; 1 footPkt. 5c

*Stipa Pennata—(Feather Grass)—Magnificent but rather difficult to grow without heat...Pkt. 5c

Tricholaena Rosea—Exceedingly pretty..Pkt. 5c

FLOWERING BULBS

GLADIOLUS FOR SPRING PLANTING

There are few flowers which produce such a gorgeous effect as this magnificent autumn flowering plant. Largely as they are used, and popular as they undoubtedly are, they deserve to be still more extensively grown. The great wealth and variety of color, the richness of their markings, the size of the flowers and the profusion of bloom, all combine to make them one of the most effective plants for the garden, either for massing or for growing as single specimens.

Culture.—Gladiolus are of the easiest culture. The bulbs may be planted any time from the middle of May up to the end of June. They will grow well in ordinary garden soil with almost no care whatever. The bulbs may be taken up in the fall and stored during the winter in a dry cellar away from frost.

The following collections are all from stocks of H. H. Groff, the famous Canadian specialist, the greatest authority and introducer of Gladiolus of the present day. He was awarded the gold medal at World's Fair, St. Louis, and Pan-American, Buffalo.

World's Fair Collection—Combines all the high class recent novelties, consisting of shades of red, scarlet, pink, crimson, cerise, salmon, yellow, blue, white and light colors, with flowers of exceptional size and beauty. 20c each, 10 for \$1.60, 25 for \$3.50.

Collection A, Hybrid Seedlings—Newest shades of red, scarlet, cerise, pink, salmon and crimson. 10c each, 10 for 70c, 25 for \$1.50.

Collection B, Hybrid Seedlings—Newest shades of white, light and yellow. 15c each, 10 for \$1.00, 25 for \$2.25.

Collection C, Hybrid Seedlings—Newest shades of blue, lilac, clematis and heliotrope. 15c each, 10 for \$1.00, 25 for \$2.25.

Collection D—Above colors all mixed. 12c each, 10 for 90c, 25 for \$2.00.

The above collections are all of unequalled value. The flowers are magnificent both in color and size, and there is nothing that can compare with them.

Groff's Hybrid Seedlings—A good mixture of blooming bulbs. 10 for 40c, 25 for 75c, per 100 \$2.50.

Special Mixture for Horticultural Societies—A very superior mixture. 10 for 60c, 25 for \$1.25, \$4.00 per 100.

Bruce's Mixed—A very satisfactory mixture and strong flowering bulbs. 10 for 20c, 25 for 40c, \$1.50 per 100.

Bruce's White and Light Shades—A fine mixture, specially for florists. 10 for 40c, 25 for 80c, \$3.00 per 100.

Gladiolus Prices are Postpaid to all Canadian Points. To United States and Newfoundland add 10c. per 10 and 50c. per 100 for postage.

GLOXINIAS AND TUBEROUS BEGONIAS

Our stock of these beautiful and interesting plants is from a celebrated Continental grower, and can be recommended with confidence. We offer dormant flowering bulbs of the following, prices postpaid:

	Each.	Per doz.
Gloxinias. Separate colors, White, Scarlet with white throat, Tigered and Spotted	20	\$2 00
Gloxinias. Mixed colors	15	1 50
Begonias. Single separate colors, White, Pink, Crimson, Scarlet and Yellow....	15	1 50
Begonias. Single mixed colors	10	1 00
Begonias. Double separate colors, White, Pink, Crimson, Scarlet and Yellow....	20	2 00
Begonias. Double mixed colors	15	1 50

DOUBLE TUBEROSE

The fragrance and beauty of the Tuberose has made it a favorite with all. It keeps in bloom for a lengthened period, and its pure white wax-like flowers are produced on long spikes. Plant in the open ground in May; the bulbs can be started much earlier in pots if desired. Place in a sunny spot in a rich soil and cover the top of the bulbs to the depth of an inch.

The Pearl—Large flowering roots, first size. Each, 5c.; per doz. 40c.; per 100, \$2.50, postpaid.

Double Begonia.

DAHLIAS

Finest Double—Selected from the finest collection in Canada; the tubers are large, and each will produce from two to three strong eyes. Plant when the ground is dry and warm, from middle of May to middle of June, in rich loamy soil; water frequently after planting and tie to stakes. A little pruning and thinning out will produce extra large blooms. about the middle of October take up the roots and place on shelves in a dry cellar, free from frost.

Bessie—White and pink; very large.

British Splendor—Crimson; extra fine.

Bird of Passage—White and pink; good.

C. W. Burton—The best yellow decorative dahlia.

Goldfinch—Yellow.

John Lamont—Buff yellow; very free flowering.

Glory of Summer—Red; very free flowering.

Nymphaea—Light pink.

Uncertainty—Light pink, striped dark pink.

Black Prince—Cactus; very dark.

Cactus Queen—Cactus; scarlet.

Double White—Cactus; pure white.

Dude—Pompone; white shaded mauve.

Above varieties 20c each; \$2.00 per dozen.

Mixed sorts, ordinary varieties, 10c each, \$1 dozen.

Postage to Canadian Points 20c dozen extra.

Double Dahlia.

COLOCASIA (CALADIUM) ESCULENTUM

One of the most beautiful and striking of the ornamental foliage plants, either for cultivation in large pots or tubs, or for planting out on the lawn. First size, 20c each; \$2.00 per dozen. Second size, 10c each; \$1.00 per dozen. Fancy leaved varieties, 20c each; \$2.00 per dozen, postpaid.

IMPROVED BRASS GARDEN SYRINGES

No. 1—Syringe, 16-inch barrel, each \$2.50. No. 2—Full size, 18-inch barrel, improved rose, each \$3.00. No. 3—Full size, Reed's 18-inch barrel, ball valve, each \$3.50. These syringes have improved side screws attached, and are the best English make.

Best Canadian 18-inch Brass Syringe, \$2.00. Improved Zinc Syringe, for fruit trees, 50c each.

THERMOMETERS

Our stock of these is very large, and from the best manufacturers. We have too many different styles to enumerate, but we give a few prices, as follows: Long Distance, 30c each; Common, 25c to 50c each; extra fine, 75c to \$2.00 each; in nickel cases, \$1.00 each; minimum registering, 75c each; maximum registering, 75c each; maximum and minimum registering, \$2.00 each; for hot beds, \$1.50 each; for incubators, 75c each; dairy thermometers, 30c each, postpaid. All tested and guaranteed.

REGAL GARDEN GLOVES

A strong useful glove, giving full use of the fingers but protecting the hand. Just the thing for garden work and also on the farm. There is a big demand for them, and they are well made and will wash, thus lasting a long time. Made in men's sizes, large, medium and small, and also women's or boys' sizes, 15c each, postpaid, 18c each.

HARDY PERENNIAL PLANTS

This section of the world's flora is particularly adapted for Canadian gardens, enduring as most of them do our long severe winters without the least protection and producing their lavish flowers for many seasons without transplanting or any special care. Perennial plants present a marked contrast to annuals or summer bedding plants, and it is with pleasure that we note their growing popularity. The variety of form and color that can be used is almost endless, and with a judicious selection of varieties the border may be kept gay with flowers from the time frost leaves the ground till the late fall.

These plants, once established, are usually good for a generation, their permanence and easy management are strong points of recommendation. Each

Achillea—The Pearl	15
Alyssum Saxatile	20
Arabis Albida	15
Hardy Asters—(Michaelmas Daisies).....	15

Hollyhocks—Double, assorted, very fine quality.	15

Iris Germanica—The German Iris. Certainly the easiest of all Irises to grow; wonderfully hardy. We have a splendid collection of 20 named sorts, each a beauty and quite distinct. The flowers are large and numerous, and embrace many most rare shades and unique markings, ranging in color from pure white to rich dark varieties. Price, 15c each; \$1.00 per 10; \$7.00 per 100.

Lily of the Valley5 for 20

Pinks—Hardy Scotch or May Pinks. These are dwarfer than the Carnation, growing about 2 feet in height. The plant will stand out of doors year after year, being entirely hardy. Assorted varieties, 15c each.

Hardy Pyrethrums—Single20

Phlox, Tall—No hardy plants have been more improved during recent years than the Hardy Phlox. Some of the latest introductions are of very dwarf growth, not over 18 or 20 inches high, and the average varieties now grown for commercial purposes are not to be compared either in beauty of flower or profusion to the old varieties. Our collection, embracing about ten best kinds, is fully up-to-date. Assorted, each 15c.; \$1.40 per dozen.

Phalaris Arundinacea Var.—Ribbon grass, for edging. 10c each, 75c per dozen.

Double Paeonies—These noble plants are exceedingly effective, the diversity of color, variety of tint, profusion and duration of bloom, combined with handsome massive foliage, accommodating habit and easy culture, render them one of the most popular hardy plants grown. We have fifty varieties.....\$3.60 per dozen, each 35

Primrose English—The true variety.....each 20
Primrose or Polyanthus—The variety of shades and colors in the flowers is endless; 2 for 25c., 10 for \$1.00, assorted colors. Each

Veronica Spicata Alba—(Speedwell).....15

Violet—Double Russian or Double English.....15

Yucca Filamentosa—(Adam's Needle).....35

Clematis, Paniculata.

Postage on Paeonies 5c each extra.

CLEMATIS IN VARIETY

There are no hardy climbing plants attracting more attention and admiration at the present time than the Clematis. They are in continuous flower from June until November, and are all perfectly hardy; excellent for covering walls, trellises, porches, verandas, old stumps, etc. They require good, rich soil. In very dry weather water occasionally.

Duchess of Edinburgh—Double, pure white, fragrant.

Henryi—Pure white, very large; the best of the single white varieties.

Jackmanii—The best known of all Clematis, intense violet purple, a continuous bloomer.

Mme. Ed. Andre—Splendid, the nearest approach to a bright red, single.

Ramona A pleasing deep sky blue.

THE ABOVE IN STRONG TWO-YEAR-OLD PLANTS 60c., 2nd SIZE 40c. EACH.

Paniculata—Creamy-white fragrant flowers, borne in greatest possible profusion; a hardy and vigorous climber. Strong two-year-old plants, 30c each.

TEA AND EVER BLOOMING ROSES.

This class is also called tender and bedding roses. As a rule they need some protection to carry them through winter successfully. A little care is well spent, however, as the plants become stronger each year and bloom constantly from June till hard frosts. There are no other roses to equal them as regards constant flowering. In northern sections where there is a heavy protection of snow, they will often live through the winter without any protection. These roses are certainly worthy of a trial as bedding plants in every part of the country.

Bridesmaid—Deep, brilliant pink, unrivalled for house or garden culture.

Beaute Inconstant—The rose of many colors. The open flower is variable between coppery yellow, bluish pink, apricot and light crimson.

Clothilde Soupert—Ivory white, shading to silvery rose in centre, blooms in large clusters, very free.

Etoile de Lyon—Rich, golden yellow, the best yellow for outside culture.

Hermosa—Light pink, large, full, double, very free, one of the very hardiest.

Henry M. Stanley—Clear, amber rose. The flowers are large and delightfully fragrant.

La Princess Vera—Rich, ivory white, beautifully shaded with coppery-yellow; delicately veined with pink blush and carmine.

Mamen Cochet—Flesh pink, inner side of petals silvery rose; a vigorous grower, very fragrant.

Mme. Schwallier—The color is a bright rosy flesh, paler at the base of the petals and deepening on the edge. In the garden this is generally the first rose to bloom.

Marechal Neil—Deep golden yellow, very fragrant, a climbing rose, well suited for the house or conservatory.

Pink Soupert—Identical with C. Soupert except in color, beautiful rose of medium size, wonderfully free flowering.

White Bougere—Pure satiny white in color, vigorous in constitution and wonderfully free flowering.

1 year old plants from pots, 10c each, \$1 dozen.

2 year old plants from pots (on own roots), 25c each, \$2.75 dozen.

HARDY OR HYBRID PERPETUAL ROSES.

These are hardy Garden or June Roses, so well known for enormous flowers and powerful fragrance.

Augustine Guinnoiseau—The White La France, flesh white, very clear and fragrant.

Alfred Colomb—Cherry red, very double.

Augustine Haleme—Color dark crimson. A beautiful free flowering rose, very fragrant.

Mme. Plantier—Literally covered with pure white, double fragrant flowers, a beautiful cemetery rose, quite hardy.

Rambler Rose in Pot.

One-year-old plants from pots, 15c each, \$1.50 per doz.

HYBRID PERPETUAL ROSES—Large Field Grown Plants.

Those below are two-year-old plants of the hardy or garden roses. Where a good show of bloom is required the same year this size should be planted. These are not on their own roots, but are budded plants, and they should be set a little deeper when planting. They will then in time establish themselves on their own roots, and the stock upon which the rose was budded will eventually die, so that by the time the plants have attained good size and strength they will in most cases be upon their own roots.

Our stock is large, and consists of first-class and well-tried varieties—General Jacqueminot, Magna Charta, John Hopper, Margaret Dickson, Jean Liabaud, Anna de Diesbach, Prince Camille de Rohan, etc.

We can supply about twenty finest varieties. Full list sent on application. Prices 30c each, \$3.00 dozen. Can be sent by express only at purchaser's expense.

CLIMBING AND OTHER ROSES.

Baltimore Belle—Pale blush, faintly marked carmine rose, very double, and produced in immense clusters, a splendid climbing rose, 10c each; strong field grown plants, 25c each.

Prairie Queen—Bright rosy red, very hardy and very strong, climbing habit, 10c each; strong 2 year field grown plants, 25c each.

Crimson Rambler—A wonderful climbing rose, flowers are small and double, dark glowing crimson in color and borne in immense sprays. 300 open flowers have been counted on a single shoot. Growth strong and healthy; very hardy. 15c each, \$1.30 per dozen. Extra strong field grown plants, 35c each, \$3.00 per dozen.

Wichuriana—The Memorial Rose. Flowers single, pure white, with showy yellow stamens; the plant has a strong, creeping habit and is immensely popular for cemetery planting; foliage remains green almost all winter. 15c each; 2-year plants, 30c each.

Yellow Rambler—Worthy to be classed with Crimson Rambler, in regard to hardiness and quality of flower. The leafage is smaller than the Crimson variety and the wood more wiry. It is a fine grower, however, and bears immense clusters of golden yellow flowers. Each 15c. Large 2-year plants, 35c each.

Henry Martin—A magnificent Moss Rose, extra large and perfectly double; color deep carmine, shaded bright crimson, very mossy and fragrant, one of the finest. Two-year plants on own roots, 35c each.

Persian Yellow—The only deep yellow perfectly hardy rose. It is hardy almost everywhere, blooms in June only, very free flowering. Extra strong field grown plants, 35c each.

Salet—Moss. Light rose, handsome buds. This variety blooms throughout the season; one of the largest and best moss roses for the garden. Two year old plants, 35c each.

Anna de Diesbach—Beautiful, color rose, long pointed buds.

Gen. Jacqueminot—Bright crimson scarlet, exceedingly rich and velvety. Has a universal reputation for its charming buds, which fairly glow with rich deep coloring.

Magna Charta—Clear pink, flushed with carmine, fragrant.

Marechal Vaillant—Purple crimson, full, well-formed flower.

Ulrich Brunner—Soft cerise red, petals large and of heavy texture; growth almost thornless.

Baby Rambler Rose.

The New Rose, "Baby Rambler."

An introduction of last year, and has proved itself to be one of the most important additions to bedding roses for many years. It is almost identical with the Crimson Rambler in bloom but is of dwarf habit, not exceeding 18 inches in height. Flowers from spring until frost in autumn, and if grown inside blooms the year round. Strong plants, field grown, 2 years, 50c each, 3 for \$1.25.

Small Shrubs for Mailing

We have grown a very large stock of 1-year-old shrubs, nice sized little plants that can be conveniently sent through the mails. These will of course need extra care for the season after planting, but are so convenient for shipping long distances that we are assured of an enormous demand from the Northwest and other places where ornamental shrubs are but little known. These should be ordered not later than the first of May. We can supply any of the foregoing varieties excepting Calycanthus Floridus and Rhus Continus at 20c each, or \$2.00 per dozen, by mail postpaid.

HARDY ORNAMENTAL SHRUBS

We have a fine stock and heartily recommend these to every one. These plants are particularly desirable for planting in gardens, on lawns, and around houses and lanes, at rural or suburban dwellings. They present an infinite variety of flowers and foliage, and they constantly improve in size and beauty. Each year the trade is growing rapidly. If those not familiar with the different species will intrust the selection to us, we shall make the selection to suit their climate and requirements. Mention any variety you do not desire. Orders for shrubs and perennials must be sent in early as it is against reason to expect them to succeed if transplanted when in full leaf. The following shrubs are sent by express at the purchaser's expense.

	Each.
Calycanthus Floridus	35
Cornus Siberica Variegata (Dogwood) ..	25
Corchorus Variegata ..	20
Cydonia Japonica or Japan Quince— Bright scarlet crimson, flowers in great profusion in early spring. A grand hedge plant ..	15
Forsythia Fortunei (Golden Bell) ..	20
Forsythia Suspensa	20
Forsythia Viridissima	25
Honeysuckle Tartarica Rubro	20
Honeysuckle Tartarica Yellow	20
Rhus Continus or Smoke Tree	35
Deutzia Crenata	20
Deutzia Gracilis ..	20
Deutzia Pride of Rochester	25
Hydrangea Paniculata Grandiflora—Grows from 8 to 10 feet high, flowers white, in great pyramidal panicles a foot long, and produced in August and September, when very few shrubs are in flower; there is no more popular and satisfac- tory shrub grown. Very strong plants 30c; extra strong 3-year plants, 50c.	
Lilac, Alba Grandiflora, white	25
Lilac, Josikea, rich lilac	30
Lilac, Rubra de Marlay, purple	30
Philadelphus Coronaria (Syringa, Mock Orange) ..	20
Philadelphus Grandiflora ..	20
Philadelphus Aurea ..	25
Spirea Billardi ..	15
Spirea Callosa Alba ..	25
Spirea Douglassi ..	25
Spirea Prunifolia Flore Pleno	each 20
Spirea Thunbergii ..	25
Spirea Van Houttei—The grandest of all the Spirea. It is a beautiful ornament for the lawn at any season, but when in flower it is a com- plete fountain of white bloom, the foliage hardly showing. Perfectly hardy and early bloomer ..	25
Symphoricarpos Variegatus (Snowberry) ..	20
Sambucus Folis Luteus (Elder) ..	20

Hydrangea Paniculata Grandiflora.

Viburnum Opulus Sterilis—(Snowball)—We want to call particular attention to this fine shrub. It is a strong, hardy plant, covered when in bloom with large balls of pure white flowers, really resembling balls of snow; flowers in early summer ..	each 20
Weigela Gustave Mallet ..	25
Weigela Rosea ..	20
Weigela Rosea Variegata ..	25

CHOICE BEDDING AND HOUSE PLANTS

This wonderful Fern has attracted widespread attention throughout America and Europe. It was discovered among a lot of Boston Ferns. The plant possesses the same characteristic vigor of growth, with long fronds, but with each pinna or leaflet subdivided, so as to form a perfect miniature frond. Owing to this fulness of the fronds, even small plants are furnished, making much more symmetrical and beautiful plants than the Boston Fern, and when fully developed with fronds six inches across, the weight of which makes them bend gracefully, the effect is truly superb. The habit of the plant is grace personified; the fronds arch over in wavy regularity delightful to the eye. Price, strong plants, 15 cents each, \$1.30 per ten.

Photograph of a Speciment Plant of the Pierson Fern.

	Each.	Doz.
Asparagus, Sprengeri	15	\$1 20
Asparagus, Plumosus, Asparagus Fern.	20	1 80
Abutilon, Flowering Maple in variety.	10	1 00

Ferns for Dishes, Jardinieres, etc.—We can supply plants well established, 4 to 8 inches high, for filling fern dishes, etc. Varieties suitable for the purpose and well assorted. 4 for 30c, 85c doz.

Geraniums—Our stock is very fine and the varieties all the very best. Those ordering kindly say colors desired and whether for pots or bedding. Double or single flowering, named, strong young plants.....8c each, 75c per doz.

Genista Racemosa.....each 20c, \$2.25 per doz.

Heliotrope, best varieties...each 10c, \$1.00 per doz.

Jasmine Grandiflora.....each 10c, \$1.00 per doz.

Lantana, or Shrubby Verbena...each 10c, \$1.00 doz.

Lavender, True English....each 10c, \$1.00 per doz.

Mimulus Harrisonii, Giant Musk...each 10c, \$1 doz.

Palm, Kentia Forsteriana—The Kentias are certainly the most popular of all the Palms at the present time. They are very hardy and of easy cultivation. Plants 12 inches high.....50c

Palm, Balmoreana—This is sometimes called the "Curly Palm," and is recognized as among the best for all purposes, being capable of standing more ill-usage perhaps than any other. The leaves have a tendency to curl as the plants grow older. Fine plants, 10 inches high.....50c

Petunia, double fringed....each 10c, \$1.00 per doz.

Petunia, single

Ampelopsis.

Ampelopsis Veitchi (Japanese or Boston Ivy)

This handsome and rapid growing climber, generally known as Boston Ivy, is adapted for covering brick or stone houses or walls. Its foliage, which is a lively green in summer, changes in autumn to a brilliant crimson, producing a most gorgeous effect. It will, in a short time, entirely cover the side of a large building, and far surpass the Ivy. Strong plants 25c each, \$2.50 per dozen. Very strong 3-year-old plants 35c each, \$3.60 per dozen.

Ampelopsis Quinquefolia (Virginia Creeper)

A very rapid grower, with large dark-green foliage. A very desirable vine for covering arbors, verandas, etc. 20c each.

Gregg Raspberry.

RASPBERRY PLANTS

Black Champion	" 1 00		

When Currants, Gooseberries or Raspberries are ordered to be sent by mail 25c additional must be remitted on each dozen ordered to prepay postage. Express is the most satisfactory way of sending plants.

STRAWBERRY PLANTS

When Ordered to be sent by Mail add 5c per dozen and 20c for Postage on every 100 Plants.

The following list consists of the standard varieties in general cultivation:

Clyde—This new variety has fruit of enormous size, bright scarlet in color, in shape round and conical. It is one of the most productive varieties, stands the dry season well and has given immense satisfaction, being a vigorous grower, early, and of fine quality	25c per doz., \$1.25 per 100	Per doz.	Per 100
Michael's Early—An extra early variety; prolific bearer; color scarlet	\$0 25		\$1 25
Brandywine—A fine variety, of immense size, continues a long time in bearing	25		1 25
Williams—A valuable variety, of Canadian origin; fruit large and handsome; an abundant bearer and excellent flavor; largely grown for market purposes	25		1 25

NEW CLIMBING ROSE—DOROTHY PERKINS

In general habit closely resembling Crimson Rambler, but of a beautiful shell pink, full and double, of an unusually large size for a Cluster Rose. The trusses are made up of from thirty to forty flowers, and even more on the stronger branches. Among the many seedlings and crosses of Crimson Rambler we do not know one more meritorious than this. It is very satisfactory as to hardiness. 15c each, \$1.50 per doz; very strong field grown plants on own roots 35c, \$3.60 per doz.

On all plant orders going by mail 10c is required to be added to prices on pages 72 to 76 for postage and packing on any order under 1 dozen plants to Canadian points, and 20c to Newfoundland and U.S.

FERTILIZERS

Buffalo Pure Ground Bones for fertilizing purposes. Our ground bones are a very superior and carefully prepared fertilizer. A machine that will sow plaster will also sow the above. In Turnip culture they are particularly recommended. Apply at the rate of ten bushels (600 lbs.) per acre, and drill in with the seed. Highly recommended for lawns, etc. \$2.75 per 100 lbs.; \$5.00 per bag of 200 lbs.; \$40 per ton.

Gypsum or Pure Land Plaster, is white. It has great power in seizing on the escaping ammonia and giving it to plant life. Gypsum is the cheapest, and especially when used in conjunction with manure, one of the most powerful fertilizers in nature. It also attracts moisture. It is used largely on all crops and is of great benefit to lawns, as well as to every sort of fruit trees, vegetables or flowers. Sow early in the spring and autumn, when verdure is moist. Best effect to sow light and often. In good linen bags containing 150 lbs., 70c per bag, \$8.00 per ton.

Pulverized Sheep Manure—A natural manure, most nutritious for plants; effect immediate and lasting. Excellent for mixing with soil for greenhouse plants (one part manure and six parts soil). Strewn over and dug into the garden, or placed directly in drills or hills, it promotes a rapid, steady growth until maturity. It makes safe and quick liquid manure; one pound to five gallons of water, can be used daily, if necessary, with safety. 1 lb. 10c, 12½ lbs. 50c, bag of 100 lbs. \$2.00.

Nitrate of Soda—A powerful fertilizer, containing a large percentage of nitrogen, the property which soil most requires. Per lb. 10c, 20 lbs. \$1.00, 100 lbs. \$3.50.

Peruvian Guano—From the large amount of ammonia and phosphate contained in pure Guano, it is one of the most powerful stimulants for plants and growing crops. Before using it should be made fine, and may be mixed with loam, charcoal, dust or plaster. It should not be mixed with lime or ashes; muck or clay also are not suitable. It should not come in contact with growing plants. As it is nearly soluble in water, it is most easily converted into liquid manure, and when applied in that form its effects are almost immediate. One pound of Guano to twenty gallons of water will be sufficiently strong for a single watering each week, which is more efficient than repeated waterings with weaker solutions. Per lb. 10c, 25 lbs. \$1.75, 100 lbs. \$5.00.

Hammond's Sward Food—A first-class top dressing, especially prepared for lawns, meadows and all grass lands, to insure a thick, matted growth of rootlets. It is bad for grubs and brings no weeds. Approximate quantity to be used. For say 2,000 square feet, 25 lbs.; per acre, 600 to 1,000 lbs. No unpleasant odors and quick results. For flowers, stir it in the soil and it will help to make a poor flower bed profuse, bountiful and beautiful. In 5 lb. packages, 30c, 10 lb. packages 50c, 100 lb. kegs \$4.00.

Alberts' Thomas Phosphate Powder—Excellent for grain, clover, hay, root, vegetable and fruit crops. Not only is it beneficial the first year, but its after effects last for about four years. It is free from sulphuric acid. It contains 17 to 20 per cent. of phosphoric acid, equal to 37 to 40 per cent. phosphates, and is the cheapest and most profitable source of available phosphates. Use from 100 to 600 lbs. per acre. \$1.75 per 100 lbs., bag of 225 lbs. \$3.50, per ton \$27.00.

SPECIAL MANURES FOR HOUSE AND GARDEN PLANTS

Peruvian Guano—A valuable plant food. See above for particulars. Directions on package.

In packages at 10c., postpaid 30c; and 25c., postpaid 70c.

PREPARATIONS FOR THE DESTRUCTION OF INSECTS

Slug Shot—(Hammond's)—It is in the form of an impalpable powder, and is fatal to insect life in every form in which they are injurious to vegetation. It not only acts as an insect destroyer, but it will be found to be an excellent fertilizer, as plants upon which it is used will be found to grow and look finer than those upon which it is not. It contains nothing injurious to domestic animals and does not deteriorate by age. On low growing plants it should be dusted on with a very fine sifter. Canisters, with perforated top, filled with Slug Shot, 20c each, postpaid 35c. In 5 lb. packages, 35c; 10 lb. packages, 65c; in barrels of about 225 lbs., 4¼c lb.

Grape Dust—(Hammond's)—An excellent article for killing as well as preventing mildew, mould or rust mites on roses, grape vines and other plants and trees affected by the same. More effectual and cheaper than sulphur. Required to be applied reasonably frequent. In 5 lb. packages, 50c; in 100 lb. kegs, \$6.00.

Hughes' Fir Tree Oil—This new insect destroyer has proved to be one of the most reliable for red spider, green fly, mealy bugs, scale, ants, thrip, onion fly, caterpillar, slug, blight, etc. It is also used much as a dogwash. Fir Tree Oil is put up and sold in bottles with directions for its use. Small bottles, 25c; good size bottle, 50c; large bottle, 75c.

Thomson's Styptic—A preparation for preventing the bleeding of vines; used largely by the leading horticulturists in Great Britain. Per bottle 75c.

Nikoteen—A liquid insecticide for use of florists and gardeners. It is composed of that element in tobacco which gives it its value and nothing else. This is without doubt the best remedy for most of the insects that attack plants and flowers. Circulars giving full particulars and mode of treatment on application. Price \$2.00 per pint bottle.

Nikoteen Aphid Punk—A special preparation of nicotine for burning in greenhouses to destroy green and black fly, thrip, etc. Box of 1 dozen rolls, 90 cents.

Church's Potato Bug Finish—One of the best destroyers of potato bugs on the market; has given splendid satisfaction. It is also recommended to destroy all insect life which feeds on the leaves of plants, shrubs, bushes, etc. Use 25 lbs. to the acre, and dust it on with a fine sieve. Apply after a rain or after a dew in the morning, so that it will adhere to the vines. In 1 lb. canisters, 10c each; 10 lb. lots, 25c; 25 lb. lots, 40c; 100 lb. lots, \$1.50; barrel of 300 lbs., \$4.00.

Hammond's Thrip Juice kills lice and scale. A concentrated liquid insecticide for destroying the lice, scale, caterpillars, mealy bugs, etc. Non-poisonous, diluted with two hundred times its bulk. Arseniated, for orchard use, diluted with four hundred times its bulk in water. Pint cans, 40c; quart cans, 75c.

Whale Oil Soap—A splendid article for preserving flowers, shrubs, vines, and particularly rose bushes, from the destructive effects of slugs, grubs, worms, etc. ½ lb. bars, 15c; 1 lb. bars, 25c; in bulk, 15c per lb.; postpaid 20c per lb. extra.

No. 1 Paris Green—We hear a great many complaints about this article, which is largely used, and it should be **A1** for spraying and kindred uses. We have received a stock of the very best we can procure, which we offer as follows: In bulk, 25c per lb.; in ½ lb. packages, 25c each; in 1 lb. packages, 35c each. If required by mail add 20c per lb. for postage.

Sulpho-Tobacco Soap—Destroys cabbage, squash and potato bugs, currant worms, lice, green fly, mealy bug, red spider, etc. Sure death to all plant insects indoors and out of doors. Of special value for spraying shrubs, fruit trees and vines. Produces luxuriant roses if bushes are sprayed liberally before blooming time; a splendid wash for dogs and other animals. 3-oz. cake makes 1½ gallons prepared solution. 10 cents, postpaid 13 cents. 8-oz. cake makes 4 gallons prepared solution. 20c., postpaid 28c. 10 lb. cake makes 80 gallons prepared solution. By express, \$3.00.

Free with every order, The Window Garden, a booklet by Eben E. Rexford, on the cultivation of plants and the extermination of insects.

Kills the Bugs.

Feeds the Plant.

Pat. in Canada Nov. 2, 1897, Jan. 25, 1900
NON-POISONOUS. PREVENTS BLIGHT.

BUG DEATH

This Insecticide and Plant Food Combined has been on the market for six years, and its sales have shown a large increase each year. We can say to our customers that we give Bug Death our fullest endorsement. While the first cost to kill the bugs on an acre of potatoes is rather more than the arsenical insecticides, the results at harvesting time are entirely satisfactory, and where practical tests have been made the extra yield of marketable potatoes has more than paid the entire expense. It is non-poisonous, which makes it perfectly safe to use on all plants or vines. Very beneficial results are obtained by using Bordeaux Mixture in connection with Bug Death, and they can be mixed and sprayed on the vines at the same time, with any of the spraying machines on the market for that purpose. Bug Death prevents blight. Order early. Could not supply the demand last season.

Price—Put up in packages as follows, with trade mark on each package: 1 lb. package, 15c; 3 lb. package, 35c; 5 lb. package, 50c; 12½ lb. package, \$1.00; 100 lb. package, \$7.00. Perfection Shaker for applying Bug Death, 65c. Dickey Duster, 25c each.

It may be applied dry with the Perfection Shaker, Dickey Duster, or with a small bag made from burlap or gunny cloth having the right mesh, also mixed with water and sprayed as above stated.

"BONORA," NATURE'S PLANT FOOD

The first essential to all plant life is the use of a good and complete fertilizer, and this is an acknowledged fact by every authority on the subject. This long-felt want is fully supplied by the new wonderful discovery, "**Bonora**," the greatest discovery of its kind of modern times. Good for flowering plants of all kinds, lawns, shrubbery, vegetables of every variety, grape vines, fruit and shade trees, and for everything pertaining to plant life. It is, in fact, to plant life what blood is to human life, thus you will see the important position it holds in the agricultural and horticultural world. It is a boon to the early vegetable grower, maturing the crop two to three weeks earlier, thus enabling him to market his product away in advance of those who have not used "**Bonora**," besides improving the quality and increasing the quantity. It will greatly enrich the soil wherever applied, giving the plant an active, pushing, healthy and lasting growth. A trial will convince the most skeptical, and those who have not done so should not be without this luxury to plant life any longer.

Put up in liquid form as follows: 1, 2.5 and 10 gallon kegs, per gallon, \$2.00.

Put up in dry form as follows: Small package, making 7 gallons, postpaid 30c; 1 lb., making 28 gallons, postpaid, 65c; 5 lbs., making 140 gallons, here \$2.50; 10 lbs., making 280 gallons, here \$5.00; 40 lbs., making 1,120 gallons, here \$20.00; 100 lbs., making 2,800 gallons, here \$42.50.

Circular and further information on application.

Directions for Use.—It should be put in a wooden vessel and kept where animals cannot drink it. Sprinkle it on the plant, using a sufficient quantity to soak through the earth and reach the roots. Give two applications one week apart, and you can then judge whether another is necessary by the appearance of the plants.

Pocantico Hills, N. Y., October 4, 1905.
Bonora Chemical Co.,

Gentlemen: Answering your letter about how well I was pleased with "**Bonora**," wish to say that it gave us great satisfaction. We tried it sparing-

Fertilizer.

Both were the same size before treatment.

ly, as we have been fooled with so many different things, that I thought it was best to go slowly with it. It not only highly pleased me, but all those who have seen it notice the great difference between where it is used and where it is not used. I am very sorry I did not get more earlier in the season, as we could use it to great advantage. I used it on evergreens, trees, lawns, and on flowering plants. Expect to use a large quantity the coming season, and shall send you the order direct, if your representative does not call early enough.—Very truly yours, **C. G. CHADER,**

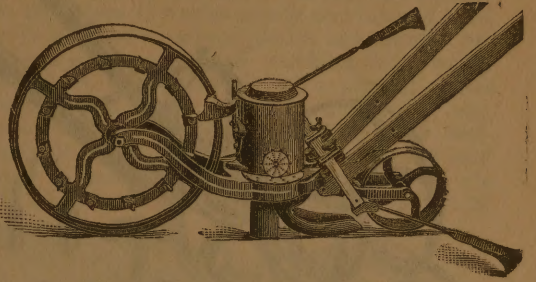

Gardener to J. D. Rockefeller, Jr.

LABOR SAVING IMPLEMENTS

MATTHEWS' NEW UNIVERSAL MODEL GARDEN DRILL.

With New Seed Cut-off and Improved Markers.

Is everywhere acknowledged to be the standard drill of America. It has been many years in use, and its largely increasing sale is the best evidence of its merit. It is designed for use in field or garden. When in operation it opens the furrows, drops the seed accurately at the desired depth, covers it, and lightly rolls the earth down over it, and at the same time marks the new row. It will sow Beet, Carrot, Onion, Turnip, Sage, Spinach, Sorghum, Peas, Beans, Fodder Corn, Broom Corn, etc., with a certainty, regularity and rapidly impossible for the most skilful hand to do. Price, boxed, \$3.00.

MATTHEWS' NEW UNIVERSAL MODEL GEM GARDEN DRILL.

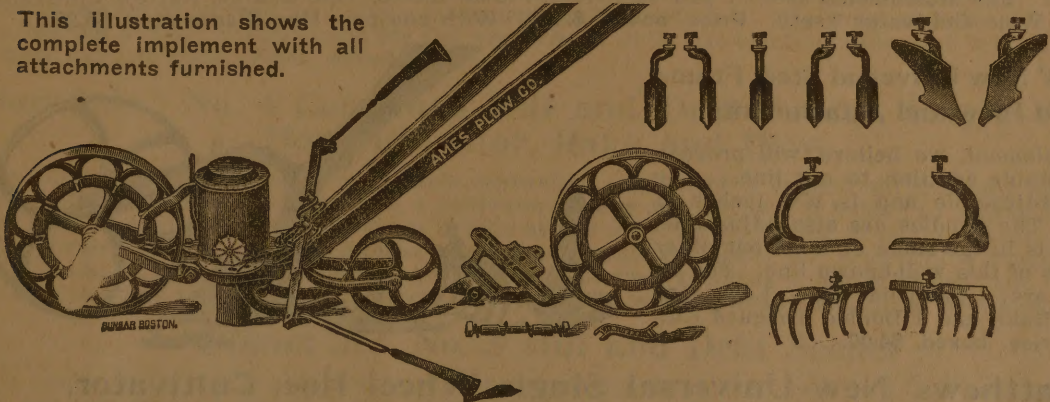

This has been perfected to meet the demand for a low priced drill. We have not only accomplished this in our design, but here offer a drill with all the essential qualities of the Matthews principle, even to embodying Seed Dial and Indicator from exactly same patterns as those used on the larger and more expensive drills. We do not recommend it for use instead of the larger drills, but we are sure that all in want of such a drill, as we represent this to be, will find it to their advantage to buy the Matthews' Garden Gem. Price, boxed, \$6.25.

MATTHEWS' NEW UNIVERSAL MODEL HILL AND DRILL SEEDER.

Same in style and working qualities as the above, just described, but so arranged as to drop the seed continuously in drills or at distances of 4, 6, 8, 12, 16, 24 and 48 inches apart. The adjustment of this Hill Dropper saves the seed, and no more than desired is dropped at a time. The change to the ordinary drill is made by one Thumb-Screw in detaching the "CUT OFF" from the Agitator and fastening it back on the frame. Price boxed, \$9.00.

MATTHEWS' NEW UNIVERSAL CONSTELLATION—SEEDER, HOE, CULTIVATOR, PLOW, RAKE AND MARKER.

This illustration shows the complete implement with all attachments furnished.

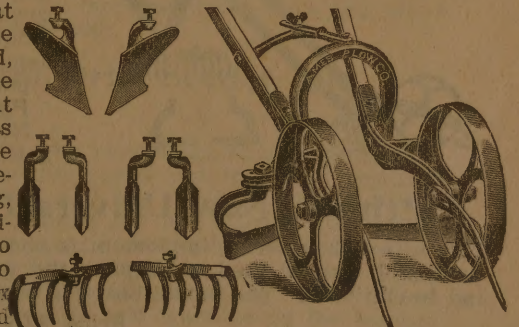

In this constellation is presented a brilliant assemblage of the new Universal Drill and the Double Wheel Hoe, Cultivator Rake and Plow for use either as a single or double wheel implement.

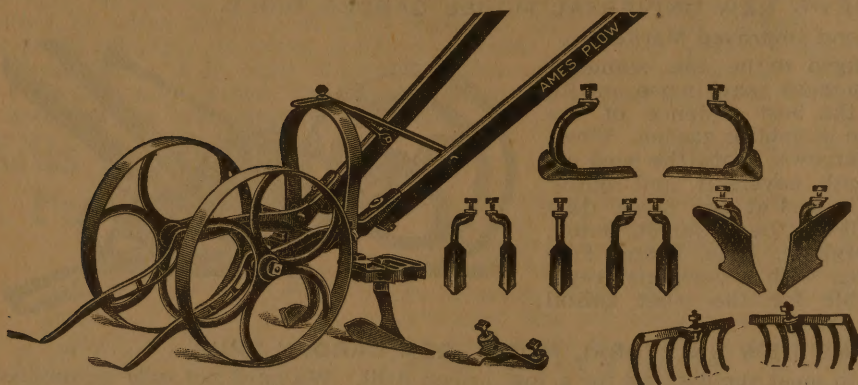

Six implements in one. Each implement is entirely separate from the other, and the only parts used in each, the wheels and handles, are changed from one frame to the other by only two bolts. The cultivating attachments are shown detached. They are: 1 Cultivator Frame, 1 Centre Cultivator, Tooth and 1 pair each Hoes, Plows, Rakes, Markers, Narrow Cultivator Teeth and Wide Cultivator Teeth. Price boxed, \$10.50.

MATTHEWS' NEW UNIVERSAL DOUBLE WHEEL HOE, CULTIVATOR, PLOW AND RAKE.

Specially designed for working both sides of the row at one passing. The special recommendation is the Adjustable Arch, by which not only the depth of work can be gauged, but which, by an ingenious device enables the teeth to be pitched at any angle desired. It can be pushed straight ahead, but better results are obtained by using it same as a scuffle hoe, with successive strokes of length to suit the nature of soil and crop. It can be used either astride or between rows. To work both sides of the row at one passing, the attachment can be set to suit width of crop to be cultivated, keeping road midway between the wheels; no need to watch the teeth. The hoe blades can be set to turn in or out as desired by the operator. Four cultivator teeth are furnished with each; two can be used at desired width to mark out rows. For furrowing, the plows can be set close together and turn outward; for covering, set to width desired and turn inward. The depth can be regulated by adjusting wheel arms in the three holes provided on each side of the arch, also by pitching the arch by means of the arch brace and the thumb bolt, where it connects to the lower handle brace. The leaf guards are to prevent wheels from injuring large spreading foliage. Price, boxed, \$6.50. With 1 pair Hoe Blades only \$4.25.

New Universal Expansion Wheel Hoe, Cultivator, Rake and Plow, High Arch—A Double or Single Wheel Implement at Will.

The wheels are 12 inches in diameter, and the arch high enough to cultivate over plants 20 inches or more in height. Our Double Wheel Hoe meets all requirements, but we here present, if possible, a more complete implement of larger size. The Adjustable Arch affords means for regulating depth, and for setting pitch of teeth, a very valuable feature in using the Hoe Blades. It also admits the use of implement by either man or

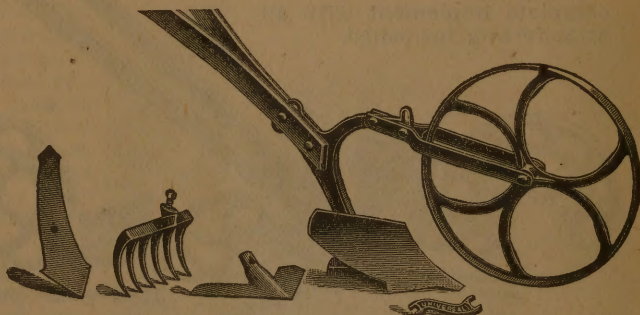

boy. Expansion Pads, or Tooth Holders, are provided, so any width of cultivation may be attained from the narrowest up to 20 inches wide. One wheel is preferred by many when in use as a "between row" cultivator, and for this purpose we provide the Centre Attachment, consisting of Wheel Scraper and Tooth Holder. The attachments are: 1 pair each long bladed Hoes, short bladed Hoes, narrow Cultivators, wide Cultivators, Plows, Rakes and Vine Guards, and a Centre Cultivator and Centre Tooth Holder. Price, boxed, \$9.50. With one pair Hoe Blades only, \$6.00.

Matthews' New Universal Expansion Double Wheel Hoe, Cultivator, Rake and Plow.

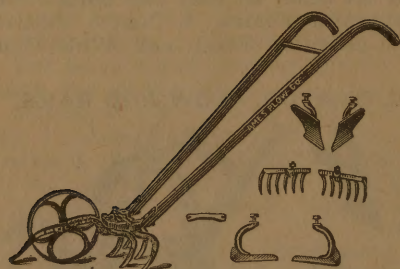

Extension pads, spring steel arch, and arch brace of same style as the High Arch Hoe just described, are used in the construction of this implement also, thus affording at a very low figure every essential to our new Wheel Hoe, except that the arch is not so high and the wheels used are 10½ inches in diameter. The attachments are: 1 pair each Hoes, Plows, Rakes, Vine Guards, Narrow Cultivator Teeth and Wide Cultivator Teeth. Price, boxed, \$7.50. With one pair Hoe Blades only, \$5.25.

Matthews' New Universal Steel Frame Garden Plow and Attachments.

This implement, we believe, will prove a very acceptable addition to our line. The Wheel is adjustable and is 15½ inches in diameter. The handles are also adjustable. The finish is in the same style as our other implements of this well-known line. The attachments are: 1 Landslide Plow, 1 Sweeper Scuttle, 1 Rake and 1 Double Tongued Cultivator. Price, boxed, \$4.00.

Matthews' New Universal Single Wheel Hoe, Cultivator, Plow and Rake.

As with the Double Wheel Hoe just described, it can be used either between or astride the rows, although it is really intended for between row cultivation. For straddle cultivation the wheel can be set to one side so as to bring the row of young plants under centre of frame. Later cultivation must be done between rows. The adjustment for graduating the depth of cultivation is unique and readily accomplished. There are five adjustments of depth. The attachments are: 1 pair Hoes, 5 Cultivator Teeth, 1 pair Plows, 1 pair Rakes and 1 Vine or Leaf Guard.

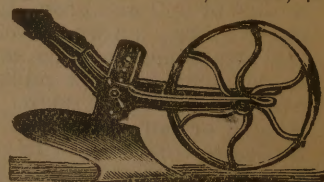

Price, boxed, \$5.75. With one pair of Hoe Blades only, \$3.25.

No. 2—Same as above, excepting the attachments, which are. 1 pair Hoes, 3 Cultivator Teeth and 1 large Plow. Price, boxed, \$5.

Matthews' New Universal Hand Wheel Plow.

This little labor saving implement is one that commends itself to all gardeners. It can be used to prepare the ground, to furrow out, to cover, and to cultivate. The mould board is of steel, polished and tempered.

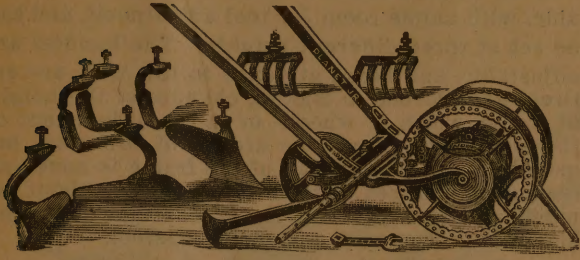

Price, \$2.50.

Matthews' New Universal Hand Draw Plow.

This is the same Plow and Standard as used in the new Universal Hand Wheel Plow, only fitted with a long handle, to be drawn instead of pushed. Price, \$2.00.

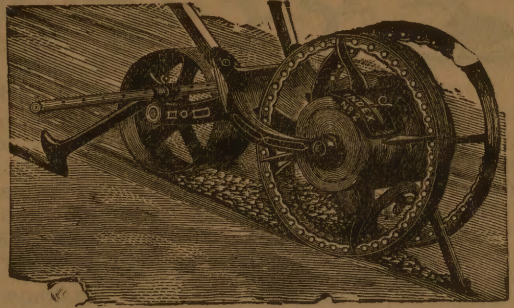

"Planet Jr." Combined Drill, Wheel Hoe, Cultivator, Rake and Plow

As a Seed Drill, it is the same as No. 2, except in size. It holds 3 pints. Each tool is supplied with 1 pair of long hoes, 3 reversible cultivator teeth, and a large garden plow. As a hoe it works safely and closely both sides of the row at once when plants are small; between rows when plants are large, working all rows up to 16 inches wide at one passage. As a plow it opens furrows, covers them, hills, plows to and from, etc. As a cultivator it is admirably adapted to deep mellowing of the soil. All the blades are tempered and polished steel. Easily changed from a drill to its other uses. Price, boxed, \$12.25. Without Rakes, \$11.25

The "Planet Jr." No. 2 Seed Drill

Sows all garden seeds accurately at any desired thickness or depth, opening, dropping, covering, rolling down and marking the next row in the most perfect and reliable manner, all at single passage. It holds three quarts. It has no cams, cover brushes, cogs, springs or shakers to get out of order; it is noiseless, automatic, self-cleaning and accurate; remarkable for simplicity, strength, and for ease and perfection of work in the field. It can be set to run deep or shallow, and the seeds are deposited in a narrow line. Price, boxed, \$8.75.

"Planet Jr." No. 3 Hill and Drill Seeder

This is the same tool as the No. 5 seeder and just as good, except that it is smaller in size. The hopper holds three quarts; 15-inch patent steel driving wheel, with broad face, which makes the drill run easily, even when full. The quantity of seed is regulated by an accurate index, conveniently placed at the top of the handle, and carefully graduated for either hill dropping or drilling. The flow of seed is started or stopped by a single movement of the forefinger. The roller is broad and hollow-faced, leaving a wide, smooth track for the wheel hoe. It is extremely simple, and will not injure the most delicate seed. Price, boxed, \$12.25.

"Planet Jr." No. 4 Combined Hill and Drill Seeder, Single Wheel Hoe Cultivator, Rake and Plow

This admirable tool combines in a single convenient implement a capital hill dropping seeder, a perfect drill seeder, a single wheel hoe, a cultivator, a rake and a plow. It holds two quarts, and as a seeder sows in continuous rows, or drops in hills at five different distances. It is thrown out of gear by simply raising the handles. The index is accurate, simple and easily set. The drill is detached and the tool frame substituted by removing but one bolt. It then becomes a single wheel hoe, garden plow, cultivator or rake. Price, complete, boxed, \$13.25; without Rakes, \$12.25; as Drill only, \$10.00.

"Planet Jr." No. 5 Hill and Drill Seeder

This seeder is the latest and most perfect development of the hand seed drill. It sows evenly in drills, and also drops in hills at 4, 6, 8, 12 or 24 inches apart. It is thrown out of gear instantly by removing a convenient lever; or, the flow of seed is stopped by pushing down the seed rod. No time is lost; no seed is wasted. It is quickly set to sow different kinds of seed in the exact thickness desired. It covers and rolls down light or heavy, and marks the next row clearly. 16½-inch patent steel drive wheel; hopper holds five quarts; it runs light, and sows equally well with a full hopper or a tablespoonful of seed.

The accurate hill-dropping drill, which gives a regular stand of plants with the least seed, saves its cost over and over in seed alone. We guarantee this drill to be more accurate than any other made, and to give satisfaction in every respect. Price, boxed, \$15.00.

"Planet Jr." No. 25 Combined Hill and Drill Seeder and Double Wheel Hoe

This new combined machine is intended for a class of gardeners who have large enough acreage in crops for a Double Wheel Hoe to be used to good advantage, and yet prefer not to buy a separate Wheel Hoe. It is large enough for field use, for it holds 2½ quarts, and has 11¼-inch wheels, which are just the right size. As a drill it is almost identical with the "Planet Jr." No. 4 Drill; will sow in drills or hills, 4, 6, 8, 12 or 24 inches apart, and has the same automatic device for throwing out of gear and the new combined cut-off and seed index with thumb-screw adjustment. It is thoroughly substantial and accurate in sowing all kinds of garden seeds in either hills or drills. As a Wheel Hoe it is identical with the "Planet Jr." No. 12 Double Wheel Hoe, the best machine on the market. The change from Drill to Wheel Hoe takes but a moment, and the entire combination is one we can heartily recommend and guarantee satisfactory. Price, boxed, \$15.75.

We have Special Catalogues giving full descriptions and directions in regard to Lawn Mowers, Spray Pumps, including Spraying Calendar and Mixtures, Drills, Hoes, Cultivators, etc.
Will Mail these on application.

"PLANET JR." No. 12

Double Wheel Hoe,
Cultivator
and Plow.

This tool has 11-inch wheels which can be set at four different distances apart; the frame is malleable, with ample room for tool adjustment, and can be set at three different heights. The handles are adjustable, and being attached to the arch, are entirely undisturbed in making changes of the height of frame, width of wheels, or in the adjustment of the tool themselves. The arch is of stiff steel, unusually high. The design of the frame is novel, allowing all changes of tools to be made without removal of the nuts from the standards. All the blades are tempered and polished steel.

Price, boxed, - - - \$8.25.

No. 13—This tool is the No. 12, with 6-in. Hoes only

Price, boxed - - - \$5.50.

"PLANET JR." NO. 16 SINGLE WHEEL HOE, CULTIVATOR RAKE AND PLOW.

This is a perfect Wheel Hoe for gardens or private places. It is very light, strong and easy running, has adjustable handles and frames, easily adapted for quick changing of teeth. The equipment is a most useful one, and will be found just right for a great variety of work. The frame changes in height and the wheel to the other side of the frame, to hoe both sides of the row at once. Price, boxed, \$6.75.

No. 17—This tool is the No. 16, without the leaf guards or rakes. Price, boxed, \$5.75.

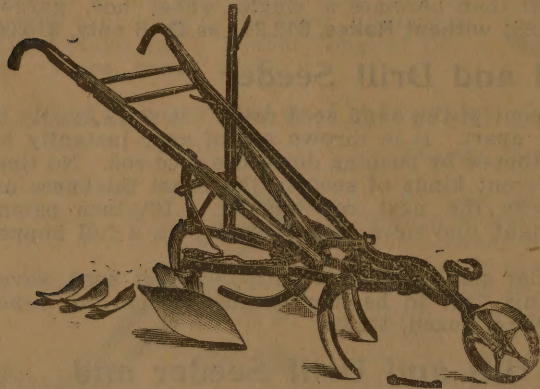

No. 18—This tool is the No. 16, with one pair 6-inch hoes only. Price, boxed, \$4.00.

THE "PLANET JR." TWELVE TOOTH HARROW, CULTIVATOR AND PULVERIZER.

This tool is offered as the very best known for its intended purpose. The frame is high. The blades are an inch wide, and of such shape as to work in the most thoroughly satisfactory manner, and to offer an unusual amount of wearing surface, the recurved throat of the tooth and the high frame preventing clogging. The reverse position is quickly given to the teeth by changing a single bolt in each. The frame is heavy and strong. The teeth are set straight with the line of motion, at medium width, and are interchangeable. They may be worn off three inches before requiring renewal and yet retain their original cutting width, and are cheaply replaced when worn. This tool has our lever expander and lever wheel, by which the depth and width may be changed instantly while in motion from 32 to 12 inches, and also a thorough pulverizer attachment, which leaves the ground in the finest condition. The pulverizer is controlled by a lever, which is operated instantly by the foot while in motion. For fine cultivation, either deep or shallow, or for working among small plants, this tool has no equal. It cultivates deep, without throwing earth upon the plants, and the teeth turn strawberry runners without injuring them.

Price, plain, \$3.00. With Wheel, \$3.50. Complete, with Pulverizer, etc., \$10.50.

THE "PLANET JR." NO. 8 HORSE HOE AND CULTIVATOR.

This is an improvement on the No. 6 Horse Hoe, and differs from it as follows:

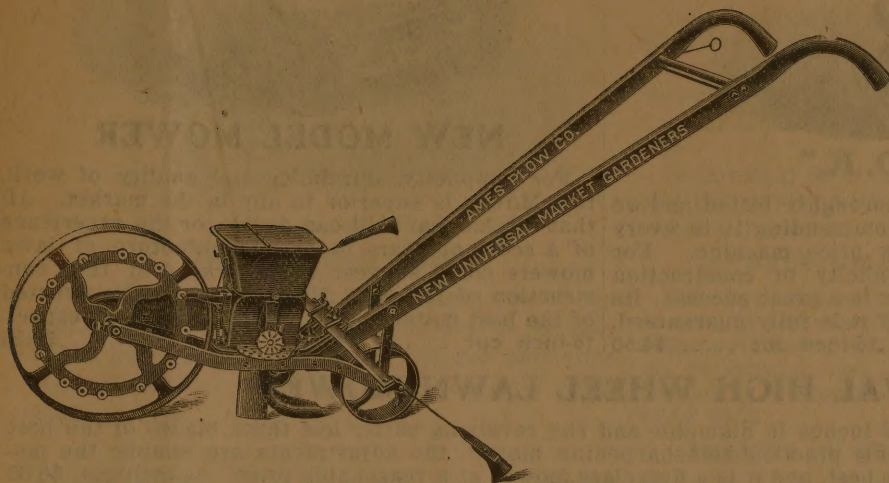

The frame is longer than usual and about one and a half inches higher, making a tool that will not clog easily. The standards are framed up hollow, with round throats of stiff steel; they polish quickly and free themselves readily from obstructions, and they clasp the frame and strengthen it. The depth is under perfect control by means of a new lever wheel and the new patented depth regulator; these are moved instantly in unison by a single lever, making exact work, steadying the machine and relieving the operator. The Expander. This is an entirely new pattern, superior to all other forms; exceedingly strong, simple, accurate and positive in all positions. Handles and Braces. These are also absolutely new and the most effective and stiffest combination known, at once

making the tool rigid, yet allowing every adjustment of handles in height and sidewise. The Reversible Side Hoes, patented, are an important part of the implement. As shown in the cut, they act as plows or hillers, but when turned end for end the tool becomes a genuine horse hoe, working so shallow and so close, without injury to the roots, that an immense amount of hand labor is saved. Every part is perfected to make the tool acceptable to the intelligent farmer, who knows the best is always the cheapest. Price, \$10.00; without Wheel, \$9.00.

THE "PLANET JR." NO. 6 HORSE HOE AND CULTIVATOR.

Chief among its advantages in the Lever Wheel, a necessity for particular work; the patent Lever Expander, changing the width instantly; and Handle Adjustment for height, and also sidewise for use in pole beans, grapes, blackberries, nursery stock, etc., and when covering. It also has the patent parallel frame, interchangeable and adjustable Hollow Steel Standards, reversible blades, sleeved bolt holes, etc. As a Horse Hoe, with side teeth reversed, it cuts close to the row without injury to the roots, leaving but little and in many cases nothing for the hand hoe. As a Cultivator the reversible teeth cut off and turn over the weeds in the most perfect style. As a Hiller, the side teeth work in combination with the rear shovel to perfection. Price, \$9.00; without Wheel, \$8.00.

NEW UNIVERSAL STEEL FRAME MARKET GARDENERS' SEEDER

A Special Market Gardeners' Seeder, capacity of seed box, 4 quarts. For planting either in drills or in hills. Designed to plant large quantities of small seeds without the waste incidental to the use of nearly all seeders, in stopping and starting. A brush in seed box furnishes agitation, but the instant machine is stopped the brush closes seed hole, and no seed can possibly drop until seeder is started again. A manual cut-off worked from handles is also furnished for convenience. The most exact results, especially on onion, spin-

ach, beet and other similar seeds may be obtained with this seeder. It sows all kinds of garden vegetable seeds. The dial has holes of all sizes and an indicator in plain sight on side of seed box registers them, as follows: $\frac{3}{4}$, $\frac{5}{8}$ x $\frac{1}{2}$, $\frac{1}{2}$, 7-16, $\frac{3}{8}$, 5-16, $\frac{1}{4}$ 7-32, 3-16, 3-32, $\frac{1}{8}$, 1-16 each. These holes may be designated in order as for Corn, Peas, Beet, Parsnip, Spinage, Radish, Onions, Carrot, Sage, Cabbage, Turnip and Celery.

It, however, rests with the market gardener to decide whether he should seed thick or thin, according to the vitality of the seed he is using, or the purpose of his crop. The Furrow Opener is of the correct shape, and does not salve the soil. The adjustable steel casing may be accurately set to gauge the uniform deposit of the seed, at any required depth, thus avoiding the risk of planting at irregular depths, or so deep in places as to destroy the seed. We furnish at slight extra cost a Seed Conductor specially designed for dropping Onion Seed for sets; and also another style of Seed Conductor for dropping a narrow row. The covering of small seeds should be shallow, while larger seeds should be planted deeper. The depth may be gauged as described. The drags will throw just enough of the loose soil over the seed, and the concaved roller then following compacts and presses the whole down evenly, thus also preventing too free circulation of air, hastening germination and helping to bring moisture to the surface.

The Improved Markers are capable of easy adjustment, in such manner that the "next row" may be indicated at any desired distance. They mark distinctly whether the ground is even or uneven. There are two of them, thus saving the trouble of throwing from one side to the other, and tending to preserve a better balance. The marker not in use may be raised out of position by the foot and there held, and as easily dropped into position again. Price \$12.00.

NEW UNIVERSAL HARROW CULTIVATOR

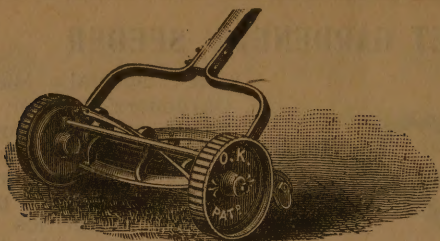

For fine work among small plants where it is desired simply to loosen and pulverize the soil, this style of Cultivator is unsurpassed. It is specially desirable in the working of strawberries. Adjustable and reversible steel teeth, diamond shaped, may be used either end up, and may be set either straight, or slanting backward or forward. One end of each tooth is cut plain, while the other end is curved and forged. It has 14 teeth, expanding lever and wheel lever. We recommend this implement as the strongest and best Harrow Cultivator made. Price \$8.00.

NEW UNIVERSAL HOLLOW STEEL STANDARD HORSE HOE AND CULTIVATOR

The new Universal Horse Hoes and Cultivators are recommended as strictly first-class and the peer of any similar implement on the market. The frame is made of special quality steel, and is longer and higher than usual to give better control of the implement and keep clear of trash. The tooth standards are pressed from hard sheet steel forming a hollow back and a round front. They are strong and easy of adjustment. The hoe standards take either hilling mounds or cultivating teeth, and may be turned all the way around to give any sideways angle desired, and to use the hilling moulds with point foremost, or the reverse. The expanding bars are strong, and are reinforced by the outside handle braces. The wheel lever and expanding lever are so shaped as not to interfere one with the other. It has the rear depth regulating wheel, which is operated by wheel lever in unison with front wheel, which keeps it perfectly level under all conditions. This may be detached if not wanted. The handles are of increased length to correspond with the long frame, and are adjustable. Attachments: Five Cultivator-Moulds, three Hoe Moulds, Expanding Lever and Wheel with Lever. Price \$8.50.

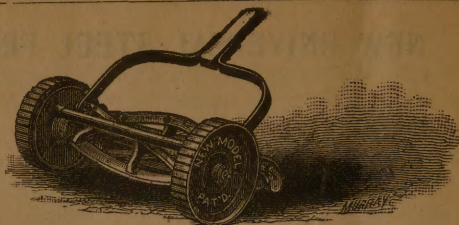

PLANT STAKES

We offer Bamboo Canes for staking plants as follows: Light weight, about 3 feet tall, at 60c; medium weight, about 6 feet tall, at \$1.00; strong, 8 feet tall, at \$1.25 per 100; also Painted Wooden Stakes, 8 inches tall, at 60c; 10 inches tall, at 80c, and 12 in. tall at \$1.00 per 100 here. Require to go by express.

THE "O. K."

This Mower has been thoroughly tested, and we have no hesitation in recommending it in every respect as a first-class low price machine. For lightness of draught, simplicity of construction and adjustment this mower is a great success; its quality is unquestioned, and it is fully guaranteed. 14-inch cut\$4.25 | 16-inch cut\$4.50

NEW MODEL MOWER

For simplicity, durability and quality of work, this Mower is superior to any in the market. All that mechanical skill can devise, or the experience of a score of years in the manufacture of lawn mowers could suggest are embraced in the construction of the New Model Mower. Constructed of the best material only and A1 in every respect. 16-inch cut \$8.25

RIVAL HIGH WHEEL LAWN MOWER

The driving wheels are 9 inches in diameter and the revolving cutter has three blades of the best quality of steel. It is the only practical self-sharpening mower, the adjustments are simple, the material and workmanship the best, and it is a first-class mower at a reasonable price. 16-inch cut, \$6.00

NEW MODEL HIGH WHEEL MOWER

This has all the good qualities of the famous "New Model," and in addition, besides other improvements, will cut higher grass than the ordinary mower. 16-inch cut, \$9.50.

THE LENNOX BALL BEARING MOWER

An excellent cheaper make of this latest and best style of Lawn Mower; 3 blades. 16-inch cut, \$7.50

THE UNIVERSAL HIGH WHEEL MOWER

This Mower, for cutting either tall or short grass, is intended to meet the requirements for a cheap, strong, substantial and light running machine. The driving wheels are 9 inches in diameter. The revolving cutter consists of a steel shaft, malleable iron flanges, and the knives are of extra heavy steel of the best quality. The adjustments and ratchets, while simple, are also positive, and cannot get out of order. We use on this Mower our double-edged bottom knife and noiseless wood roller. 16-inch cut, \$4.50 each.

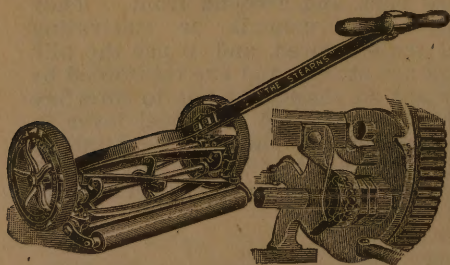

NEW EXCELSIOR HORSE LAWN MOWER

This is the best horse lawn mower made, and we have excellent testimonials from those to whom we have sold in Canada. It is furnished with a side draught attachment that permits the horse to walk only on the cut grass. We use the sectional castor wheels, which do not roll down the standing grass nor leave unsightly marks on the lawn. We can also furnish, when desired, a grass box attachment for collecting the cut grass, which is extra. It is made of the very best material throughout, and the greatest care is exercised in its construction. 25-inch cut, with seat, shafts and side draught attachment, \$60.00; 30-inch, \$80.00; 35-inch, \$100.00; 40-inch, \$120.00.

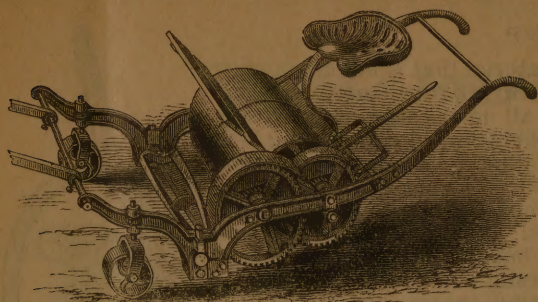

ROYAL BLUE BALL BEARING MOWER

In this Mower we offer to the public the simplest, lightest running and most perfect Mower of its kind produced. One screw adjusts both bearings and effectually takes up all lost motion, keeping the bearings properly adjusted more permanently than any device heretofore used on a mower. It has our improved ratchet, adjustable handle device for terrace cutting, and will do more kinds of work than any other mower on the market. It is made of the best material, handsomely finished, and we guarantee it to give perfect satisfaction. 16-inch cut, \$11.50.

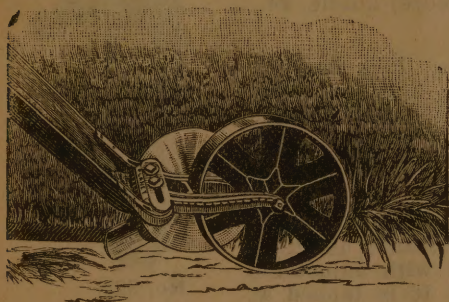

STEARNS BALL BEARING LAWN MOWER

The advantages of ball bearings are well understood. There is the same reason for their use on a mower that there is on a bicycle—to make it run easy. While it runs so much easier and with less noise than other mowers, it cuts faster, cleaner, more evenly, does not push the grass before it, but cuts every spear, leaving the surface of the lawn perfectly smooth. It costs no more than the average "high class" mower, yet it lasts much longer. It is therefore in the end cheaper, and does better work in shorter time with less fatigue to the operator. The stationary knife is of selected quality crucible steel, oil hardened and ground to a fine cutting edge. The cylinder knives are of special analysis open hearth steel, oil hardened, and the temper drawn just enough to permit of their being sharpened with a file, yet so hard that they will not become nicked. All oil holes and adjusting screws are easily reached from the upper side; there is no necessity for turning the mower over for oiling and adjusting. The notched roller arms which lock into corresponding notches in the side plate allow parallel adjustment of the roller. Price, 16-inch cut, \$9.00.

**Horse Lawn Mower.****BEST GARDEN HOSE.**

We offer Anchor Brand 3-ply Hose, one of the best grades, as follows: $\frac{1}{2}$ inch, \$14.50; $\frac{3}{4}$ inch, \$17.00 per 100 feet; couplings, 25c per pair; nozzles, 75c each. It is poor policy to buy a cheap grade of hose.

**STERN'S REVERSIBLE LAWN SPRINKLER.**

Throws either a high or low spray over an unusually wide area by simply reversing the cap.

Only two pieces and brass spring in its construction.

May be instantly adjusted for any pressure of water

Japanned finish, with nickel plated, non-rusting cap.

Is threaded to fit standard $\frac{3}{4}$ -inch hose coupling, and is provided with an internal rubber packing.

Price, 75c each.

PRESTON LAWN SPRINKLER.

We offer the best Lawn Sprinklers we have seen as yet. Sprayer is about 6 inches high and throws a splendid spray either high or low, and covers a lot of ground; has 3 revolving arms. It is not necessary to stop the water to move the sprayer. \$1.50 each.

PLANET JR. GRASS EDGER.

Extreme Neatness is the great secret of attractiveness in grounds surrounding a house. The Grass Edger assists wonderfully in producing this effect. It will edge either straight or curved work, paths, drives, open borders or flower beds, at a speed of a mile an hour. It should be the constant companion of a lawn mower.

Strawberry Growers find the Grass Edger, with the hoe removed, a rapid and perfect tool for cutting off surplus runners. Packed, weight 26 lbs. Price, \$7.00.

EUREKA WEED KILLER.

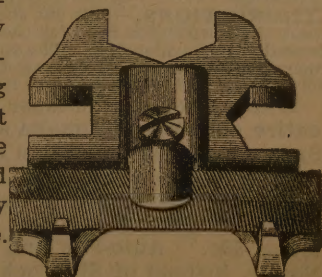

This preparation is truly a gardener's friend if applied as directed when the ground is moist so that it can get at the roots. It will destroy all weeds, moss, etc., on gravel paths, drives, stable yards, etc., and keep them under the whole season. In tins, contents of one of which, mixed with water, is sufficient for 100 square yards of path. Directions on tins. Price, \$1.00 per tin.

THE GEM LAWN CLEANER.

This machine can clean your lawn more thoroughly and quickly than three or four men can do it with hand rakes, and it will greatly benefit the turf. It leaves the grass standing up straight and strengthens up crab grass and other running weeds so they will be cut closer by the lawn mower and sooner destroyed. It is made of metal, wood and canvas, and is put together in the most durable and thorough manner. This combination makes it lighter and less noisy than all metal. It combines strength and durability with light construction. It cleans twenty-four inches—longer rakes make the work too heavy, and any shorter do too little work; only one size is made. A strong current of air, created by a rapidly revolving fan with metal teeth, is the principal by which this machine cleans a lawn. The metal teeth rake up everything on the surface of the lawn, in combination with the current of air, carry it to the canvas receptacle or basket, which is large and is easily emptied when full. Cut grass left on the lawn smothers the new growing shoots. \$15 each.

**ROYAL SHARPENER AND WRENCH.**

make lawn mower made from highest grade crucible steel specially tempered. Adjustable, durable, light and uncumbersome, having 8 sharpening cutting surfaces, sharpener and 3-nut wrench combined. To use see that edges of blades are free from grass and paint. Place the sharpener on the edge of the blade. Hold the bevel gauge on the bevel against the side and push the sharpener firmly across the blades. A few strokes will instantly sharpen the mower to the requisite bevel and produce a keen bevel edge. Price, \$1.00, postpaid.

MYERS' BUCKET SPRAY PUMP.

This Spray Pump is constructed entirely of brass, a material that is not affected by the poisonous arsenites used in different formulas for spraying fruit trees, vines and shrubbery. It is so arranged that the labor of pumping is all on the downward stroke of the piston and nothing on the top; the effect of this operation while pumping is to hold the pump down, the footrest steadies the pump, holding it in proper position. It is provided with a large air chamber and has ball valve. The pressure is held uniformly in the air chamber and on the hose so that the nozzle throws a continuous spray, and is not affected by the movement of the plunger. Will throw a solid stream 50 feet, and is of unusual value for washing windows, buggies, and extinguishing fires, sprinkling lawns, flowers, etc. For spraying it is arranged so as to discharge a fine jet at the bottom of the bucket and keep the solution thoroughly mixed and agitated, a feature peculiar to this pump only and a very necessary feature to a spray pump.

No. 325. Brass Pump with Agitator, complete with hose, graduating Vermorel, fine coarse spray and solid stream nozzle and malleable footrest, \$3.50.

Eight foot Extension Pipe, for same, 50 cents.

MYERS' LEVER BUCKET SPRAY PUMP.

This is an improvement on the above pump, being constructed on the same principle but differing by having an extra large air chamber and a lever handle which add greatly to the ease in pumping; it has also a top casting to attach to a barrel if preferred. Price, complete with agitator, hose and graduating Vermorel nozzle, \$4.

MYERS' IMPERIAL BARREL SPRAY PUMP.

This pump is made of brass, and is powerful and easy to operate. It is made on same principle as the Bucket Pump, but larger—has lever handle, 2-inch cylinder and air chamber, patent agitator, ample capacity for two streams, and is fitted with a top casting to bolt to chime of barrel. Complete, with 5 feet of $\frac{1}{2}$ -inch 3-ply hose and graduating Vermorel nozzle, \$7.00.

MYERS' FOUNTAIN KNAPSACK PUMP.

It is constructed of first quality of galvanized iron, with round corners, built precisely the same as our regular Myers' Knapsack, with removable strainer and tight lid, which prevents liquid from splashing on operator. It is fitted with adjustable straps so as to be carried on the back, or can be carried by bail. It is tapped at both right and left hand lower corners, and fitted with brass female ends, to which hose is attached, either one or two strings of which may be used at one time. When one hose only is used, the other opening is closed with a metal plug furnished for that purpose. The hose and bulb used are made of the best white rubber, and protected at each end by coiled wire to prevent breaking. The valves are made of brass and will not corrode, have large openings which permit the free flow of water, and shut off instantly when under pressure. The nozzle is made of brass, nickel plated, has 50 small openings, and throws a spray 6 feet wide at a distance of 12 feet. The pump is operated by grasping the bulb in the hand and compressing it, which causes a spray to be thrown any distance from 3 to 15 feet if desired; on relaxing the pressure on the bulb it expands, refilling instantly, when the same operation can be repeated. To shut off flow of water entirely, use valve on hose for that purpose. The operator can cover one or two rows of plants or vines if desired, and do the work at a rapid walk, thus covering a large amount of territory in a very short time. Holds 5 gallons. Weight 52 lbs. when full. All working parts are brass.

Pump, with one tube, rubber bulb and rose, \$3.50. Pump, with two tubes, rubber bulbs and roses, worked by both hands, \$4.50.

MYERS' KNAPSACK SPRAY PUMP.

The tank holds five gallons, fitted with lid and strainer, which can be removed. The pump is our regular Brass Bucket Spray Pump (described above), with large air chamber, ball valves, solid plunger and agitator. It is so arranged that no water can drip on the operator. The pump can be removed easily. The pump is also fitted with a handle so that the operator can set the knapsack on the ground and work pump with handle. Can be carried by hooking snap in staple on the opposite side provided for that purpose, making a neat handle. The handle lever can be shifted from right to left shoulder at will. Has brass stop-cock at end of hose. No. 547. Pump fitted with 5 feet $\frac{1}{2}$ -inch hose, pipe extension and Bordeaux or granulated Vermorel Spray Nozzle, which can be graduated from a fine mist spray to a solid stream, or shut off entirely. Galvanized Tank, \$6.50. Copper Tank, \$10.00.

THE AUTO-SPRAY.

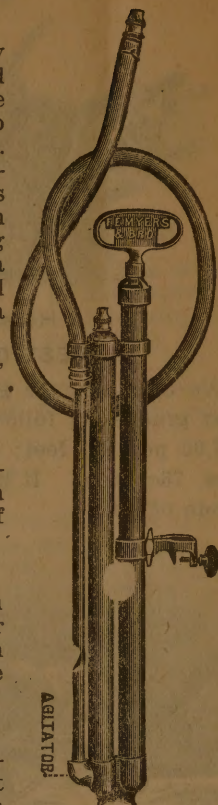

A self-operating or automatic sprayer. You hold the hose, the machine does the work.

The climax of all Sprayers; combines every conceivable point of excellence, including economy, durability, low price and ease in carrying and operating.

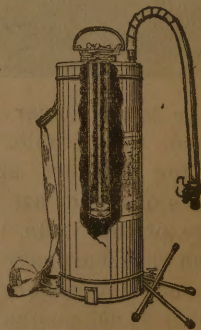

DIRECTIONS.—This cut shows the air chamber and reservoir combined. Fill the reservoir not more than two-thirds full with the solution ready for spraying, insert air pump at the end of can, and all is ready for the operation. The sprayer being carried by the shoulder strap leaves both hands of person operating with nothing to do but direct the spray. Spray can be made to flow slower or faster by merely turning the cock of the spraying nozzle, and will throw either a cloud-like shower or a solid stream.

A few strokes of plunger in air chamber will compress enough air to discharge the entire contents and make a continuous stream for 9 minutes. This means that the Sprayer can be charged in 15 seconds, when it will work uninterruptedly long enough to spray $\frac{1}{4}$ acre of potatoes. Weight, empty, 7 lbs; loaded, 39 lbs; capacity about 4 gals.

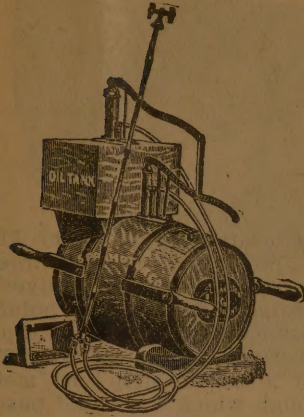

Prices—"Auto Spray," complete, galvanized steel tank, \$5.50; with brass tank, \$7. Extras—Extension pipes, 2 ft. lengths, galvanized steel, brass ends, 40c.; solid brass, 50c. Auto-Pop and Auto-Choke Nozzle, \$2.00. Auto-Pop and Auto-Choke Nozzle, instead of Stopcock, \$1. We highly recommend the Auto-Spray.

No. 325.

SPRAMOTOR OUTFITS

The Spramotor is so favorably known in Canada that we can only say we know of no better spraying machine. These machines were awarded the Government Spraying Contest, the Gold Medal at the Pan-American Exhibition, and the highest awards at Glasgow, Toronto, Ottawa and Halifax, and purchasers may be sure of getting strictly high grade machines.

Prices for special outfits on application.

The Spramotor Combination to apply crude oil and water for the destruction of San Jose Scale, recommended by the Department of Agriculture, combining the liquids at the nozzle.

Outfit "A" o/o, for one nozzle, 10 ft. double hose, complete as shown. \$29 00

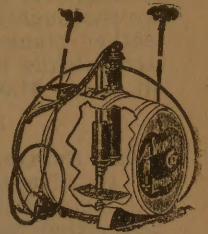

Outfit "B" 1/0, for two nozzles or one double line of 10 foot hose, complete as shown 35 00

Extra for two lines of hose, with two nozzles on each. 10 50

Geo. E. Fisher, Chief Inspector, says this is the only reliable machine to apply oil and water to trees.

Same, with No. 1, all brass	25 00

THE FAULTLESS SPRAYER.

Made in brass and tin; throws spray as fine as mist. Adapted for the destroying of every kind of insect. It is economical, will not drip; and its shape is such that as it sprays up or down, all the liquid is pumped out, leaving but a spoonful in the can. It is absolutely the best constructed sprayer of its class ever offered to the trade. For strength and durability it has no equal. The tapering point to air chamber gives great force to the spray; carrying it to the greatest possible distance. This tapering tube also allows the air chamber to be fastened to the tank in the most substantial manner. The tube of air chamber is soldered to top of reservoir and also supported by a broad strip of metal passing over point of tube. The point of air chamber and small tube through which the liquid passes are thoroughly protected from damage in use or shipping. Piston rod is spring steel wire and cup leather plunger. One-half tablespoonful of Paris Green and once filling with water is sufficient to destroy all the bugs on 1,300 hills of potatoes. Prices, Tin with Galvanized Tank, 65c.; postpaid, \$1.00; all Brass, \$1.00; postpaid, \$1.35.

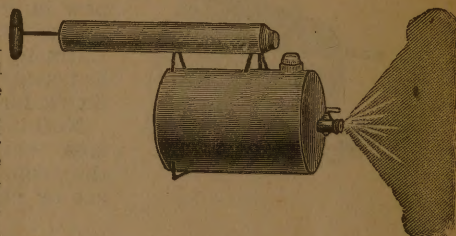

THE DOUBLE TUBE LIGHTNING SPRAYER.

This Sprayer has a detachable glass reservoir, the pattern of a Mason fruit jar, and any such will fit it. Its advantages are that you can see the ingredients mixing; that it will not corrode or rust out like metal, and owing to its shape the ingredients are kept churned up. The screw cap is made of heavy zinc, and the air chamber and jacket of reservoir made of heavy tin, painted bright red. Having two tubes make it double the capacity of other sprayers, and at one operation it produces two sprays covering a radius of $2\frac{1}{2}$ feet. The reservoir filled with water and one teaspoonful of Paris Green is enough for 2,000 hills of potatoes. Price, 75c. each. These Sprayers cannot go by mail. We can send safely by express, at purchaser's expense.

CAUTION—Always see that the leather plunger is kept well oiled, and no wrinkles left in leather when placing same in air tube.

UTICA BLIZZARD SPRAYER.

Complete with special stopcock and nozzle. The handiest and easiest working Sprayer made. After filling three-fourths full and pumping in about ten strokes of air, a continuous mist-like spray is thrown, which will last many minutes. Potatoes, etc., can be sprayed as fast as you can walk, saving a large amount of time and labor. Removing the two pieces of nozzle a fine spread spray is thrown direct from the stopcock, which can be varied by a slight turn of the key to a coarse spray, 12 to 15 feet high, or a stream 15 to 20 feet high. It is made of galvanized iron; also with brass tank. It holds one gallon, is simple in construction, easy to work, easy to fill and handy to carry. It is light, strong and neat; a lady can use it. All mixtures should be strained. Reversing the key forces out any obstruction that may get into the stop cock, making it practically impossible to clog. Special directions for the use of each part on every sprayer. It does away with the hard labor attending constant pumping of small sprayers now on the market. And it is sold at a price that places it within the reach of all. See that cap is screwed on tight. Price, with galvanized tank, \$1.75 each; with brass tank, \$2.50 each.

SINGLE TANK UTICA HIGH PRESSURE SPRAYER.

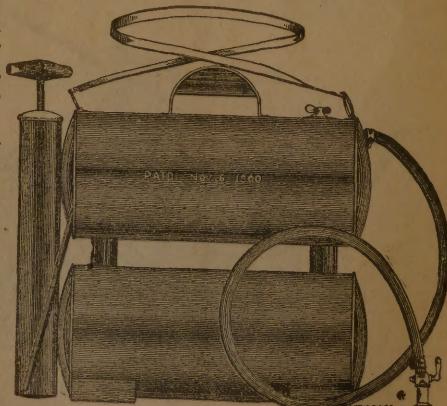

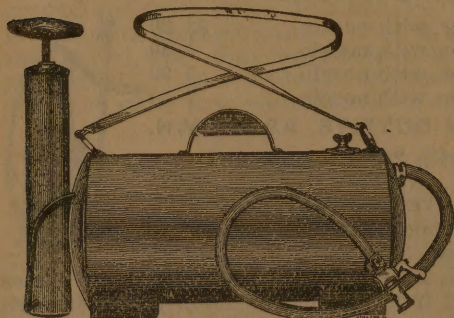

The simplest, strongest and best; easiest to keep in order, all latest improvements, brass checkvalves and trimmings. It holds three gallons and will carry a continuous spray for ten minutes. Gives a splendid spray for all kinds of work. Is fitted with shoulder strap for carrying, and also has a stopcock and splendid nozzle.

Sprayer made of galvanized iron, \$4.00 each.

Sprayer made of copper, \$6.00 each.

DOUBLE TANK UTICA HIGH PRESSURE SPRAYER.

Made with double cylinders of galvanized iron (is also made of copper), hence is capable of a very high pressure. It will throw a fine stream over the average fruit tree, and once charged it works continuously. It is light, though very strong, is perfect in mechanical appointments and perfect in execution. It holds four gallons, and is fitted with shoulder straps, 30 inches of hose, special stopcock and a splendid nozzle, suited to all kinds of work. Sprayer made of sheet steel, \$4.75. Sprayer, made of 20 ounce copper, \$7.00 each.

The Little Giant Geared Hand Broadcast Seed Sower

The greatest labor-saving invention of the age. The strongest, prettiest, lightest and easiest running Seeder made. The agitator or force feed is of great advantage. It has also, among other advantages, a pressed tin distributing wheel, hand hold on the side, and no feed plate to carry. They will pay for themselves many times in one season. Satisfaction guaranteed. It will distribute all kinds of Fertilizer, Land Plaster or Ashes. Flax and Clover Seed, 36 feet to the round; Wheat, 50 feet to the round; Buckwheat, 46 feet to the round; Barley, 40 feet to the round; Timothy Seed, 27 feet to the round; Oats, 36 feet to the round. Price, \$1.75.

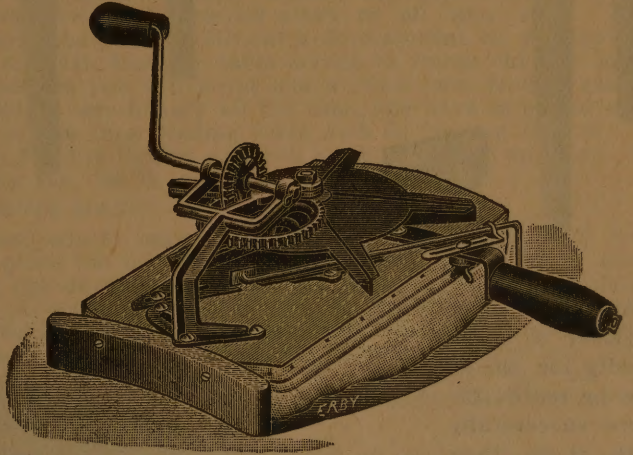

The Little Giant No. 2

Made by same manufacturer and on same plans as the above Seeder, but not quite so large, and consequently will not do as much work in the same time. It is also of lighter make, but will do just as good work. Price, \$1.50.

We highly recommend these Seeders, and have many letters testifying to their great usefulness.

The cheapest way to send either Seeder is by express, which costs 25c to 50c to most places. To out-of-the-way places we can mail them for 75c extra.

BINDER TWINE

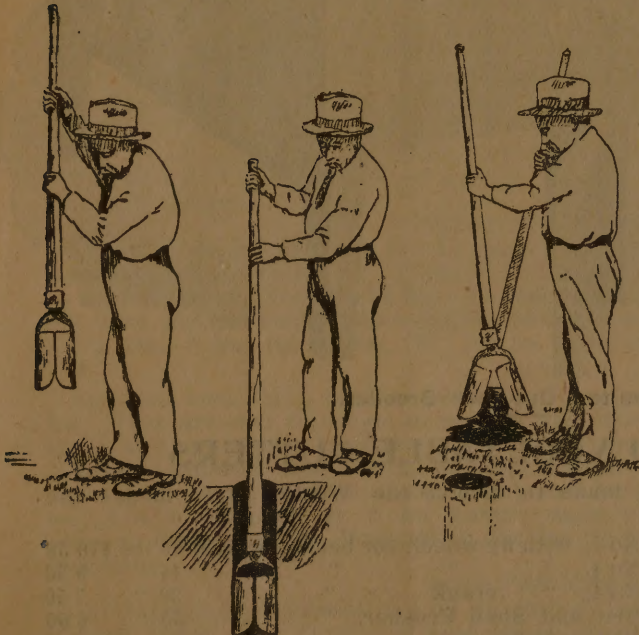

We offer Brantford Cordage Co.'s famous Binder Twine. This cannot be excelled by any on the market, and we recommend their best brands, viz.: Gilt Edge, 650 ft. at 15c lb., and Gold Leaf, 600 ft. at 14c per lb. It pays to buy the best twine, it goes much further; runs smoother, and there is no trouble. Prices subject to market fluctuations.

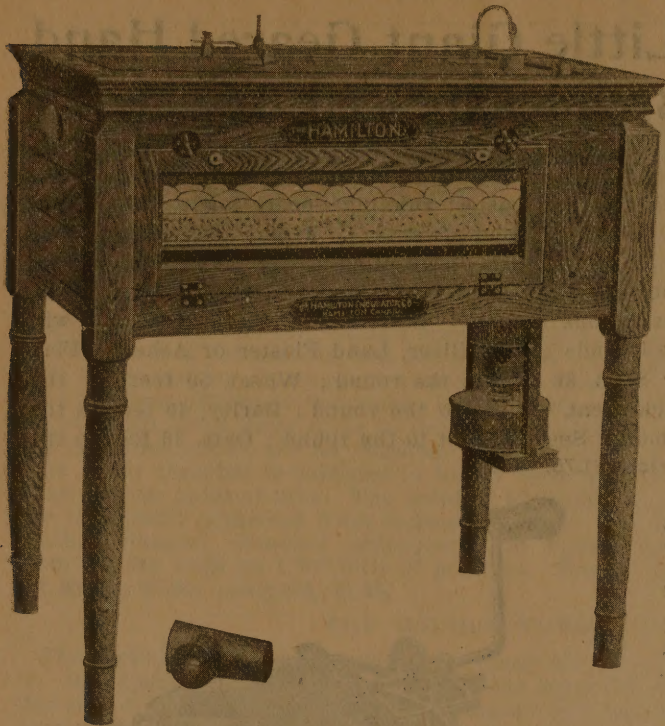

Griffin's Patent Post Hole Digger

Makes work a pleasure. For any farmer who has fences to put up or repair it is invaluable. It does the work in half the time that it takes with the shovel or spoon, does it much easier, and makes a better job. It will sink a hole close beside any object and will work in any soil except hardpan.

The surface soil is first loosened up with the digger to a depth of 6 inches, and then it is clear sailing, and the deeper the hole the easier it works. By simply loosening one bolt it is made into two excellent shovels. We have excellent testimonials from both the G. N. W. and C. P. R. Telegraph Co.'s here, who use this digger for putting in their poles. Price \$4.00.

Active Agents wanted, to whom good sized territories will be given. Liberal Commission. Write for terms and particulars.

No. 2 Hamilton.

HAMILTON INCUBATORS

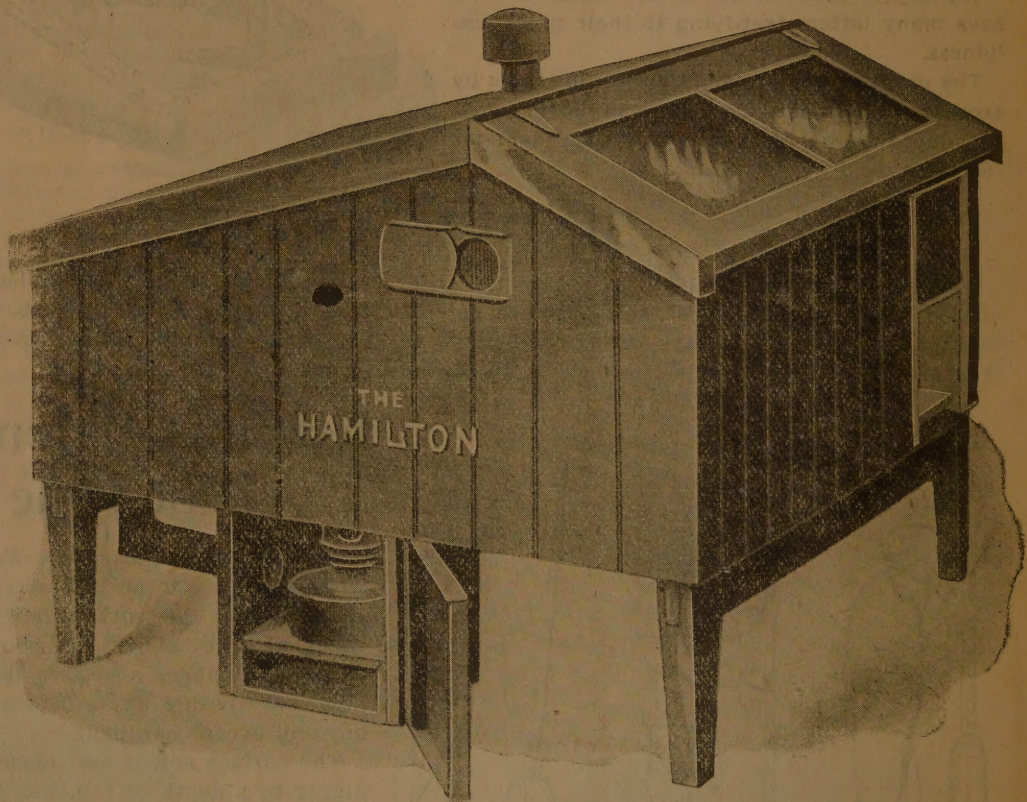

This is a strictly first class machine, easily operated, well made and of best material, and its hatching qualities are not surpassed by any machine on the market. Trays are strong plated steel mill wire, thermometers the best, and Smokeless Sun-hinge Burners are used. Egg Tester supplied with each machine. They were awarded diploma at National Exhibition, Toronto, last fall, and we will furnish to all applicants catalogue with list of testimonials. It is not a cheap machine, but the best, and guaranteed to give satisfaction.

Prices. No. 1, 40 eggs, \$11.00 ; No. 2, 60 eggs, \$15.00 ; No. 3, 120 eggs, \$20.00 ; No. 4, 240 eggs, \$27.00. Prices here.

HAMILTON BROODERS

An out-door Brooder is a necessity, for chicks can be reared far more successfully with these than with hens. These are well made like the Incubators, and are guaranteed to give satisfaction. It has an artificial heating arrangement and is built to stand all sorts of weather. An Out-door Brooder is preferable to an in-door one, though we make both, for the out-door one can be used either indoors or out. It has the best burner and lamp on the market.

Price : Indoor, 120 chicks, \$9.00 here ; outdoor, 120 chicks, \$11.00 here.

Hamilton Out-Door Brooder.

GREEN BONE MEAT AND VEGETABLE CUTTERS

The famous Webster & Hannum make, the only make to receive the World's Fair medal—the only machine having a truly automatic feed.

PURINA POULTRY FEEDS

A Perfect Poultry Feeding System For Breeders, Poultrymen and Housekeepers, Insuring Healthy, Rapid Chick Development, and Increased Egg Production

PURINA SCRATCH FOOD.

Made from a dozen varieties of choice grains and seeds, each selected to perform a special function in keeping the hens in perfect physical and laying condition. These are mixed in proper proportions to make a perfectly balanced ration—and ground. Feed according to directions, thus keeping the hens' blood in thorough circulation, which makes them lay. **Directions for Feeding**—For every dozen hens use a slack quart of Purina Scratch Feed in the spring and summer, and a heaping quart in the fall and winter. Bed the pen with four to six inches of straw (litter) scattering the food in thinly, so that the hens will have to work it out. When you can keep your hens scratching, their blood is circulating and good egg production is bound to follow. 8 lbs. 25c, 25 lbs. 60c, 40 lb. bag 90c, 100 lb. bag \$2.00.

PURINA BABY CHICK FEED.

Composed of choice grains and seeds—more than a dozen kinds, carefully selected—perfectly granulated to precisely the right degree for the youngsters, and screened clean of all fine stuff. This makes a perfectly balanced ration for healthy, hearty and rapid chick development, as well as best digestive results. Avoid feeding meal or other mash foods or table scraps to young chicks. In using Purina Baby Chick Feed according to directions you will never lose a chick from feeding causes. **Directions for Feeding**—Little chicks, like children, are hungry all the time, and have to be fed sparingly every few hours in the day. If possible, bed their feeding place with an inch or two of cut alfalfa or clover. Scatter Purina Baby Chick Feed in lightly, as much as they can eat up clean. Do not overfeed. 8 lbs. 25c., 25 lbs. 60c., 40 lb. bag 95c, 100 lb. bag \$2.10.

PURINA MASH.

Green food and meat ration for moulting and winter eggs. Composed of meat scraps, mill feed, and alfalfa meal from our own mills. This gives the necessary combination of green foods, meat, and medicinal qualities necessary for highest egg development. Where all other feeds have failed to produce eggs Purina Mash has succeeded. A recent experiment with it succeeded in bringing up the egg yield of a flock of White Plymouth Rocks to Leghorn standard. No medicated foods, conditionals or specifics required when Purina Mash is used. **Directions for Feeding**—Scald or boil. Feed as much as the hens will eat up clean. Mix in table scraps that can be mixed fine. Do not use coarse bits of scrap, whole bone or gristle. 8 lbs. 25c., 25 lbs. 65c., 40 lb. bag \$1.00; 100 lb. bag \$2.20.

PURINA FATTENING FEED.

A careful, intelligent combination of the best grain known for finishing off market fowls quickly and profitably; ground to a meal. It can either be mixed with sufficient water for a crumbly mash or made into a gruel for use in the stuffing machine. 8 lbs. 25c, 25 lbs. 65c, 40 lb. bag \$1.00, 100 lb. bag \$2.15.

PURINA ALFALFA MEAL.

Alfalfa Meal is rapidly taking the place of clover meal, as a green feed, and is far more nutritious, containing twice as much protein. It has a rich green color that looks as succulent and appetizing as it really is. But, the ordinary commercial alfalfa meals are expensive—too much bulky fibre—the coarse stems and stalks ground up. We have built two mills and equipped them at heavy expense with special machinery, to grind just the tender, succulent tops and tendrils. We have the most successful mills in the world for this purpose. Our alfalfa meal is cleaner, purer, more succulent, more appetizing—and more economical because it contains more nutrition to the pound. 8 lbs. 25c, 25 lbs. 65c, 40 lb. bag \$1.00, 100 lb. bag \$2.25.

GALVANIZED DRINKING FOUNTAIN.

The best up-to-date drinking fountain; easily fitted, easily cleaned, and will not burst if water freezes in them. 2 qt. 40c., 4 qt. 60c, 8 qt. 75c each here.

ACME SPRING LEVER POULTRY PUNCH.

The best and easiest operated machine for marking chicks, etc., so as to keep record of them. 45c each postpaid.

IMPROVED CHAMPION LEG BAND.

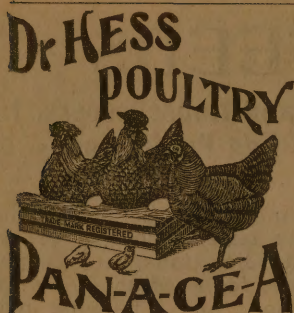

This is made in one piece, in two sizes, adjustable to fit any fowl. Held by double lock, it is impossible for them to fall off. Made of aluminum or copper. Bend broad part of band on your finger to conform to shape of fowl's leg. Put small end through loop, draw through till it fits loosely on the leg, turn the end back, then bend the two lugs over the loose end. Cut off surplus with shears. 1 doz. 25c., 2 doz. 40c., 4 doz. 75c., 100 for \$1.40, postpaid.

CLIMAX LEG BANDS.

They are neat, light, durable, secure, and are guaranteed to stay on when once placed on the fowl's leg. They are easy to put on or remove, and no tools are required. The rings are made of steel or brass, and are so bent that the tag acts as a clasp, holding them securely in place. We have them in several different sizes for the different breeds. No. 1, for Bantams; No. 2, for Mediterranean females; No. 3, for Mediterranean males and American females; Nos. 4 and 5, for American males and Asiatic females; No. 6, for Asiatic males and Turkeys. They are not made for pigeons. Numbers run from 1 to 100. Postpaid—1 doz. 30c; 2 doz. 50c, 4 doz. 90c, 100, \$1.60. State breed when ordering.

POULTRY CRAMMING MACHINE.

Our Cramming Machines are on an entirely new and improved principle, for the force-feeding of turkeys, fowls, etc. Quality of food can be regulated to a minimum. Is more simple in construction, having less working parts. The plunger is self-feeding. Entire absence of air in the plunger. Everlasting wear. Is easier worked. Under the complete control of the operator. \$12.00 each here.

**DR. HESS' POULTRY PAN-A-CE-A.**

Makes hens lay, prevents all diseases and cures roup, cholera, gapes, leg weakness, etc. For chickens, turkeys, ducks and geese, something every poultry man needs, to have success in the business. It promotes the general good health of the fowl, greatly quickens digestion, and being a tonic, works all the various organs like a piece of machinery. Use Pan-a-ce-a and make your hens lay when eggs are at a high price. It is very valuable for young chickens when they are growing. 24 oz. package, 35c, postpaid 60c; 5 lb. package 85c here.

PRATT'S POULTRY FOOD.

A necessity for all who keep poultry; a preventative as well as a sure cure for all poultry diseases, and a guaranteed egg producer. Makes larger fowls, and quickens the growth of young chicks. 8 oz. pkg. 10c, postpaid 20c; 26 oz. pkg. 30c, postpaid 60c; 5 lb. pkg. 75c, 12 lb. pkg. \$1.25, 25 lb. pkg. \$2.50 here.

IDEAL POULTRY FOOD.

This excellent preparation is a concentrated food made from the most nutritive ingredients possible, and will not injure fowls. Its results are secured not by abnormally exciting the digestive organs, but through its power of invigoration and building up the whole of the animal system. Results from carefully conducted experiments extending over a long period have shown conclusively that it is the best egg producer in existence. Splendid for turkeys, geese, chickens, ducks, pigeons, pheasants and all aviary birds. 26 oz. pkg. 25c, postpaid 55c.

DR. HESS' STOCK FOOD.

The best food for horses, cattle, hogs and sheep; thoroughly reliable, and guaranteed to give satisfaction. 7 lb. package, 65c; 12 lb. package, \$1.00; 25 lb. package, \$2.00; 50 lb. package, \$3.75; 100 lb. package, \$7.00 here.

PRATT'S ANIMAL REGULATOR.

Highly concentrated. Cures hog cholera, makes pigs grow quickly, dairy cows produce more butter and milk, stops slinking of calves and makes them healthy, and regulates horses. 21 oz. pkg. 30c, postpaid 55c; 42 oz. pkg. 60c here; 72 oz. pkg. 90c here.

PRATT'S STOCK FOOD.

An excellent food for horses, cattle, hogs and sheep; guaranteed to give satisfaction, and thoroughly reliable; largely used. 7 lb. pkg. 65c; 12 lb. pkg. \$1; 25 lb. pkg. \$2; 50 lb. pkg. \$2.50 here.

PRATT'S LOUSE KILLER.

Kills lice, ticks, fleas, moths, ants and all kinds of vermin. Probably no single enemy is so universal among stock and poultry as lice. It is not a poison, but lasting, effectual, convenient to use, and the cheapest article that can be had. It is put up in round cans with perforated lids, ready for use. As a deodorizer and disinfectant it is entirely reliable for poultry houses, stables, pigeon lofts, pig pens, sheep stables, sinks, water closets, vaults, cess pools, garbage boxes, kennels, etc. It serves as an absolute preventative of diseases, and will speedily destroy all parasites that inhabit such places. It is especially adapted for the destruction of sheep ticks, a powder and easy to apply, overcoming the great disadvantage of dipping.

and can be applied in cold weather when the wool is long and the ticks are most numerous. 5 oz. package 10c, postpaid 15c; 16 oz. package 30c, postpaid 50c; 2 lb. package 60c here.

DR. HESS' HEALING POWDER.

Cures galls, scratches, grease heal, cuts, ulcers, burns, thrush, foul in the foot, indolent sores and open wounds of every description. It prevents excessive granulation, commonly known as proud flesh. It is also a reliable antiseptic. Flies will not attack wounds treated with this powder. 4 oz. tin 25c, postpaid 30c.

GRANULATED POULTRY BONE.

A little larger than wheat, and can be fed like any other food in grain, about one handful to every five fowls daily or every other day. In either manner it furnishes a valuable food for poultry at all seasons of the year. 8 lbs. 25c, 100 lb. bag \$2 here.

CRUSHED OYSTER SHELL.

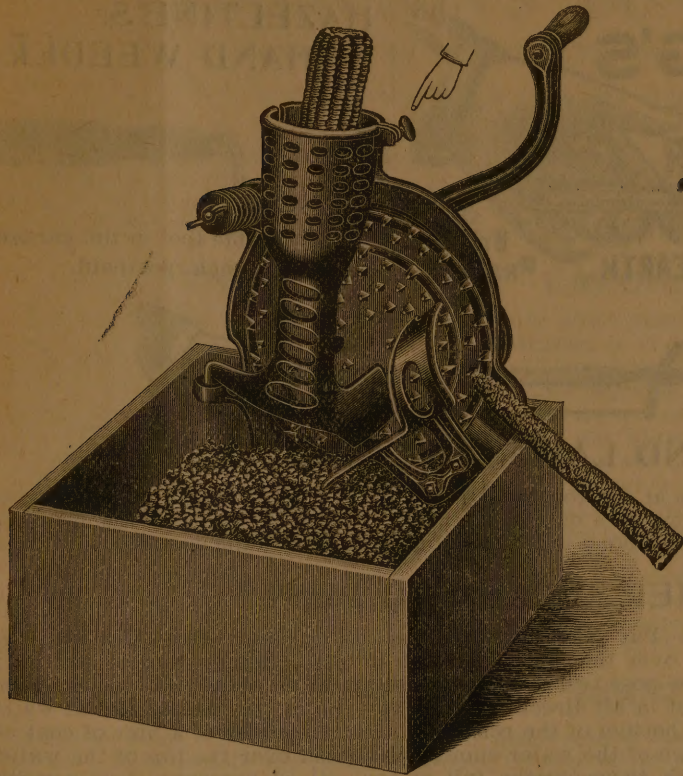

Peerless brand. All breeders of poultry recognize the fact that a grit of some kind is a necessity. Even where the fowls range, strength and plumpness are gained by providing them with Crushed Oyster Shells. The most frequent cause of the hens not laying is the absence in the food of carbonate of lime. As it is practically pure carbonate of lime, it supplies, when fed to poultry, this most essential element, and greatly aids in the formation of the egg. Stone, lime, gravel, grits, etc., in fact, nothing of a mineral character will equal it in beneficial results. 5 lbs. 10c, 25 lbs. 25c, bag of 100 lbs. 75c here.

MICA-SPAR CUBICAL GRIT.

One of the principal reasons why so many do not have success in raising poultry is that the poultry cannot obtain sufficient grit to enable them to masticate their food in a proper manner, and strange to say, this is greatly neglected by a great many. It is necessary to feed some gritty material. It keeps and makes hens healthy, and if it is used you do not require oyster shells. 5 lbs. 10c, 25 lbs. 25c, 100 lb. bag 75c here.

BLOOD MEAL—4 lbs. 25c, 25 lbs. \$1.25, 50 lbs. \$2.15, 100 lb. bag \$4.00 here.

MEAT MEAL—7 lbs. 25c, 25 lbs. 75c, 50 lbs. \$1.25, 100 lb. bag \$2.25 here.

Ames Hand Corn Shellers With Separator

Note the regulating thumb-screw, enabling the sheller to be set for either large or small corn. It shells clean and without effort. Good work may also be done on Pop Corn. There are no breakable parts, as the light pieces are malleable. Clamps for fastening to box, with bolts and wrench furnished with each sheller. Chilled shaft and bearings. Painted wine color and varnished, with gilt ornamentation. Weight, racked, 20 pounds. Price \$2.50.

Silkaline

For florists, for stringing Smilax and other trailing plants. It is very strong, and a fast color; color green, and does not fade; made in three sizes, fine, medium and coarse. 2 oz. spools, 25c each; per lb. \$1.75; postpaid \$2.00 per lb.

PATENT SIEVES

They are easily managed and not liable to get out of repair; can be adjusted to a large number of different sized meshes. They are worth 10 times their cost to every farmer.

No. 1 Sieve will separate Plantain, Daisy, Buckhorn, Wild Carrot, etc., from Clover Seed; Red Top and Plantain from Timothy, and Timothy from Clover Seed. Price, each, here, \$1.75.

No. 2 will separate Rye, Cheat and Cockle from Wheat. Price, each, here, \$1.75.

We can furnish any of the books named above by mail, postpaid, at prices quoted.

SURE THING FLY KILLER OIL

The best compound for keeping flies off horses and cattle and killing lice on hens, cattle, etc. Was sold with big success last season, and is pronounced by the trade who handled it superior to any other. In 1 quart tins, 25c.; in strong gallon tins, 75c. here.

THE LIGHTNING POTATO EYECUTTER

does the work many times faster and more accurate than the knife. It is gauged to cut enough flesh with each eye to strengthen and vitalize it, and does the work in a scientific manner. No matter how small a crop you intend to plant you should use this cutter. It has been proved conclusively that potatoes cut to a single eye give the best results.

Price 30c by mail, postpaid.

HAZELTINE'S HAND WEEDER

An invaluable tool in the garden.

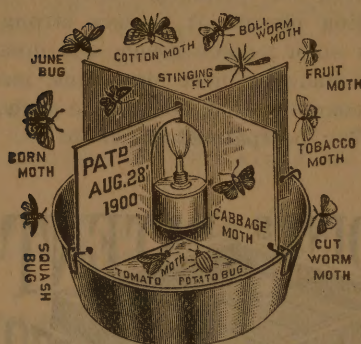

30c each, postpaid.

CLEVELAND LAWN WEEDER

No More Broken Backs.—This device gets at the root of the evil and removes it bodily. The curved edge of blade enters and loosens the soil; pressure on the lever then causes the toothed jaw to grasp the plant, and a slight pull suffices to dislodge same without disturbing surrounding sod. Price 75c each

MOTH CATCHER—DEATH TO PESTS

S.A. HAZELTINE'S MOTH CATCHER

be without this great device to make perfect fruit crops, etc. The price is put so low all can use it—only 85c small size, and \$1.00 for large size. Torch and all ready to set on tub or tin dish.

Directions—Put reflectors over the tub or pan. Bend the hooks at outer edges over the rim of the tub or pan. Set the tub or pan on a box, bench or post two or more feet high, in an open place, so the light can shine out in all directions. Fill the tub or pan nearly full of water close to the bottom of the reflector. Put a quarter of a pint of coal oil on the surface of the water enough to spread over the top of the water. Fill the torch three-fourths full of coal oil or kerosene, best quality. Light the torch at sunset. Use one Moth Catcher to the acre.

Will always burn when moths can fly. Wind will not extinguish torch if wick is high. Rub the reflectors with a cloth wet in coal oil and it will keep them bright and prevent rust. The moths and beetles see the light of the torch, which by the reflectors is increased 8 times. There is no heat in the reflection, so the insects strike the reflectors and fall, and are killed in the coal oil or kerosene on the surface of the water below. The reflectors also prevent the insects circling the light. This trap kills all the pests. No one raising Fruit, Apples, Peaches, Pears, Plums, etc., or Tomatoes, Tobacco, Sweet Corn, Cabbage, Cucumbers, Squashes, Pumpkins, Melons, Cotton and Bees, can afford to make perfect fruit crops, etc. The price is put so low all can use it—only 85c small size, and \$1.00 for large size. Torch and all ready to set on tub or tin dish.

HAND GRINDING MILLS

Hand Grinding Mill.

For Corn, Coffee, Spice, Etc.—These well known mills have attained a large sale, purely on their merits as rapid grinders. The grinding parts are all made of a specially good, tough iron which renders them durable, and they will last for years. When necessary, however, they may be renewed at a small cost. The capacity ranges from one to two bushels per hour, accordingly as the Mill may be set for fine or coarse grinding. The Mills may be adjusted to grind corn meal for table use, or only for cracking the grain. The product is evenly ground, whether the mill be set for coarse or fine work. They are very simple in construction, and not liable to get out of repair. The shaft is of steel. They are made all ready for attachment to table. The finish is quite attractive, painted wine color and varnished, with gilt ornamentation. Each Mill is racked separately for safe transportation. Weight 25 lbs. Price \$3.00 each.

BROWN'S

PAT. BY THOMAS L. BROWN, SEPT. 27, 1904

EASY WEEDER

destroy the roots of plants. The pushing edge is thin enough to work easily through the soil, but too dull to damage the stems of plants should it come in contact with them. Takes out all the weeds; its oval shape permitting the operator to weed behind the plants while standing in front. 35c each here, 45c postpaid.

Especially adapted for working among carnations, roses, etc. Equally as valuable to the market gardener and nurseryman and the best all-round weeder for the private garden.

Does not cut or de- through the soil, but too sharp. The inner edge is sharp. The inner edge is sharp.

ONE MAN WITH
THIS WEEDER CAN DO
MORE WORK THAN TWO CAN
DO WITH ANY OTHER WEEDER
ON THE MARKET
"AND DO IT BETTER"

THOMPSON'S BONE CUTTER

WARRANTED TO CUT BOTH DRY AND GREEN BONES

If you keep a Dozen Fowl or more you cannot afford to be without one.

This machine must not be confounded with the Bone Mill," as it cuts fresh bones from the butcher, and the latter only grinds dry bones, which do not contain any vegetable matter. This Cutter weighs about 55 pounds; size, tempered steel knives, 3-16 inches thick, and 2¼ inches wide; diameter fly wheel, 20½ inches. We can furnish this machine with crank in place of fly wheel if desired. Price: With crank, \$7; with fly wheel, \$8; arranged with pulley for power, \$12.50 here.

THE "TRIUMPH" CAPONIZING SET

There is no doubt in the minds of up-to-date poultrymen as to the advantages of caponizing. The operation is very simple, and with a "Triumph Caponizing Set" any boy 12 years of age can perform it with safety and thoroughness. Capons, as everyone knows, sell on the market as a rule from five to eight cents per pound higher than any other chickens. The demand for capons is always good, is steadily growing, and at this time a better market is assured the producer in this field than any other. Now is the time to get into the caponizing business, and the first thing to start right is to buy a "Triumph Caponizing Set." No more efficient, simple or more easily operated set is being offered the craft to-day than the Triumph, and you will make no mistake by selecting the Triumph set.

Prices: Set in plush-lined cloth-covered case, postpaid \$3.25; set in polished hardwood box, postpaid \$3.00; set in Japanned wood box, postpaid \$2.75. Instructions furnished with each set.

CONKEY'S ROUP CURE

Conquers roup, which is the most fatal and dreaded disease of the poultry yard, and is very contagious. It is usually the result of a cold, contracted in various ways, such as crowded houses, exposure to cold and damp weather, drafty quarters, filthy surroundings, which weaken the constitution of the fowls and make them subject to disease. Symptoms: Sneezing, followed by difficult breathing; discharge from the nostrils and eyes, which quickly thickens, becoming cheesy looking; rattling in the throat; offensive odor, loss of vitality, etc. Conkey's Roup Cure is a positive cure for all forms of this disease. We guarantee this. If it should fail, your money will be refunded. It is placed in the drinking water, the fowl takes its own medicine without knowing it. Coming in contact with the head and throat membranes, it kills the germs at once. It is quickly taken up by the system, and cleanses the blood and builds up the system. It is equally effective for Turkeys and for canker in pigeons. Price, 50c per box, makes 25 gallons medicine; and \$1.00 per box, makes 75 gallons medicine, postpaid.

CONKEY'S CHOLERA CURE

Is a positive cure for Bowel Trouble, Indigestion, Diarrhoea, Dysentery, Cholera, etc., in fowls both old and young. It tones up the system and puts the flock in excellent condition. A fowl which is troubled with disease of the digestive organs usually loses its appetite but becomes very thirsty. Conkey's Cholera Cure takes advantage of this important point as it is given in the drinking water, the fowl taking its own medicine. It is highly recommended for turkeys and pigeons. Price, 60c per box, postpaid, makes 50 gallons medicine.

CONKEY'S GAPE CURE

A truly wonderful remedy for the cure of this disease. It is prepared so that it can be given in the soft feed, thus avoiding the necessity of handling the fowls and relieving the poultryman of all labor. It builds up the health of the fowl and gradually overcomes the worm. It is absolutely sure and safe in its results. Also excellent for use as a preventative. Price, 60c per box, postpaid.

NEW OAT—SCOTTISH CHIEF

A new oat from Scotland, which has met with unqualified praise from all who have seen it. After being well tested for 2 years we recommend it with confidence. It comes in at same time as Banner, Siberian, etc., and produces an excellent straw, which stands up splendidly. It is a heavy side oat, of splendid quality, and yields most abundantly, having beaten every variety in the locality where it has been grown. Stock limited. Price, 85c bushel; 5 bushels \$3.75 here. Bags extra.

BRUCE'S RE-SELECTED DOMINION DAY TOMATO

We offer a new selection of this fine extra early tomato by same grower, which we believe to be the earliest variety on the market and equal in quality to any of the extra early sorts. Pkt. 10c., ¼ oz. 25c., ½ oz. 40c., oz. 70c., 2 oz. \$1.25.

REEDS FOR WEAVING

No. 1, fine, 15c oz., \$2.00 lb. No. 2, 15c oz., \$1.75 lb. No. 3 and No. 4, 12c oz., \$1.60 lb. No. 5, coarse, 10c oz., \$1.50 lb. 132 page book (illustrated) on Roffea and Reed Weaving, 75c.

Cocoanut Fibre—Unequalled for seed beds, mulching, etc. Per bag, \$1.00.

Tinfoil—(Subject to change.) Five inch wide, per lb., 25c; 10 lb. lots, 20c per lb.

Wire, Annealed—No. 24, 15c per lb.; No. 26, 25c per lb.; No. 28, 20c per lb.; No. 30, 25c per lb.; No. 36, 35c per lb.

Insect Powder Bulb, for Spraying Powder on Plants, etc. A very handy article; \$1.10.

Rubber Putty Bulb. No. 1, \$1.10. No. 2, 90c. No. 3, 75c. No. 4, 60c. No. 1 Angle, \$1.10. No. 2, \$1.00.

RUBBER PUTTY BULB, PRICE \$1.10.

Excellent for glazing. A pressure with the hand ejects the putty along sash bars; makes tight and neat joint; does not daub glass or stick to hands.

SCOLLAY'S RUBBER PLANT SPRINKLERS.

Indispensable for floral work and window gardening, and very useful for dampening clothes or sprinkling in any way.

If Putty Bulbs, Powder Bulbs, or Sprinklers are wanted by mail, add 10c Postage on each.
